The McLaren M23 first appeared in 1973, and became McLaren's first World Championship winner when Emerson Fittipaldi took the title in 1974. As depicted in the new feature film *Rush*, James Hunt gloriously repeated the feat in 1976 after a mighty season-long battle with Niki Lauda. Here, in this new Haynes Manual, is unique perspective on what it takes to restore, maintain and race a McLaren M23, as well as an insight into the design, engineering and development of this landmark Formula 1 car.

Infotainment and navigation systems, Wi-Fi, automatic software updates, and other innovations aim to make driving more convenient. But vehicle technologies haven't kept pace with today's more hostile security environment, leaving millions vulnerable to attack. The *Car Hacker's Handbook* will give you a deeper understanding of the computer systems and embedded software in modern vehicles. It begins by examining vulnerabilities and providing detailed explanations of communications over the CAN bus and between devices and systems. Then, once you have an understanding of a vehicle's communication network, you'll learn how to intercept data and perform specific hacks to track vehicles, unlock doors, glitch engines, flood communication, and more. With a focus on low-cost, open source hacking tools such as Metasploit, Wireshark, Kayak, can-utils, and ChipWhisperer, *The Car Hacker's Handbook* will

show you how to: -Build an accurate threat model for your vehicle -Reverse engineer the CAN bus to fake engine signals -Exploit vulnerabilities in diagnostic and data-logging systems -Hack the ECU and other firmware and embedded systems -Feed exploits through infotainment and vehicle-to-vehicle communication systems -Override factory settings with performance-tuning techniques -Build physical and virtual test benches to try out exploits safely If you're curious about automotive security and have the urge to hack a two-ton computer, make *The Car Hacker's Handbook* your first stop. An Instructional Guide for Reiki Healers No Starch Press Haynes disassembles every subject vehicle and documents every step with thorough instructions and clear photos. America, Incorporated *Auto Repair For Dummies*, 2nd Edition (9781119543619) was previously published as *Auto Repair For Dummies*, 2nd Edition (9780764599026). While

this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added

new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs. Tom Hartley Haynes
Publications

The car world is full of
fascinating characters,
but few have a story to
tell quite as remarkable
and inspirational as Tom
Hartley. Walking out of
school at the age of 11,
unable to read or write,
Hartley set up his own
business buying and

selling cars. From that
moment, he defied logic
and ripped up the rule
book on his way to the
top. Today he runs one of
the most successful
independent family run
performance and luxury
car businesses in the
world. He has built up an
unrivalled reputation as
"The Dealmaker." Tom
has been at the top for
over 40 years, survived
and thrived through four
recessions, and overcome
three life threatening
illnesses. In his own
brutally honest words,
Hartley tells his gripping
story of a boy from a
traditional Romany family
who swapped the
classroom for the cut-
throat world of Glasgow's
car auctions, buying and
selling his first car at the
age of 12. Having decided
to drive himself around
illegally, he was only 15
when he had his first car
crash, and they don't
come more spectacular
than writing off a Ferrari
Dino - nothing has ever
been normal in the world
of Tom Hartley! Hartley
had made his first million
by the age of 17, but soon
suffered major setbacks
as his business went bust,
and he found himself at
risk of losing his sight
without major surgery.
Hartley started all over
again, living in a mobile

home with his wife and working from the back of a car. He had gone from hero to zero, but his burning desire to be the best saw him climb his way back to the top. His ability to clinch deals in some of the most bizarre places has become legendary, like buying a car in a sauna, while stuck in a traffic jam on a motorway, and even in a swimming pool! Family has played a key part in the Tom Hartley story, his wife has been at his side all the way, and his two sons have followed closely in their father's footsteps. Indeed Tom's belief in family is one of the inspiring messages that comes through. Hartley's inspirational story is about the unshakeable belief in his own abilities, from a precocious schoolboy who had a dream, and then through sheer hard work and a burning desire to make the dream come true. This is not just a book for car enthusiasts but for anyone who has dared to dream. It's a story that will inspire and motivate, and proves you can make the wildest dream come true if you want it badly enough. Tom's remarkable story is written with the

collaboration of journalist Ken Gibson, for 24 years, award-winning Motoring Editor of The Sun newspaper.
