Celia Wird and her three sisters are just like other 20-something girls—with one tiny exception: they're products of a backfired curse that has given each of them unique powers that make them, well, a little weird... The Wird sisters are different from every race on earth—human and supernatural. When human society is no longer an option for them, they move in among the resident vampires, werebeasts, and witches of the Lake Tahoe region. Could this be the true home they've longed for? Um, not quite. After the sisters accidentally strip a witch of her powers in a bar brawl, they soon realize the mistake will cost them. Because to take on a witch means to take on her coven. And losing the battle isn't an option. Includes a preview of the first full-length novel in the Weird Girls series, *Sealed with a Curse*—as well as introductions to the *Weird World*, and a letter from the author.

From the imagination of blink-182's award-winning author Tom DeLonge, the *Strange Times* crew first debuted in the graphic novel *Strange Times: The Curse of Superstition Mountain*. Now teamed-up with Geoff Herbach, also an award-winning author of the *Felton Reinstein Trilogy*, DeLonge tells the hilarious and haunting adventure that originally forced five outcast jerks to band together or give up the ghost. Charlie Wilkins has it all. Pitcher on the baseball team, point guard on the basketball team, good jock friends and girls who just love him. Then his U.S. Air Force dad goes M.I.A. during a secret mission and Charlie falls into darkness. He quits basketball, pushes away his old friends who all seem so stupid. He stops talking. Nobody knows what he's going through, because the government has forbidden the family from disclosing Dad's predicament. Charlie turns into a loner, until an Earth Science assignment forces him to join a new, messed-up team. Wiz has a brain for science, a love for steampunk, and a total disgust for most human beings. Heavy-set, picked-on Riley has a home life Harry Potter wouldn't trade for. Mouse and Mattheson are skateboard slackers with a keen interest in tacos and in building a model volcano that looks like a butt. With zero chemistry between them, Charlie can't see how he's going to pass this class. Will he be stuck, suffering, in eighth grade forever? The earth shifts. It seems impossible. A ghost girl reaches out to Charlie through the terrified skater boys. She's being stalked by a vengeful spirit that shares a past with Charlie's family. It soon becomes clear that the spirit is coming for him. He has to save the ghost girl and save himself. His only hope? The nerd Wiz, the loser Riley, the skaters Mouse and Mattheson who want to hook-up with the girl. But, seriously, she's a ghost. *Strange Times* indeed...

The World's Most Bizarre Medical Mysteries Marshall Cavendish International Asia Pte Ltd

Over fifty of the most fascinating accounts of history's greatest unsolved mysteries. Did werewolves roam the countryside of fifteenth century France? What exactly is El Chupacabra, a creature whose

name translates to "The Goat Sucker" in English? What phantoms and apparitions drift the halls of Borley Rectory, earning it the nickname of "The Most Haunted House in England"? Featuring maps, callouts, and facts that locate these mysterious happenings, *Strange* is a groundbreaking book and the first of its kind. In this riveting account of history's most baffling mysteries, two of the world's leading authorities on the supernatural, writer Colin Wilson and his son, Damon, search for the elusive answers to the most puzzling questions of the all time—from the fate of Atlantis to the curses of the ancient Egyptians to the Bermuda Triangle. Dozens of mysteries, some that have puzzled scientists and thinkers for centuries, are collected, illustrated, and explained in this captivating—and chilling—book. Lavishly illustrated and expertly written, *Strange* continues the Wilsons' quest for answers to the great mysteries of the universe, taking readers on a journey beyond the imagination where fact seems stranger than fiction.

Strange Girl Omnibus Protico

There was no blood. No death, injury, or dismemberment. (Well, possibly a little bit of dismemberment.) Cleo squirmed through the mass of spectators and crawled through two sets of legs to get into her room, where she found her roommates pretty much where she had left them, except now they were screaming and pointing at the interior of Cleo's second dresser drawer. The girls, trying to be nice (and also because they were seriously leery of Cleo), had unanimously decided to clean up the mess that Mae (or her cronies) had left. Once the mattress was relatively clean, they had split the remaining duties: half would clean the pillowcases, shoes, and floor; the other half would clean out the dresser and try to salvage Cleo's clothes. This was a great plan until somebody found the severed head rolled up in a sweater. Trouble is her middle name.... Cleo St. James isn't like other girls. In fact, she's downright creepy. But by the time she's nine years old, she's also alone-ignored by her parents and shunned by her peers. Her only friends are two grown men, and the fact that one is a gangster and the other a thief provides enough insight into the forces that shape Cleo into the weird young woman that she becomes. As Cleo grows up (too fast), her criminal tendencies lead her closer and closer to someone from her past--perhaps the only person in the world who truly understands her. With a sailor's vocabulary, a fine set of lock picks, and a few million in the bank, Cleo always gets what she wants. But when it comes to what she needs-a real connection with someone-it pays to have someone who knows her better than she knows herself.

This work presents the story and Art Deco ceramic designs of Clarice Cliff. Angular, uncompromising and embellished in strident primary colours, they were a sensation when they appeared in the 1920s and continue to command high prices in today's demanding market.

Bizarre Thailand takes readers off the well-rutted road of tourist hotspots into the darkest and sexiest hinterlands. Welcome to a twilight zone where travellers become soldiers and cowboys, a black magician courts politicians and film stars, sacred tortoises mate on the streets of a small town, and Fertility Goddesses are wooed with massive phalluses. In this strange land, nothing is what it seems: a prison becomes a tourist attraction, a 20-storey robot is a building, a man becomes a beauty queen, a Buddhist temple turns into hell on earth, a loving wife is immortalized as the most famous and ferocious of all phantoms, and a serial killer's corpse is reincarnated as a museum exhibit. Bizarre Thailand takes an irreverent look at how the profound, profane and frankly quite odd intertwine with the rhythms and flows of everyday Thai life, paying homage to the quintessential culture of one of Southeast Asia's most captivating destinations.

This is no ordinary true crime book. If you think you've got the stomach for the most blood-curdling, sickening and downright strangest murders you will ever come across, then look no further than these pages. You have been warned... Take, for example, Enriqueta Marti who kidnapped children from the streets of Barcelona, then boiled away their flesh and crushed their bones for ingredients for her coveted 'magic potions'. Or take Randy Kraft, known as The Scorecard Killer, a computer genius by day and a deranged psychopath by night. Finally arrested with a corpse slumped in the passenger seat of his car, it emerged that Kraft had spent over a decade cutting up and disposing of his numerous victims along the California highways. In this stomach-churning collection, all the stories have one thing in common - a unique bizarre twist. True crime writer James Marrison draws upon the material that has featured in the hugely successful column The Murder File in cult magazine Bizarre in order to disclose the kind of sickening deeds that are perpetrated more often than you might think, but which sometimes go largely unreported by the media. Welcome to The World's Most Bizarre Murders - the most shocking true crime book you will ever read.

How do reality television programs shape our view of the world and what we perceive as real and normal? This book explores the bizarre and highly controversial world of reality television, including its early history, wide variety of subject matter, and social implications. In recent decades, reality television shows ranging from Keeping up with the Kardashians to Duck Dynasty have become increasingly popular. Why are these "unscripted" programs irresistible to millions of viewers? And what does the nearly universal success of reality shows say about American culture? This book covers more than 100 major and influential reality programs past and present, discussing the origins and past of reality programming, the contemporary social and economic conditions that led to the rise of reality shows, and the ways in which the most successful shows achieve popularity with both male and female demographics or appeal to specific, targeted niche audiences. The text addresses reality TV within five, easy-to-identify content categories: competition shows, relationship/love-interest shows, real people or alternative lifestyle and culture shows, transformation shows, and international programming. By examining modern reality television, a topic of great interest for a wide variety of readers, this book also discusses cultural and social norms in the United States, including materialism, unrealistic beauty ideals, gender roles and stereotypes in society, dynamics of personal relationships, teenage lifestyles and issues, and the branding of people for financial gain and wider viewership.

These stories are meant to be uplifting & enough to get your day started with a smile on your face.

Strange Girls Mr D Andrew

A disturbingly original novel by the author of *Antichrist Superstar: The Musical*. The story of two men and their battle for one identity. Hallucinations. Or maybe they aren't. Visions. Or perhaps glimpses into ultimate reality. What do we want as a human race? And are there humans who are more so than others? Not a book for the timid, occasional reader nor for a good time on a lazy Sunday afternoon, *Bizarre Love Triangle* is just what its title suggests. A novel that is bizarre, about what love means and concerning three people.

Weird Girl Skyhorse

Balaskovits, author of *Magic for Unlucky Girls*, this new collection of unusual, fabulist fiction leads you down strange paths for dark encounters with familiar fairy tales, odd people from history, and weirdos who may be living right next door. Among the characters in these bizarre stories, a starving beauty finds a beast who can save her village, a man eats everything in sight but is never full, a woman gives birth to bloody animal parts, and a daughter is forced to dance every night to the reenactment of her father's murder. These tales invite you to spend time with people who, in the maddest of circumstances, chew their way forward. With elements of psychological horror, sly humor, and the fantastic, these stories will burrow under your skin, haunt your dreams, and make you wonder what worlds lie just beyond that tiny hole in the wall.
