How Dictatorships Work Hachette UK

In the late nineteenth and twentieth century; with the disappearance of monarchies in many parts of the world; a new autocratic system emerged - the dictatorship; in which all power over a state or community was again concentrated into the hands of one person; without being restricted by constitution; laws or opposition. The individual with this kind of absolute authority was known as the dictator. Here are the twenty dictators of modern times whose actions have left a strong imprint on destiny of the country they ruled; and sometimes even influenced the very history of the world. More often though; dictators rose to the power by leading a coup d'état; in which often a weak monarch of government was deposed and instead a dictatorship established. A nice read book to deep into history. Selected Stories of Honoré de Balzac by Honoré de Balzac: In this collection, Honoré de Balzac presents a selection of his acclaimed short stories, showcasing his incredible talent for vivid storytelling and

character development. With its rich language and engaging narratives, this book is a must-read for fans of classical literature. Key Aspects of the Book "Selected Stories of Honoré de Balzac": Collection of Short Stories: The book features a collection of acclaimed short stories by Honoré de Balzac. Vivid Storytelling and Character Development: The stories showcase Balzac's incredible talent for vivid storytelling and character development. How to Feed a Dictator Springer

A Tongue-in-Cheek Guide to Becoming a Dictator, Based on the Outrageous, Scandalous, and Excessive Behavior of Dictators Past and Present Who hasn't dreamed of one day ruling your own country? Along with great power comes unlimited influence, control, admiration, and often wealth. How to Be a Dictator will teach you the tricks of the trade—how to rise to the top and stay in power, and how to enjoy the fruits of your excellence.

Featuring examples from the most successful leaders and regimes in the business, including Kim Jong Il, Robert Mugabe, Muammar Gaddafi, Nicolae Ceausescu, François “Papa Doc” Duvalier, and many others, this handy guide offers ten easy lessons on becoming and acting like a dictator from how to rig an election and create your own personality cult to the dos and don'ts of dictator fashion. Other topics include: how to become wealthy and spend your fortune, sleeping around, expressing your literary genius, and how to avoid being toppled, exiled, and or meeting any other dismal end. Combining black humor with political insights, *How to Be a Dictator* is peppered with horrifying and hilarious stories from some of the most eccentric modern world leaders.

The Dictator's Learning Curve Createspace Independent Publishing Platform

It's not easy being a dictator these days. Since the end of the Cold War, dictatorships worldwide have been on the decline and those that survive have changed dramatically. This book offers insight into the way dictators are adapting to the demands of the modern world, and their insidious efforts to disguise their regimes as democracies.

Ruhnama Allen & Unwin

Draws on documentation released since the fall of the Soviet Union to offer a global history of communism in the twentieth century.

Defeating Dictators Random House

This book offers a fresh and original approach to the study of one of the dominant features of the twentieth century. Adopting a truly global approach to the realities of modern dictatorship, this handbook examines the multiple ways in which dictatorship functions - both for the rulers and for the ruled - and draws on the expertise of more than twenty five distinguished contributors coming from European, American, and Asian universities. While confronting the immense complexities of repression and popular response under dictatorship, the volume also poses a series of wide-ranging questions about the political organization of present-day mass society.

Rules for Revolutionaries Oxford Handbooks

“This country's leading hell-raiser” (The Nation) shares his impassioned counsel to young radicals on how to effect constructive social change and know “the difference between being a realistic radical and being a rhetorical one.” First published in 1971 and written in the midst of radical political developments whose direction Alinsky was one of the first to question, this volume exhibits his style at its best. Like Thomas Paine before him, Alinsky was able to combine, both in his person and his writing, the intensity of political engagement with an absolute insistence on rational political discourse and adherence to the American democratic tradition.

The Soul of a Deal Randall Wood

Lessons from the groundbreaking grassroots campaign that helped launch a new political revolution *Rules for Revolutionaries* is a bold challenge to the political establishment and the “rules” that govern campaign strategy. It tells the story of a breakthrough experiment conducted on the fringes of the Bernie Sanders presidential campaign: A technology-driven team empowered volunteers to build and manage the infrastructure to make seventy-five million calls, launch eight million text messages, and hold more than one-hundred thousand public meetings—in an effort to put Bernie Sanders's insurgent campaign over the top. Bond and Exley, digital iconoclasts who have been reshaping the way politics is practiced in America for two decades, have identified twenty-two rules of “Big Organizing” that can be used to drive social change movements of any kind. And they tell the inside story of one of the most amazing

grassroots political campaigns ever run. Fast-paced, provocative, and profound, *Rules for Revolutionaries* stands as a liberating challenge to the low expectations and small thinking that dominates too many advocacy, non-profit, and campaigning organizations—and points the way forward to a future where political revolution is truly possible.

The Oxford Handbook of the History of Communism Bloomsbury Publishing

Ever wonder if the world's tyrants are all using the same instruction manual? They are: here it is. From getting to power to dividing your enemies, suppressing revolution, stealing elections, and making your fortune, this 320 page volume shows you how the pros have been doing it for centuries. Fully factual, with a complete bibliography and footnotes, the *Dictator's Handbook* gives you a road map to tyranny, step by step. Beautifully illustrated by a professional artist, the text is funny and deadly serious. This is truly a practical manual for the aspiring tyrant.

The Predictioneer's Game University of Michigan Press

A devastatingly original look at the world's worst dictators, through the eyes of their personal chefs, by award-winning Polish author Witold Szablowski. What is it like to cook for the most dangerous men in the world? In this darkly funny and fascinating book, Witold Szablowski travels across four continents in search of the personal chefs of five dictators. From the savannahs of Kenya to the faded glamour of Havana, and the bombed-out streets of Baghdad, Szablowski finds the men and women who cooked fish soup for Saddam Hussein, roasted goat for Idi Amin and chopped papaya salad for Pol Pot. He reveals the strangeness of a job where a single culinary mistake could be fatal, but a well-seasoned dish could change your life. And in doing so, he lifts the veil on what life is like at the very heart of power.

How to Stand Up to a Dictator Albert Einstein Institution

An unconventional philosophy for starting and building a business that exceeds your own expectations What does it require to take a concept rapidly and effectively from mind to market? The *Benevolent Dictator* recognizes that entrepreneurship is a gauntlet. Those who succeed are benevolent dictators—able to make the intricate process happen in days, weeks and months to win. The *Benevolent Dictator* gives you no-nonsense how-to advice and examples that have worked. This non-traditional, gung-ho guide is not afraid to lay out the leadership methods that can effectively get a new business off the ground, and through the requisite fast-track growth phases that produce tangible success measured by your bottom line and your wallet. Learn critical specifics on how to move from idea development to build-out, through steps for continuous improvement, and on to the big cash out Features proven tools, strategies, and tactics that will help you bottle entrepreneurial lightning over and over again As the cofounder of office retail giant OfficeMax, the author turned a \$3 million investment into a \$1.5 billion sale in his 16 years as CEO Beating the competition is never easy. For those times when you need an iron hand, then you also need the wisdom to know when and how to use it. Whether you're a business student, aspiring entrepreneur, or a practicing executive, you need to discover the winning ways of *The Benevolent Dictator*.

The Dictator Next Door Random House

How Do Ordinary People Become Revolutionaries? In 2000, too-cool-to-care Belgrade rock kid Srdja Popovic found himself at the centre of a movement which was about to change the world. Popovic was one of the unexpected leaders of the student movement Otpor! That overthrew dictator Slobodan Milošević and established democracy in Serbia - all by avoiding violence and opting for something far more powerful: a sense of humour. In this inspiring and entertaining guide for would-be activists, he

tells his story and those of other 'ordinary revolutionaries' who have created real social change using non-violent techniques. Now the director of an organisation that helps to train pro-democracy activists, Popovic has worked with some of the most significant movements of our times, including the architects of the Arab Spring. Through examples such as a protest of Lego Men in Siberia (when flesh-and-blood people would have been shot), and a boycott of cottage cheese in Israel to challenge price inflation, Popovic tells stories of the true and sometimes ingeniously clever ways in which non-violent resistance has achieved its means. From Occupy Wall Street to Tahrir Square, and from Nelson Mandela to Harvey Milk, the tales Popovic tells are hilarious, accessible, inspiring, at times outrageous, and always about ordinary people achieving extraordinary things. 'With this wonderful book, Srdja Popovic is inspiring ordinary people facing injustice and oppression to use this toolkit to challenge their oppressors and create something much better.'

Peter Gabriel

Dictator Literature Routledge

Despite billions of dollars of aid and the best efforts of the international community to improve economies and bolster democracy across Africa, violent dictatorships persist. As a result, millions have died, economies are in shambles, and whole states are on the brink of collapse. Political observers and policymakers are starting to believe that economic aid is not the key to saving Africa. So what does the continent need to do to throw off the shackles of militant rule? African policy expert George Ayittey argues that before Africa can prosper, she must be free. Taking a hard look at the fight against dictatorships around the world, from Ukraine's orange revolution in 2004 to Iran's Green Revolution last year, he examines what strategies worked in the struggle to establish democracy through revolution. Ayittey also offers strategies for the West to help Africa in her quest for freedom, including smarter sanctions and establishing fellowships for African students.

Dictators' Dinners Simon and Schuster

"A mesmerizing study of books by despots great and small, from the familiar to the largely unknown." —The Washington Post A darkly humorous tour of "dictator literature" in the twentieth century, featuring the soul-killing prose and poetry of Hitler, Mao, and many more, which shows how books have sometimes shaped the world for the worse Since the days of the Roman Empire dictators have written books. But in the twentieth-century despots enjoyed unprecedented print runs to (literally) captive audiences. The titans of the genre—Stalin, Mussolini, and Khomeini among them—produced theoretical works, spiritual manifestos, poetry, memoirs, and even the occasional romance novel and established a literary tradition of boundless tedium that continues to this day. How did the production of literature become central to the running of regimes? What do these books reveal about the dictatorial soul? And how can books and literacy, most often viewed as inherently positive, cause immense and lasting harm? Putting daunting research to revelatory use, Daniel Kalder asks and brilliantly answers these questions. Marshalled upon the beleaguered shelves of The Infernal Library are the books and commissioned works of the century's most notorious figures. Their words led to the deaths of millions. Their conviction in the significance of their own thoughts brooked no argument. It is perhaps no wonder then, as Kalder argues, that many dictators began their careers as writers.

Routledge Handbook of the Arab Spring Chelsea Green Publishing

The self-immolation of Mohammed Bouazizi in Tunisia in December 2010 heralded the arrival of the 'Arab Spring,' a startling, yet not unprecedented, era of profound social and political upheaval. The meme of the Arab Spring is characterised

by bottom-up change, or the lack thereof, and its effects are still unfurling today. The Routledge Handbook of the Arab Spring seeks to provide a departure point for ongoing discussion of a fluid phenomenon on a plethora of topics, including: Contexts and contests of democratisation The sweep of the Arab Spring Egypt Women and the Arab Spring Agents of change and the technology of protest Impact of the Arab Spring in the wider Middle East and further afield Collating a wide array of viewpoints, specialisms, biases, and degrees of proximity and distance from events that shook the Arab world to its core, the Handbook is written with the reader in mind, to provide students, practitioners, diplomats, policy-makers and lay readers with contextualization and knowledge, and to set the stage for further discussion of the Arab Spring.

The Logic of Political Survival Scribe Publications

Explains how dictatorships rise, survive, and fall, along with why some but not all dictators wield vast powers.

Dictators, Democracy, and American Public Culture Picador Simple, direct and delightfully unprincipled, this is the essential book for the briefcase, handbag or knapsack of any aspiring world leader.

How to Rule the World Vintage

Contrary to our stereotypical views, dictators often introduce elections in which they refrain from employing blatant electoral fraud. Why do electoral reforms happen in autocracies? Do these elections destabilize autocratic rule? The Dictator's Dilemma at the Ballot Box argues that strong autocrats who can garner popular support become less dependent on coercive electioneering strategies. When autocrats fail to design elections properly, elections backfire in the form of coups, protests, and the opposition's stunning election victories. The book's theoretical implications are tested on a battery of cross-national analyses with newly collected data on autocratic elections and in-depth comparative case studies of the two Central Asian republics of Kazakhstan and Kyrgyzstan.

Dictator China Books

A Book of the Year for The Times and the Sunday Times 'The writer is the engineer of the human soul,' claimed Stalin. Although one wonders how many found nourishment in Turkmenbashi's Book of the Soul (once required reading for driving tests in Turkmenistan), not to mention Stalin's own poetry. Certainly, to be considered great, a dictator must write, and write a lot. Mao had his Little Red Book, Mussolini and Saddam Hussein their romance novels, Kim Jong-il his treatise on the art of film, Hitler his hate-filled tracts. What do these texts reveal about their authors, the worst people imaginable? And how did they shape twentieth-century history? To find out, Daniel Kalder read them all – the badly written and the astonishingly badly written – so that you don't have to. This is the untold history of books so terrible they should have been crimes.

The Benevolent Dictator Hachette UK

'Brilliant' NEW STATESMAN, BOOKS OF THE YEAR 'Enlightening and a good read' SPECTATOR 'Moving and perceptive' NEW STATESMAN Mussolini, Hitler, Stalin, Mao Zedong, Kim Il-sung, Ceausescu, Mengistu of Ethiopia and Duvalier of Haiti. No dictator can rule through fear and violence alone. Naked power can be grabbed and held temporarily, but it never suffices in the long term. A tyrant who can compel his own people to acclaim him will last longer. The paradox of the modern dictator is that he must create the illusion of popular support. Throughout the twentieth century, hundreds of millions of people were condemned to enthusiasm, obliged to hail their leaders even as they were herded down the road to serfdom. In How to Be a Dictator, Frank Dikötter returns to eight of the most chillingly effective personality cults of the twentieth century. From carefully

choreographed parades to the deliberate cultivation of a shroud of mystery through iron censorship, these dictators ceaselessly worked on their own image and encouraged the population at large to glorify them. At a time when democracy is in retreat, are we seeing a revival of the same techniques among some of today's world leaders? This timely study, told with great narrative verve, examines how a cult takes hold, grows, and sustains itself. It places the cult of personality where it belongs, at the very heart of tyranny.

The Political Economy of Dictatorship MIT Press

'A beautifully written, eminently readable and uniquely important challenge to conventional wisdom' J. D. Vance, author of *Hillbilly Elegy* 'A page-turner and revelation, *Political Tribes* will change the way you think' Tim Wu, author of *The Attention Merchants* In *Political Tribes*, Amy Chua argues that we must rediscover an identity that transcends the tribalism we see in politics today. Enough false slogans of unity, which are just another form of divisiveness. When people are defined by their differences to each other, extremism becomes the common ground. It is time for a more difficult unity that acknowledges the reality of our group differences and fights the deep rifts that divide us.
