Understanding the relationship between the price paid and the value received is what distinguishes a good investment from a poor one. \*\*\*\*\* Back in the days  
of the wild, Wild West,  
when easterners  
traveled across this  
vast country looking  
for opportunity in the  
newly opened  
territories, they were  
often referred to as a  
'tenderfoot'. This  
wasn't a  
complimentary term  
but it was a rather apt  
one. The easterners  
wore 'city' shoes that  
weren't designed to  
withstand the rigors of  
the western terrain.  
Their hats didn't have  
wide brims to protect  
them from the sun and  
their clothing wasn't  
made of tough material  
like denim. These new

westerners didn't know  
how to take care of  
themselves and  
because they didn't  
know where and what  
the dangers were they  
didn't have any idea  
how to avoid them. If  
you are just beginning  
to consider the idea of  
investing in real estate  
you are a tenderfoot  
and you do need some  
instruction to avoid  
losing your shirt...and  
probably your pants,

First you will need to  
determine what your  
strategy will be in real

you want to buy a

sell it quickly or do you  
want to buy a property,

you want to deal with

questions is ones that  
you need to answer

Investing in Rent-to-Own Property is the distillation of years of investment experience in real estate. It is a both strategy and a system, which provides stable, proven returns for the investor. On the flip side of the coin, the homebuyer is provided a house that fits their needs and budget. Why should an investor have rent-to-own as part of his or her investment portfolio? This book lays out in clear detail the benefits of rent-to-own and how to get started with a rent-to-own strategy. Loaded with tips and case studies, here are the core components of the system: How to identify properties How to carry

it's an opportunity to  
check out a location for  
a couple of years so  
that they're certain it's

for others it's the

#### Rental Property Investing: Secrets of the World's Best Real Estate Investors - And How You Can Use Them to Create Wealth and Passive Income.

INVESTING. What a scary word! However, if done correctly, it can be a BIG SOURCE OF MONEY! You already know this, that's why you're here, but that isn't enough. Are you afraid of making mistakes? Perhaps, you tried looking for some info on the internet that could help you

understand how to manage it, but the terror of failing is as if it paralyses you, am I right? "Next time" was my motto, and maybe yours too. In the beginning, I was just like you, and nobody could help me... I've travelled seas, mountains, oceans, countries and cities before finding any information that could push me beyond my vast fear of bankruptcy. I learned that we need to release from the fear of changing, unbalancing and jumping beyond the parapet to be able to fly! If we continue to do the same things that we've done until now, then you can be sure that NOTHING WILL CHANGE. This was the first life lesson I learned by studying this market. The first

thing you need to change to become a good investor is your mentality! After I understood that, I became rich! Yes, rich. Thinking continuously like a poor dependant who earns the necessary salary to survive and pay taxes will NEVER allow you to get what you've always dreamed of! NO! The HEAVY ECONOMIC CRISIS that people talk about can't be an excuse to give up! Only if you wanted to, you could create a capital from thousands of cents, or lose a huge amount of them! You make the decision. I chose the first option. Another thing I learned during my education is that you need to learn how to invest in yourself first, and then on the rest! So, what could be the first

definitive step to make value; the step to discover how to earn by investing?
