 George Gordon Byron (Noel) or Lord Byron was an English poet and a leading figure in the Romantic movement. Among his best-known works are the lengthy narrative poems Don Juan and Childe Harold's Pilgrimage, and the short lyric "She Walks in Beauty". Byron is regarded as one of the greatest British poets, and remains widely read and influential. He travelled extensively across Europe, especially in Italy where he lived for seven years. Later in life, Byron joined the Greek War of Independence fighting the Ottoman Empire, for which many Greeks revere him as a national hero. He died in 1824 at the young age of 36 from a fever contracted while in Missolonghi. Often described as the most flamboyant and notorious of the major Romantics, Byron was both celebrated and castigated in life for his aristocratic excesses, including huge debts, numerous love affairs – with men as well as women, as well as rumours of a scandalous liaison with his half-sister – and self-imposed exile. He also fathered Ada, Countess of Lovelace, whose work on Charles Babbage's Analytical Engine is considered a founding document in the field of computer science, and Allegra Byron, who died in childhood — as well as, possibly, Elizabeth Medora Leigh out of wedlock.

Quelque part dans la forêt de l'Arrière-pays se trouverait un labyrinthe. Lieu de tous les rêves, de tous les dangers et de toutes les chimères, personne ne sait s'il existe. Le labyrinthe sert de prétexte pour fertiliser l'imagination et les rêves, influencer sur les arts. Tombe dans l'inconscient, on lui prêterait une forme de pensée, la puissance d'une déité. Personne ne l'a traversé sans perdre la vie; mais des rumeurs tenaces courent. Un homme, Camelot, en aurait découvert l'entrée et l'aurait exploré pour devenir ce presque-vagabond qui vend des colifichets merveilleux, puis disparaît pendant des mois avant de revenir, des lueurs pleins les yeux. Dans ce récit plurivoque ou méandres labyrinthiques et méandres de la pensée se font écho, l'auteur nous livre un texte essentiel sur l'acte de création, ses conséquences et les sacrifices qu'il demande.

Jules Verne, a 19th-century French author, is famed for such revolutionary science-fiction novels as "Around the World in Eighty Days" and "Twenty Thousand Leagues Under the Sea". He has sometimes been called the "Father of Science Fiction", a title that has also been given to H. G. Wells and Hugo Gernsback. In all, Verne authored more than 60 books (most notably the 54 novels comprising the "Voyages Extraordinaires"), as well as dozens of plays, short stories and librettos. He conjured hundreds of memorable characters and imagined countless innovations years before their time, including the submarine, space travel, terrestrial flight and deep-sea exploration. Verne is generally considered a major literary author in France and most of Europe, where he has had a wide influence on the literary avant-garde and on surrealism. Verne has been the second most-translated author in the world since 1979, ranking between Agatha Christie and William Shakespeare. Some of the works appear only in their original French texts, due to copyright restrictions. This volume examines the tax systems of some twenty countries to determine whether their tax laws are used to support growth and development across borders in lower-income and poor countries. Given the critical economic development needs of poorer countries and the importance of stability in these regions to the security of populations throughout the world, the use of a country's tax laws to support investment in the developing world gains crucial significance. This book explores whether international standards promoting the fundamental values of the major tax systems of the world accommodate incentives for these nations. In addition, it analyzes the way in which adoption of principles by higher income nations to protect their own revenue bases has a spill-over effect, impairing the ability of developing countries to sustain their economies. Following an introduction that synthesizes worldwide trends, the volume contains separate chapters for a variety of countries detailing the underlying goals and values of each system and the way in which the decision to employ (or not employ) incentives accommodates those ends. The chapters include reports for: Australia, Belgium, Brazil, Croatia, Czech Republic, France, Hong Kong, Israel, Italy, Japan, the Maldives, the Netherlands, Poland, Portugal, South Africa, Uganda, United Kingdom, United States, and Venezuela. The volume memorializes the work of the General Reporter and National Reporters at the Taxation and Development session of the 19th Congress of the International Academy of Comparative Law held in July, 2014, in Vienna, Austria.

Dans ce cabinet de psychologie atypique, une vieille dame vient se faire aider pour surmonter l'absence d'un chat fugueur, un jeune garçon trouve tout naturel de venir raconter les rêves de son père, une amazone amputée d'un sein déboule, guidée par un chauffeur de taxi tombé raide amoureux de son visage aperçu dans le rétroviseur... Les vies plus ou moins blessées s'entremêlent, et Louise, la belle et plantureuse secrétaire règne sur ce ballet de dits et de non-dits avec une arme redoutable contre l'angoisse des uns ou la supposée inaptitude au bonheur des autres : la gourmandise. Les odeurs de caramel et de vanille, d'orange et de chocolat interviennent de manière on ne peut plus terrienne pour l'apaisement. Et les deux psys, sensés prendre des notes d'un ton grave, en sont vite conscients. À travailler tels des sculpteurs cette pâte humaine de façon pour le moins inattendue, ils vont se trouver en situation d'exercer une discipline trop méconnue de leurs pairs : la psychologie épicurienne.

Mohammad Amin Sheikho Birth: 1890 A.D (1308 A.H) Death: 1964 A.D (1384 A.H) Precept:

Interpretation of the Holy Qur'an Early Years Scholar Sheikho was born in al-Ward district in Sarouja Quarter, one of the historical districts of Damascus, in Syria which was called mini-Istanbul during the period of the Ottoman rule. He was raised in an Arab style house situated opposite the famous public al-Ward Bathhouse. This house stands there to the present day. Scholar Sheikho was still young when his father, the merchant Ismael Sheikho, departed this world. Mohammad Saleem, the only and elder brother of Mohammad Amin, was assigned as a director of the Military School during the Ottoman rule. Education At the age of twelve the boy who was to become the great scholar was enrolled at al-Rashidiya School, he then went on to complete his studies in Amber, the Royal Ottoman Faculty in Damascus. He received many certificates of praise and commendation during the Ottoman rule and then under the reign of King Faisal in Syria. There are many copies of these certificates still preserved in trustworthy hands. Achievements During the period of the Turkish rule, he was head of many police-stations in Damascus and its dependent counties. He was a shining example to all for his unflinching attention to duty, the vitality with which he approached every task, and the high level of achievement in many varied deeds which were of great benefit to mankind. During the French mandate he was appointed a director of the prisons of the citadel of Damascus. When the great Syrian uprising took place against the French forces, he helped the revolutionaries in every conceivable way until they placed the seal of the revolution in his trustworthy hands. Due to his subversive activities he fell foul of the French governor of Syria resulting in an order being issued for his execution; but the Almighty God saved him. During this period he was compliant in many attempts to overthrow French rule. He was the companion of Sheikh Amin Kufaro for almost twenty years and following his death Scholar Sheikho followed his footsteps and became the next in succession to guide and teach the disciples of the eminent sheikh. His assemblies were distinguished by the profound level of wisdom with which he imparted his teaching and guidance. He took great care to draw the attention of his followers to beware of the tales of the Israelites which defame the biography of the noble persons, the Envoys of God (pth), and of anything ascribed to them which conflicts their perfection and impeccability. In 1953, the famous coeval philosopher, Sir John Godolphin Bennett came from Britain to visit him. He remained in his company for three weeks that were filled with lengthy dialogues about the religion of Islam and its actuality. Sir John asked Scholar Sheikho many questions about the exact definition of the 'spirit' and the difference between that and the 'soul', as well as asking for clarification about Godly Justice, a topic which he found

difficult to comprehend. As a result of this visit, Sir John practised Islamic legislation and performed the prayers along with the followers of the scholar. This visit was referred to briefly in the autobiography of Sir John Bennett in his book *Witness*; but after his death, a book containing special personal recollections written by Sir John was published in 1975 under the title *Journeys in Islamic Countries*, wherein he spoke in detail about this meeting. In this book he gave a detailed account of the personality and character of Scholar Sheikho, and of his lectures and disciples. He also mentioned the great benefits he had derived from his life-changing meeting with the scholar. During his lectures Scholar Mohammad Amin Sheikho pointed frequently to the belief in the return of Jesus Christ (pth), from the Islamic perspective. He also indicated the near advent of this significant world event as, according to his explanations, most of the conditions for this momentous Hour had been fulfilled. This was disclosed in his book: *The Envoy of Peace Looms on the Horizon: the Return of Jesus Christ*. In referring to his meeting with Scholar Sheikho, Sir John made mention of this issue in his two books: *Witness* and *Journeys in Islamic Countries*. Professor Abdul-Kadir John, alias al-Dayrani, published the book *Stories of the Scholar* wherein he writes in detail about many deeds performed by his teacher, Mohammad Amin Sheikho. One of His Pupils Professor A. K. John, alias al-Dayrani is the best known and most distinguished among the pupils of Scholar Sheikho. He received a certificate of General Education (a Syrian certificate which included the study of nine different sciences). Prof. al-Dayrani collected and verified more than fifty books which were dictated by Scholar Sheikho and written on his behalf. Therefore his name is always mentioned in association with the name of Mohammad Amin Sheikho.
