Unemployment levels are on the rise nearly everywhere, and the rate is particularly high among young people. If this trend is not reversed, the potential long-term economic and social damage is incalculable. For this reason a particular urgency attended an international conference on the subject held in March 2009 at the Marco Biagi Foundation in Modena, Italy, in the course of which specialists in labour law, human resources management, labour economics, sociology, education, and statistics met to present and compare research. This issue of the Bulletin of Comparative Labour Relations includes a selection of the papers presented at that conference. Although the selected essays present findings on specific issues in particular countries, the general applicability at the global level is evident. Assessing measures taken to deal with youth unemployment in thirteen countries (Italy, Spain, Russia, Sweden, Bulgaria, Estonia, Hungary, Poland, Israel, Nigeria, the United States, China, and Singapore), twenty-five leading authorities describe and analyse such aspects of the problem as the following: vocational education and training; quality of employment as well as quantity; links between educational institutions and local, national and international enterprises; consultation and co-operation between employers'

associations and trade unions; job security vs. employment security; funding for postgraduate programmes, internships, and on-the-job vocational training; career development for future managers; safeguards for workers in a framework of flexibility; labour market pressure from unskilled immigrant workers; 'earn-as-you-learn' schemes; work in the informal economy; and the rationale behind the phasing out of passive labour market measures for school leavers such as unemployment benefits.

I found just the right samples in this book to make my life easy so that I could produce the multiple letters yearly that are requested of me." Sonya S. "I am not a professional writer, but I feel that this book took my mediocre skills and helped them blossom by showing me samples of effective letters. I especially liked the letters protesting charges, and I created effective letters protesting medical charges. People assume you are more serious when you write a letter instead of trying to handle problems verbally. This book helped me leave a 'paper trail' and get taken seriously so that I could resolve some chronic financial problems." Julio G. "When I wanted to get reinstated to my academic program, I didn't give myself much of a chance, but I took my best shot by following samples in this book. I will be graduating soon, and I got a second chance at academic eligibility because of this book." Fritz H. "It blew me away when I found samples of business marketing letters I could use to find potential new customers. I have discovered that everyone likes reading letters, and the business marketing letters I now use-thanks to the samples in this book-have dramatically boosted my sales." Nadal S.
