San Francisco Bay Area Sports brings together fifteen essays covering the issues, controversies, and personalities that have emerged as northern Californians recreated and competed over the last 150 years. The area's diversity, anti-establishment leanings, and unique and beautiful natural surroundings are explored in the context of a dynamic sporting past that includes events broadcast to millions or activities engaged in by just a few. Professional and college events are covered along with lesser-known entities such as Oakland's public parks, tennis player and Bay Area native Rosie Casals,

environmentalism and hiking in Marin County, and the origins of the Gay Games. Taken as a whole, this book clarifies how sport is connected to identities based on sexuality, gender, race, and ethnicity. Just as crucial, the stories here illuminate how sport and recreation can potentially create transgressive spaces, particularity in a place known for its nonconformity.

The story of how the emerging food justice movement is seeking to transform the American food system from seed to table. In today's food system, farm workers face difficult and hazardous conditions, low-income neighborhoods lack supermarkets but abound in fast-food restaurants and liquor stores, food products emphasize convenience rather than wholesomeness, and the international reach of American fast-food franchises has been a major contributor to an epidemic of "globesity." To combat these inequities and excesses, a movement for food justice has emerged in recent years seeking to transform the food system from seed to table. In Food Justice, Robert Gottlieb and Anupama Joshi tell the story of this emerging movement. A food justice framework ensures that the benefits and risks of how food is grown and processed, transported, distributed, and consumed

are shared equitably. Gottlieb and Joshi recount the history of food injustices and describe current efforts to change the system, including community gardens and farmer training in Holyoke, Massachusetts, youth empowerment through the Rethinkers in New Orleans, farm-to-school programs across the country, and the Los Angeles school system's elimination of sugary soft drinks from its cafeterias. And they tell how food activism has succeeded at the highest level: advocates waged a grassroots campaign that convinced the Obama White House to plant a vegetable garden. The first comprehensive inquiry into this emerging movement, Food Justice addresses the increasing disconnect between food and culture that has resulted from our highly industrialized food system.

### **Child Care, Exploring Private and Public Sector Approaches** MIT Press

A "must read" debut collection of poetic, linked essays investigating the past and present state of California, its conflicting histories and their impact on a writer's family and life (Los Angeles Times). California has been advertised as a destiny manifested for those ready to pull up their bootstraps and head west across to find wealth on the other side of the Sierra Nevada since the 19th century. Across the seven essays in the debut collection by José Vadi, we hear from the descendants of those not promised that prize. *Inter State* explores California through many lenses: an aging obsessed skateboarder; a self-appointed dive bar DJ; a laid-off San Francisco tech worker turned rehired contractor; a grandson of Mexican farmworkers

pursuing the crops they tilled. Amidst wildfires, high speed rail, housing crises, unprecedented wealth and its underlying decay, *Inter State* excavates and roots itself inside those necessary stories and places lost in the ever-changing definitions of a selectively golden state.

### Alameda County BoD - Books on Demand

The county was formed on March 25, 1853, from a large portion of Contra Costa County and a smaller portion of Santa Clara County. Much of what is now considered an intensively urban region, with major cities, was developed as a trolley car suburb of San Francisco in the late 19th and early 20th centuries. The historical progression from Native American tribal lands to Spanish, then Mexican ranches, then to farms, ranches, and orchards, then multiple city centers and suburbs, is shared with the adjacent and closely associated Contra Costa County. This detailed narrative gives an in-depth view of the county's history.
