Dabei beschränkte ich

Arbeiten meiner

Selbstverständlich wäre es höchst wichtig 'bei allen erwähnten Gruppen der niederen Tetrapoda alle Hauptorgansysteme der Extremität, d. H. Die Nerven, Muskeln, Gefäße und das Skelett im Zusammenhänge mit einander in derselben Weise, 'wie ich es für Ascalabotes zu tun versucht habe, zu behandeln und nur eine solche Arbeit könnte uns als Grundlage für eine auf sicherem Boden ruhende Theorie der Extremitäten dienen. Aber eine solche Untersuchung würde bei weitem den Rahmen einer einzelnen Arbeit und, infolge der ausserordentlichen technischen Schwierigkeiten, welche das Studium der Entwicklung der Muskeln und Nerven bietet, auch die Kräfte eines einzelnen Forschers überschreiten. BULLETIN DE LA SOCIA (C)TA (C) DES NATURALISTES DE MOSCOU, Forgotten Books

Excerpt from Bulletin De la Société d'Histoire Vaudoise, 1884, Vol. 13 Que l'on se représente maintenant la joie ineffable qui dut remplir le coeur de nos Vaudois à leur entrée dans ce refuge, après plusieurs années de dangers continuels et de continuels pélerinages; après les lutttes et les privations les plus cruelles, ils avaient trouvé un petit endroit, où ils pouvaient vivre tranquilles, d'après leurs convictions religieuses et élever leurs enfants dans

les moeurs et dans la foi des ancêtres. Aussi introduisirent ils tout de suite l'ancienne coutume, de se réunir tous les matins pour la prière: pieuse habitude qui se conserva jusque vers la moitié du kviii.e siècle, alors que les ecclésiastiques vaudois, étant venus à manquer, elle se perdit peu à peu. On grava aussi les paroles susmentionnées, sous l'image de la colombe, sur la chaire de leur temple. La joie et la reconnaissance de ceux qui venaient d'être arrachés au feu de la persécution, furent d'autant plus grandes, qu'ils trouvèrent dans le voisinage, à Homburg et Frz'edrichsdorf des coreligionnaires qui parlaient leur langue, et qu'un sort analogue au leur avait amenés dans le pays.
