THE COMPLETE SERAPHIN MESSAGES,  
VOLUME I What is telepathy? Can we  
answer the divine telephone? Can we  
talk to an angel? Do we have a purpose?  
Can we find the perfect partner? How  
can we deal with the increasing brutality,  
violence and insanity in our world? How  
can we eradicate pollution and  
corruption long-term? How can each of

us contribute to renewing our lives and  
our communities? Is planet earth  
destined for destruction? Will there be  
global standstill? Are we alone in the  
universe? The angel SERAPHIN shows  
that we are not alone. He provides  
answers to all these questions, and  
many more, in this volume, the first of  
four, which document over 400  
conversations with the artist and author,  
Rosie Jackson Imagine talking to a  
person of great wisdom who always  
listens, always offers impeccable advice,  
always exercises compassion and always  
explains everything with ultimate

patience so that you fully understand. Seraphin, is a loving celestial being who is very much familiar with the situation on earth, and with its inhabitants. He takes us by the hand and shows us the way back to your own inner truth, thus furthering our soul growth. A very enlightening read for everyone who has the distinct impression that there is something terribly wrong with this world, and who wants to find out the true reasons, as well as true solutions which are in accordance with the greater cosmic plan.

Telekinesis, the non-physical movement of objects, is at first glance somewhat more unusual than telepathy. However, it is definitely a part of everyday life, even if it is not immediately recognized as such everywhere it occurs. When someone in karate smashes a brick with his hand or someone in distress can suddenly lift a car - what is that? There are also people who fill a room as soon as they enter - how do these people do it so that you can almost physically feel it? Fortunately, there is a simple experiment with which one can directly prove telekinesis in the sense of "moving without touching", as well as a multitude of playful experiments with which one can then further explore and practice telekinesis. Finally, a simple model can be derived from the observations that

describes the phenomena and makes practicing telekinesis much easier.
