MATTEO CANTRELL

God of Vengeance University of Toronto Press
 The story of Aelfred the Great, his war against the Vikings and the foundations of modern Britain. In AD 865, a 'great host' of battle-hardened Norse warriors landed on England's eastern coast, overwhelmed East Anglia with terrifying swiftness and laid the North to waste. Ghosting along estuaries and inshore waters, in 871 they penetrated deep into the southern kingdom of Wessex, ruled over by a new and untested king, Ælfred son of Æðelwulf. It seemed as though the End of Days was come. Max Adams tells the story of the heroic efforts of Ælfred, his successors and fellow-kings of Britain, to adapt and survive in the face of an apocalyptic threat; and in so doing, to lay the foundations of the nations of modern Britain in all their regional diversity.

Conflicts that Changed the World Random House

• Classic World War II unit history of the 5th SS Panzer Regiment, part of the 5th SS Panzer Division "Viking" • The unique 5th SS Panzer Division was made up largely of volunteers from

Denmark, Sweden, Norway, Finland, Estonia, the Netherlands, and Belgium • This regiment served on the Eastern Front from 1942 to the end of the war, including action at Kharkov and Warsaw • Draws heavily from the eyewitness testimonies of the 5th's members • First time in English

A History of the Vikings Random House

Conflict and warfare is perpetual in the world today. It has always been like that. The history of the human race is the history of conflict. Conquest and glory versus death and destruction. Who takes us to war and why? This book traces world history through the conflicts that changed the world. From the Battle of Megiddo in 1479 BC to the Wars of the Roses of the Middle Ages and the American Civil War of the 19th century. From World Wars I and II to the Iraq War and the ongoing war against terror. Some conflicts are not only turning points in war but in history itself. Contents include Persian invasion of Greece, wars of Alexander the Great, the slave rebellion of Spartacus, Julius Caesar's Gallic wars, Boudicca's rebellion, the birth of Islam, Viking raids, the Crusades, the Hundred Years War, fall of Constantinople, the wars of the Roses, Spanish conquest of Peru, the Anglo-Spanish wars, rebellion in Ireland, British Civil War, Jacobite rising, French revolution, Napoleonic wars, the Zulu war, Crimean war, the

American Civil War, World War I, World War II, the Cold War, Falklands war, the Gulf war, the war on Terror.

Viking Poems on War and Peace University of Toronto Press

Fan of the Vikings History Channel show? The Last Kingdom? 13th Warrior? Have questions, like: Who were the Vikings? - Illiterate, mindless barbarians bent on the destruction of Christendom? - Swashbuckling Columboes unaware of the larger world around them? "There's nothing on the other side of the North Sea, Ragnar!" - Agents from hell, sent to punish bad Christians? - Were they really that violent? - Why Attack Europe? - Why were they so successful? - How many Vikings were there? - Were there women Vikings like Lagertha? While the entertainment industry has focused on the Viking wars and raids in Britain, their invasions into Francia have largely been ignored. But a full understanding of the Viking Age must include this part of the story. Thankfully, we have historical documents from the period to give us that story. The Annals of St-Vaast--never before published in English--is one of the key sources for their adventures in the Kingdom of the Franks. Written in the last quarter of the 9th century, they cover the height of Viking invasions on the continent of Europe. The annals are a great companion for anyone interested in the perspective of the Christian world in this turbulent century. What you'll find inside this book: - The story of the great Siege of Paris! - The destruction of the Carolingian dynasty. - Intrigue, murder, treason, rebellion, and feuds between the Frankish Kings, their dukes, counts, and bishops. - Medieval Military History!: strategy, tactics, weapons, and logistics. - Professional historical analysis of the source. - An invitation to a Free Video Course on the Vikings, instructed by the author himself. - A sample of the author's upcoming historical-fiction novel, Anno Draconis, based on the Vikings in France, as well as a Free Advanced Copy and an exclusive invitation to the Official Launch Team for the book! If: - You're a fan of a movie or TV show looking for answers to questions you have about the Vikings? - You're a history geek looking for a new, previously untranslated, unpublished primary source for the Vikings, Francia, Charles the Fat, or the late Carolingian dynasty? Then Vikings, War and the Fall of the Carolingians is the book for you! Be bold, like a Viking, and scroll back up to the top of the page and BUY THIS BOOK! But pack your helmet, sword, and shield, because it's gonna be a rough ride, Ragnar.

The Viking Immigrants Graphic History: Warriors

At the height of their power in the ninth and tenth centuries, the Vikings seemed invincible – conquering, well-armed warriors whose ships were the ultimate in seafaring technology. From island bases near the deltas of major rivers, they used the waterways to scour the countryside, looting and burning towns, plundering merchant shipments, and stripping churches and monasteries of their gold, silver, and jeweled treasures. The Norsemen eventually penetrated all of England and Scotland, founded cities in Ireland, gained a powerful province in France, controlled Frisia and the modern Netherlands, and raided lands around Spain, passing into the Mediterranean to attack Italy and North Africa. They established the first Russian kingdom, challenged Constantinople, and provided a personal guard for the Byzantine emperor. They settled Iceland, where they developed Europe's first republic, founded two colonies on Greenland, and explored parts of North America five centuries before Christopher Columbus landed in the Americas. Then, like the abrupt end of a summer thunderstorm, their adventures ceased. Here is their dramatic story.

Princeton University Press

Until the early 1000s, waves of strange and ferocious warriors from the barren northlands swept into Britain and Western Europe. Plundering and pillaging, they left devastation in their

wake. Trembling victims never knew when they would strike next. The Vikings fought for personal glory, material wealth and a longing for adventure and freedom. This book tackles the myth of the Vikings, their unconventional methods of warfare, cunning strategies and boldly innovative ship building techniques. The author casts a scholarly eye and a fresh light onto these fiercely independent people.

The Wolf Age Vikings at War

Presents a history that traces the 300-year saga of the pirates and warlords who poured out of Scandinavia between the eighth and eleventh centuries, terrorizing, conquering, and settling vast stretches of Europe. This work provides an account of this early medieval period that became known as the Viking Age.

British History For Dummies New Word City

The Old Norse and Icelandic poets have left us vivid accounts of conflict and peace-making in the Viking Age. Russell G. Poole's editorial and critical analysis reveals much about the texts themselves, the events that they describe, and the culture from which they come. Poole attempts to put right many misunderstandings about the integrity of the texts and their narrative techniques. From a historical perspective, he weighs the poems' authenticity as contemporary documents which provide evidence bearing upon the reconstruction of Viking Age battles, peace negotiations, and other events. He traces the social roles played by violence in medieval Scandinavian society, and explores the many functions of the poet within that society. Arguing that these texts exhibit a mind-style so vastly different from our own present 'individualism,' Poole suggests that the mind-set of the medieval Scandinavian could be termed 'non-individualist.' The poems discussed are the 'Darradarljód,' where the speakers are Valkyries; 'Lidsmannaflokkur,' a rank-and-file warrior's description of Canute the Great's siege of London in 1016; 'Torf-Einarr's Revenge'; 'Egil's Duel with Ljótr,' five verses from the classic Egils saga Skallagrimssonar; 'A Battle on the Health,' marking the culmination of a famous feud described in a very early Icelandic saga, the Heidarviga saga; and two extracts from the poem Sexstefia, one describing Haraldr of Norway's great fleet and victory over Sveinn of Denmark, and the other the peace settlement between these two kinds. The texts are presented in association with translations and commentaries as a resource not merely for medieval Scandinavian studies but also for the increasingly interwoven specialisms of literary theory and anthropology.

Winter's Fire Casemate Publishers

The fantastically brilliant and amazingly adventurous saga of Erik the Viking returns in this special 30th anniversary edition. As Erk and the crew of The Golden Dragon set off in search of adventure, little do they know that their courage, skill, strength and stamina will all be tested to the extremes... Includes an exclusive foreword from Terry Jones and newly coloured illustrations from Michael Foreman.

Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Alfred the Great Pavilion Children's

1100 years ago marked the start of a Viking invasion of the Mersey region, which reached out into Chester, West Lancashire and beyond. The Vikings left behind place-names like Kirkby,

Kirby, Meols and Croxteth, which can also be found in Iceland, another region they were invading. This book is about these people in peace and war, their customs, traditions, pastimes, their paganism and their Christianity, their governments and their financial centre at Chester. It also includes a section on how modern genetic research is being used to discover the descendants of these Invaders in the modern day population.

Vikings, War and the Fall of the Carolingians University of Toronto Press

"In graphic novel format, tells several tales of prominent Viking warriors and explorers from history and describes the weapons, armor, and battle tactics used by them"--

Medieval England John Wiley & Sons

Who were the Vikings, and do they deserve their unsavoury reputation? Through over 100 primary source documents, this fascinating collection weighs the cultural importance and lasting influence of the Vikings.

Lords of the Isles Skyhorse

An illustrated guide to Viking warfare from strategy and weapons to culture and tradition: "a very excellent introduction to the Viking age as a whole" (Justin Pollard, historical consultant for the Amazon television series *Vikings*). From the time when sailing was first introduced to Scandinavia, Vikings reached virtually every corner of Europe and even America with their raids and conquests. Wherever Viking ships roamed, enormous suffering followed in their wake, but the encounters between cultures also brought immense change to both European and Nordic societies. In *Vikings at War*, historian Kim Hjarðar presents a comprehensive overview of Viking weapons technology, military traditions and tactics, offensive and defensive strategies, fortifications, ships, and command structure. The most crucial element of the Viking's success was their strategy of arriving by sea, attacking with great force, and withdrawing quickly. In their militarized society, honor was everything, and ruining one's posthumous reputation was considered worse than death itself.

Vikings at War features more than 380 color illustrations, including beautiful reconstruction drawings, maps, cross-section drawings of ships, line-drawings of fortifications, battle plan reconstructions, and photos of surviving artifacts, including weapons and jewelry. Winner of Norway's Saga Prize, *Vikings at War* is now available in English with this new translation. "A magnificent piece of work [that] I'd recommend to anyone with an interest in the Viking period." —Justin Pollard, historical consultant for the Amazon television series *Vikings*

The Children of Ash and Elm Countywise Ltd

A thrilling work of popular history that gives a new perspective on the Viking-Anglo conflicts and brings the bloody period to life. In the eleventh century, the rulers of the lands surrounding the North Sea are all hungry for power. To get power they need soldiers, to get soldiers they need silver, and to get silver there is no better way than war and plunder. This vicious cycle draws all the lands of the north into a brutal struggle for supremacy and survival that will shatter kingdoms and forge an empire. The Wolf Age takes the reader on a thrilling journey through the bloody shared history of England and Scandinavia, and across early medieval Europe: from the wild Norwegian fjords to the wealthy cities of Muslim Andalusia. Warfare, plotting, backstabbing and bribery abound as prize-winning historian Tore Skeie weaves together sagas and skaldic poetry with bold dramatization to bring the world of the Vikings and Anglo-Saxons to vivid life.

'Skeie has a unique ability to conjure images of the richest detail, everything from chaotic battles to the period's exhausting day-to-day life' A-MAGASINET Tore Skeie is one of Norway's most acclaimed historians, having written several prize-winning and bestselling works of medieval history. Tore is known for his eye

for historical and human drama, while his books have been praised both for their thrilling style and the way they challenge traditional nation-oriented historical narratives. The Wolf Age was a bestseller in Norway, won the prestigious Sverre Steen award and is the first of Tore's books to be translated into English.

The Viking Age Bloomsbury Publishing

If you want to discover the enthralling history of medieval England, then keep reading... Knights, monks, kings, plague, war, Vikings, revolts, and so much more appear in the six hundred or so years known as the medieval period of English history. Our culture has romanticized many of these elements, and the Middle Ages has become full of stereotypes and tropes that appear again and again in movies, books, and even in our imaginations. But what was it really like? This book will separate the myth from reality and reveal what you know about medieval England and what you only think you know. It covers a sweeping overview of the period and dives into many of the fascinating facts and stories that have made people love the Middle Ages for so long. In this book, you'll learn about: How England got started What it took to be the best and worst English king Why you wouldn't want to be a peasant in the Middle Ages How one of the greatest catastrophes in human history, the Black Death, unfolded The harsh punishments that kept the peace How the church became the most powerful organization of the period Why armored cavalry stopped being used in battles What medieval people did for fun And much, much more! Scroll up and click the "add to cart" button to learn about the incredible medieval period of English history!

The Viking Wars of Alfred the Great Hachette UK

A Viking statue, a coffee pot, a ghost story, and a controversial cake: What can the things that immigrants treasured tell us about their history? Between 1870 and 1914 almost one-quarter of Iceland's population migrated to North America, forming enclaves in both the United States and Canada. This book examines the multi-sensory side of the immigrant past through rare photographs, interviews, artefacts, and early recipes. By revealing the hidden histories behind everyday traditions, *The Viking Immigrants* maps the transformation of Icelandic North American culture over a century and a half.

Norse Warfare Pegasus Books

A TIMES BOOK OF THE YEAR 'As brilliant a history of the Vikings as one could possibly hope to read' Tom Holland The 'Viking Age' is traditionally held to begin in June 793 when Scandinavian raiders attacked the monastery of Lindisfarne in Northumbria, and to end in September 1066, when King Harald Hardrada of Norway died leading the charge against the English line at the Battle of Stamford Bridge. This book, the most wide-ranging and comprehensive assessment of the current state of our knowledge, takes a refreshingly different view. It shows that the Viking expansion began generations before the Lindisfarne raid, and traces Scandinavian history back centuries further to see how these people came to be who they were. The narrative ranges across the whole of the Viking diaspora, from Vinland on the eastern American seaboard to Constantinople and Uzbekistan, with contacts as far away as China. Based on the latest archaeology, it explores the complex origins of the Viking phenomenon and traces the seismic shifts in Scandinavian society that resulted from an economy geared to maritime war. Some of its most striking discoveries include the central role of slavery in Viking life and trade, and the previously unsuspected pirate communities and family migrations that were part of the Viking 'armies' - not least in England. Especially, Neil Price takes us inside the Norse mind and spirit-world, and across their

borders of identity and gender, to reveal startlingly different Vikings to the barbarian marauders of stereotype. He cuts through centuries of received wisdom to try to see the Vikings as they saw themselves - descendants of the first human couple, the Children of Ash and Elm. He also reminds us of the simultaneous familiarity and strangeness of the past, of how much we cannot

know, alongside the discoveries that change the landscape of our understanding. This is an eye-opening and surprisingly moving book.

Viking Panzers John Wiley & Sons

Explores the history of the Lordship of the Isles at its widest extent - the rulers of the west coast and islands of Scotland.
