The Rules of Parenting, 2nd Edition Pearson UK

A brand new collection of great parenting advice -- fun, non-judgmental, and amazingly helpful! 3 great books help you become a better, happier parent... and raise happier, less stressed, more successful children! When it comes to parenting, nobody's perfect, nobody can do it all, and nobody can guarantee results. Not you. Not anyone. So, how do you do the things you can do? The things most likely to help your children enjoy their lives, and grow into healthy, confident, successful, happy adults? These three books bring together invaluable advice: help that's fun, friendly, non-judgmental, realistic, and above all, useful! Richard Templar's *The Rules of Parenting, Expanded Edition* serves up 100+ flexible tips and adaptable "Rules" for your family, starting with the most important Rule of them all: RELAX. Here's all you need to know from toddler to first boyfriend/girlfriend, driving lessons through college and beyond... help with attitude, discipline, siblings, school, teenage life, crises, "grown" children... and above all, staying sane! Next, in *Nobody Told Me That!*, Roni Jay offers great advice for raising kids who are more confident, resilient, ethical, loving, competent, responsible, fulfilled, engaged, and enthusiastic. Jay identifies what the most successful parents do, distills those insights into 10 core principles, and shows how to actually apply them in your own family. Finally, in *How Your Child Thinks*, world-renowned child psychologist Dr. Stephen Briers goes inside your child's mind, and helps you give them the skills, tactics, and strategies they'll need to manage their own lives. Briers teaches powerful, proactive techniques that don't simply respond to bad behavior, but keep it from happening in the first place. Drawing on compelling new research on positive psychology, he shows how to cultivate specific habits of thought that nurture resilience and help "inoculate" against depressive illness... promote happiness and well-being... cultivate personal competence and social confidence... boost problem-solving skills, and more. With these eBooks, you and your kids will enjoy each other more... and they'll grow up with the solid foundation they need to find their own paths, build their own lives, and thrive! From world-renowned family happiness experts Richard Templar, Roni Jay, and Stephen Briers

"This is a definitive code for personal business success? Key points, concisely made, that can steer anyone through the minefield of office life." *Management Today* Some people seem to be just great at their job. They glide effortlessly onwards and upwards through all the politics, the back stabbing, the system, the nonsense that goes on. They always seem to say and do the right thing. Everybody likes them. They get pay rises and promotion. They get on with the boss. And somehow, they do all these without breaking much of a sweat or seeming to put in excess effort. Is there something they do that we don't? Is it a natural ability or something we could all learn? The answer is a most definite and resounding yes. They know the 'Rules of Work'. These rules are about how you are seen to be doing your job ? brilliantly and efficiently. They are about how you appear to others ? successful and confident. The Rules of Work takes simple information about how people relate to each other in a

completely artificial environment - the workplace ? and uses it to promote your rise up the ladder of success. This is the book for you if you want to get on and up without becoming ruthless or unpleasant. This is the book for you if you want to be successful and still be able to live with yourself, and be regarded as a thoroughly decent person by your colleagues and bosses.

One of the greatest gifts you can give your children is a strong sense of personal values. Helping your children develop values such as honesty, self-reliance, and dependability is as important a part of their education as teaching them to read or how to cross the street safely. The values you teach your children are their best protection from the influences of peer pressure and the temptations of consumer culture. With their own values clearly defined, your children can make their own decisions -- rather than imitate their friends or the latest fashions. In *Teaching Your Children Values* Linda and Richard Eyre present a practical, proven, month-by-month program of games, family activities, and value-building exercises for kids of all ages.

The Rules to Raise Happy, Healthy Children (Collection) FT Press

"When Swedish-born Linda McGurk moved to small-town Indiana with her American husband to start a family, she quickly realized that her outdoorsy ways were not the norm. In Sweden children play outside all year round, regardless of the weather, and letting young babies nap outside in freezing temperatures is not only common--it is a practice recommended by physicians. In the US, on the other hand, she found that the playgrounds ... were mostly deserted ... Struggling to fit in and to decide what was best for her children, McGurk turned to her own childhood for answers. Could the Scandinavian philosophy of 'there is no such thing as bad weather, only bad clothes' be the key to better lives for her American children?"--
