The Monuments of Upper Egypt, a Tr. of the 'Itineraire de La Haute Égypte', by A. Mariette American University in Cairo Press

Excerpt from The Monuments of Upper Egypt: A Translation of the Itinéraire De La Haute Égypte, of Auguste Mariette-Bey An unpretending little volume was published in 1869 under the title of Itineraire des Invites de S. A. le Khédive aux Fêtes de l'Inauguration du Canal de Suez. The very title of the work is a record of the great historical event which gathered together many distinguished personages in Egypt. The Itineraire met with all the favour it deserved, and a first edition having been rapidly exhausted, a second one, with some slight alterations, appeared in 1872. It soon became evident, however, that as the majority of regular tourists on the Nile belong to the two great English-speaking nations, an English edition of the Itineraire would not prove otherwise than acceptable. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. C'est effectuant des recherches sur

Maat, la deesse de la justice de l'ancienne Egypte, que j'ai compris combien il etait difficile aux egyptologues de comprendre les vestiges de l'ancienne Egypte, en utilisant uniquement leur esprit conscient. Leur structure mentale ne leur permet pas d'entrer dans la logique des anciens peuples, parce ces derniers avaient une facon de percevoir le monde qui leur est etrangere. Les anciens peuples pouvaient ressentir beaucoup mieux que nous l'energie vitale qui circule dans la nature, autour d'eux, l'interieur d'eux-memes et dans le cosmos. Ils avaient explore les deux aspects du monde -materiel et immateriel-, et leur lois d'interaction. Ils avaient accumule des connaissances qui sont a notre portee dans leurs vestiges, et tout particulierement dans les vestiges juridiques archaiques. Mais elles sont la plupart du temps exprimees dans un langage et une iconographie symboliques, de type onirique qui ne peuvent informer correctement l'esprit rationnel de l'homme moderne. D'ou la necessite pour les chercheurs de se pencher sur les codes de leurs propres reves. C'est lorsque nous revons que nous nous rapprochons le plus de l'univers mental des anciens peuples. En effet, c'est quand nous revons que nous devenons, comme eux, sensibles l'energie vitale, et proccupes par sa preservation, une capacite que nous avons desormais perdue l'etat de veille. Les archeologues trouveront, exposee dans ce livre, une technique unique au monde pour travailler sur leurs reves de facon fructueuse pour leurs recherches. Elle est basee sur plus de 20 ans de recherches personnelles sur les anciens systemes juridiques et sur les connexions entre le reve et la realite. Je suis heureuse de partager ici l'experience

que j'ai acquise dans ces domaines, afin qu'elle puisse etre utile a tous les chercheurs professionnels et autres personnes intelligentes qui desirent faire progresser notre comprehension de l'ancienne Egypte et d'autres anciennes civilisations, et qui n'ont pu assister mes seminaires. Conquête ottomane de l'Égypte (1517) propose de mesurer l'impact de la défaite mamelouke face aux Ottomans sur les structures sociales, politiques et culturelles de l'Égypte, ainsi que sur les équilibres géopolitiques en Méditerranée, et d'étudier comment les contemporains perçurent l'événement. Conquête ottomane de l'Égypte (1517) examines how far Selīm I's victory and the subsequent fall of the Mamluk sultanate altered the political, social and cultural structures in Egypt, how far it transformed the balance of powers in the Mediterranean, and how contemporaries perceived this major event.

The essays in this volume, written by scholars around the world, have been collected in honor of Professor Ahmed Abd El-Qader El-Sawi, a towering figure in the field of Egyptian archaeology. El-Sawi enjoyed a long career at the Egyptian Department of Antiquities (now the Supreme Council of Antiquities), where he participated in excavations, documented Egyptian monuments, and supervised archaeological missions, both Egyptian and foreign, including the rescue of the Nubian monuments. In addition to his career in Egypt, Professor El-Sawi studied at Karl University in Czechoslovakia and worked on Egyptological ventures abroad, including the Tutankhamun exhibition in the United States and Britain, as well as missions to Turkey, Germany, and other nations. The papers in this volume are a well deserved tribute to his scholarship and dedication. Contributors: M. Abd Elkader, Randa Baligh, Ladislav Bares, Miroslav Barta, Edda Bresciani, Magdi Fekri, John P. Gnaedinger, Mahmoud El-

Edition, translation and study of an booklet dedicated to supplications to God, dated 267/880-881. This manuscript sheds light on the way traditional sciences were taught in Medieval Egypt, on little known circles of transmitters, and on the religious policy of the Tulunids.
