Current Affairs July 2015 eBook Disha Publications

This report summarizes the investments in clean energy of the Asian Development Bank (ADB) in 2011, condensing information from project databases and formal reports in an easy-to-reference format. This report was prepared by ADB's Clean Energy Program which provides the cohesive agenda that encompasses and guides ADB's lending and non-lending assistance, initiatives, and plan of action for sustainable growth in Asia and the Pacific.

Liberty Development and Production Plan Disha Publications

TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by The Energy and Resources Institute (TERI) since 1986. It is the only comprehensive energy and environment yearbook in India which provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, residential, and commercial sectors), and environment (local and global). The publication also provides a review of the government policies that have implications for these sectors of the Indian economy. Each edition of TEDDY contains India's commercial energy balances for the last four years that provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a

valuable ready reckoner for researchers, scholars, and organizations working on energy and related sectors. After the introductory chapters, for the ease of readers, TEDDY has been divided into sections on energy supply, energy demand, and local and global environment. The thirtieth edition of the publication, TEDDY 2015/16, comes with several interesting features. The Green Focus at the end of each chapter highlights sustainable initiatives and successful practices, which are of current interest in the sectors discussed under the sections on energy supply, energy demand, and local and global environment. The publication also features a section that discusses sustainable development goals and air pollution and health. Interactive graphs, figures, maps, and tables have been used throughout the chapters to explain facts, which make the book an interesting read. In addition, detailed tables at the end of each chapter represent statistical data on each of the above-mentioned sectors. The publication is accompanied by a complimentary CD containing full text. The publication has more than 15,000 readers across the globe and is often cited in international peer reviewed journals and policy documents. Key Features: · Exhaustive compilation of data from energy supply and demand sectors · Recent data along with data for the past years presented in the form of structured and easy to understand tables · Recent advances made in the energy sectors are covered in the book · Self-explanatory figures and graphs showing the latest trends in various sectors are also part of chapters · The [Green focus] section in every chapter highlights a topical issue · The book comes with a complimentary CD that

contains all the chapters and additional tables Contents: Energy and environment: an overview, Commercial energy balance tables and conversion factors □ Energy supply: Coal and lignite, Petroleum and natural gas, Power, Renewable energy sources and technologies □ Energy demand: Agriculture, Industry, Transport, Household energy □ Local and global environment: Environment, Climate change □ Energy and environment goals: Sustainable development goals and implications for India, Air pollution and health

Electrical Engineer Asian Development Bank

This volume is a collection of 63 speeches of the Prime Minister in his third year in office (from May 2016 to April 2017). Divided in five sections, the speeches in this volume invoke the concept of good governance; lay down the dream for making India prosperous and proficient in various fields; they hail the contributions of soldiers, farmers and scientists; they raise the hope for respect and better life for all our countrymen and they present a clear commitment for Rising India.

Down to Earth 2011 Clean Energy Investments

India and the Indians have made some progress in 75 years after Independence. The number of literates has gone up. The Indians have become healthier and their life expectancy at birth has gone up. The proportion of people below the poverty line has also halved. But the shine from the story fades when India is compared with that of the East Asian Tigers and China. It looks good but not

good enough. India looks far away from the glory it seeks. This issue forms the core subject matter of this book. It tries to argue why India could not achieve more and what all it could have achieved. It paints a picture of its possible future and highlights the areas that need immediate attention.

Энэхүү журам нь Азийн Хөгжлийн Банк (АХБ)-наас олгосон аливаа зээл, буцалтгүй тусламж, эсхүл АХБ-наас захиран зарцуулдаг сангаас бүрэн ба хэсэгчлэн санхүүждэг зээлийн болон техник туслалцаа (ТТ)-ны төслийн зөвлөхийг сонгон шалгаруулах, гэрээ байгуулах, түүнд хяналт шинжилгээ хийх үед дагаж мөрдөх АХБ-ны бодлого, горим журмыг тодорхойлно.

Energy-Emissions Trends and Policy Landscape for India The Energy and Resources Institute (TERI)

The Current Affairs Quarterly Supplement 2015 compiled by Jagranjosh.com covers all the current affairs of past three months starting from 1 July 2015 to 30 September 2015

which are relevant for all types of competitive exams like IAS/PCS, SSC, Banking, MBA and others. In this book updates on all sections like National, International, Economy, State, Corporate, Environment & Ecology and Science & Technology, Personalities, Appointments, Awards, Committees/Commissions that took place in the respective months of July, August and September 2015 are available. Details – Current Affairs Quarterly Supplement 2015 · It is a collection of three eBooks namely Current Affairs July 2015 eBook, Current Affairs August 2015 eBook and Current Affairs September 2015 eBook. · It

provides the comprehensive coverage of the current affairs that happened in July, August and September 2015. · It covers the current affairs of past three months with ample background and provides a detailed analysis of all the national and international events. · The presentation of the current affairs is provided in very simple and easy-to-understand language. · It provides diary of events of India and World for each month that would be very helpful in revising just before the exams. · It also provides more than 100+ One Liners for each month which would be of great help to aspirants in their preparations. · The Current Affairs Quarterly Supplement 2015 will be of immense help for the candidates preparing for forthcoming exams. · The eBook will be handy for the forthcoming exams like IBPS CWE PO/MT -V (Main) Exam, IBPS CWE RRB - IV, Combined Defence Services Exam (II) 2015, NDA & NA Exam (II) 2015, Indian Economic Services/Indian Statistical Services Exam 2015, Combined Geo-Scientist & Geologists Exam 2015, Engineering Services Exam 2015, Combined Medical Services Exam 2015, Civil Services (Mains) Exam 2015, Central Armed Police Forces (AC) Exam 2015 and others. We hope that you will find the Current Affairs Quarterly Supplement 2015 of immense help in your preparation for different types of Competitive Exams.

The Economy Compendium for IAS Prelims General Studies CSAT Paper 1, UPSC & State PSC 2nd Edition

Ramdevsinh Jadeja

The thoroughly revised & updated 2nd edition of the book "The Economy Compendium" has been updated with all the recent developments happened in the economic sphere. Special emphasis has been given to Demonetisation, GST,

Budget 2017-18, National Economic Survey and Digital Economy. New chapters on Digital Economy and GST, Welfare Schemes / Program, World Economy have been added. The book is empowered with Mind Maps, Infographics, Charts, Tables and latest exam pattern MCQs. The emphasis of the book has been on conceptual understanding and better retention which are important from the point of view of the exam. The book captures most of the important questions with explanations of the past years of the IAS Prelim exam, State PSC, NDA and other competitive exams distributed in the various chapters. The book is divided into 11 chapters followed by 2 levels of exercises with 1000+ Simple MCQs & statement based MCQs.

Indian Economy Compendium for IAS Prelims General Studies Paper 1 & State PSC Exams 4th Edition Penguin Random House India Private Limited

Current Affairs July 2015 eBook brought to you by Jagranjosh.com covers all the international and national current affairs that will help the candidates while preparing for different competitive exams like IAS/PCS, SSC, Bank, MBA and others. Current Affairs July 2015 eBook It provides the comprehensive coverage of the current affairs that happened in July 2015. It covers the current affairs of July 2015 with ample background and provides a detailed analysis of all the national and international events. The presentation of the current affairs is provided in very simple and easy-to-understand language. The July 2015 eBook will be of immense help for the candidates preparing for forthcoming exams. The eBook will be handy for the forthcoming exams like IBPS CWE PO/MT -V (Main) Exam, IBPS CWE RRB - IV, Combined Defence Services Exam (II)

2015, NDA & NA Exam (II) 2015, Indian Economic Services/Indian Statistical Services Exam 2015, Combined Geo-Scientist & Geologists Exam 2015, Engineering Services Exam 2015, Combined Medical Services Exam 2015, Civil Services (Preliminary) Exam 2015, Central Armed Police Forces (AC) Exam 2015 and others. The July 2015 eBook is the result of effort of experts in competitive exams and covers the current affairs from the field of national, international, economy, corporate, sports, science & technology, environment & ecology, awards/honours, books/authors, committees/commissions, reports/surveys, and other important current affairs.

Fuel Pricing in India The Energy and Resources Institute (TERI)

This volume is a collection of 76 speeches of the Prime Minister in his fourth year in office (from May 2017 to April 2018). Divided in five sections, the speeches in this volume invoke the concept of good governance; lay down the dream for making India prosperous and proficient in various fields; they hail the contributions of soldiers, farmers and scientists; they raise the hope for respect and better life for all our countrymen and they present a clear commitment for Rising India.

TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2020/21 John Wiley & Sons

The report describes key features of ADB's operations in India and how these have evolved to support the Government of India's focus on high, inclusive and sustainable growth. As of December 2012, the Asian Development Bank (ADB) had approved 168 sovereign loans amounting to \$27.2 billion and 344 technical assistance projects amounting

to \$258 million on a cumulative basis for India. Today, ADB operations cover over 20 states in India. While infrastructure projects in the energy, transport, and urban sectors comprise over 75% of ADB's operations in the country, ADB is also engaged in promoting water resources management, agribusiness infrastructure development, financial inclusion, skills development, and regional cooperation and integration. The report provides a compendium of ongoing projects and case studies across ADB's sectors of operations in India. It also highlights the innovative elements of projects and showcases the impact of development assistance on people's lives and livelihoods.

India-ADB Development Partnership
Asian Development Bank

TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by TERI since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, household, buildings), and environment (local and global). Recent changes in the energy sector and environment are depicted with the help of graphs, figures, maps, and tables. The publication also reviews government policies associated with energy and environment. TEDDY 2020/21 gives an account of India's commercial energy balances, extensively covering energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable reference for researchers, scholars, and organizations

engaged in energy and related sectors. Contents of the book are organized into three sections—Energy Supply, Energy Demand, and Local and Global Environment. Interlinkage of SDGs with energy and environment also forms the subject matter of TEDDY 2020/21. The thirty-sixth edition continues to remain less prose intensive with inclusion of more data, represented with the help of infographics, thus making the publication an authentic and interesting read. Key Features:

- Provides a review of government policies, programmes and initiatives that have implications for the petroleum and natural gas sector and the Indian economy
- New chapters on Air Pollution, Solid Waste Management, Water Resource Management, and Land and Forest Resource Management
- Exhaustive data from energy supply, energy demand, and local and global environment sectors

Contents: Energy and environment: an overview Energy supply: Coal and lignite • Petroleum and natural gas • Power • Renewable energy Energy demand: Agriculture • Industry • Transport • Household energy • Buildings Local and global environment: Air quality and pollution • Solid waste management • Water resource management • Land and forest resource management • Climate change Audience: Researchers and Professionals from industries, government organizations, and public sector undertakings. Research scholars from different NGOs, bilateral and multilateral institutions, and academic institutions. Shelving: Energy, Environmental Sciences and Studies, Industry (Coal and lignite, oil and gas, power, renewable energy), climate change, Agriculture sector, Transport sector, domestic sector For sample chapters and Sankey diagram, please visit:

www.teriin.org/projects/teddy List of Tables Energy and Environment: An Overview 1. SEC Indian industries 2. Trend in consumption of select petroleum products in the transport sector in India (in MT) • Commercial energy balance (2019/20) • Commercial energy balance (2020/21) (P) Coal and Lignite 1 New environmental norms for TPSs 2 FGD implementation status of TPSs—general summary (capacity in MW) 3 FGD implementation status of TPSs situated in NCR (capacity in MW) • Pithead run of mine price of non-coking coal applicable for Eastern Coalfields Limited, Bharat Coking Coal Limited, Central Coalfields Limited, Northern Coalfields Limited, Mahanadi Coalfields Limited, South Eastern Coalfields Limited, and North Eastern Coalfields Limited, with effect from 27 November 2020 • Revised price of coking coal for NRS • Pit head price of non-coking coal applicable for Western Coalfields Limited, with effect from 27 November 2020 Petroleum and Natural Gas 1 Proved and probable reserves status during 2019/20 2 LNG terminals in India 3 Trend in installed refining capacity of Indian refineries 4 Trend in subsidies for the sale of petroleum and natural gas in India 5 List of taxes for the production and sale of crude oil in India 6 List of taxes for the production and sale of natural gas in India 7 Retail selling price and taxes on petrol and diesel in India and other countries in 2019/20 8 Trend in CNG stations, CNG vehicles, and CNG sales quantity in India • City gas distribution bidding parameters • Year-wise work programme for successful CGD bidders • Crude oil pipelines and capacity status • Petroleum products pipeline infrastructure status • Status of existing natural gas pipeline infrastructure • Price build-up of LPG in

Delhi · Price build-up of superior kerosene oil (LPG) in Mumbai · Price build-up of MS in Delhi · Price build-up of HSD in Delhi · Status of domestic PNG connections, industrial, commercial PNG, and CNG connections (as on 31 May 2021) Power 1 Progress of substations in India up to March 2020 2 Import /export of energy by India into/from countries during 2019/20 3 Status of construction of Green Energy Corridors as on 31 December 2019 4 Works accomplished under IPDS 5 State/UT-wise AT&C loss performance (in %) 6 Average cost of supply, average revenue, and revenue gap 7 Selected state-/union territory-average tariff for sale of electricity in India (2007/08 to 2013/14) (in paise/kWh) 8 Sanctioned smart grid pilot projects and implementation status Renewable Energy 1 Status of solar parks in India 2 Top five players in solar PV 3 Benchmark costs for various solar thermal technologies Agriculture 1 Production, imports, and consumption of fertilizers ('000 tonnes of fertilizers) 2 Source-wise net irrigated area in India (in Mha) 3 Distribution of GHG emissions by sub-sectors from the agriculture sector in 2010 and 2016 (in GgCO₂e) 4 State-/UT-wise cold storage capacity as on 31 December 2019 5 Irrigation water productivity of rice, wheat and sugar cane in major growing states 6 State-/UT-wise cumulative installation of solar water pumps (as of 31 December 2020) 7 On-farm solar energy interventions linking water and land use in different states in India · Policy categories and key nodal agency impacting energy use in agriculture · Electricity consumption in the agriculture sector Industry 1 Brief overview of different PAT cycles for aluminium sector 2 Production of aluminium by primary aluminium producers (in tonnes) 3 SEC in aluminium smelting 4 Brief overview of different PAT cycles for cement sector 5 Cement production 6 Average and best practice energy consumption values for Indian cement plants by process 7 Brief overview of different PAT cycle for chlor-alkali sector 8 Production of chlor-alkali 9 Section-wise energy consumption in caustic soda production 10 Brief overview of different PAT cycles for fertilizer sector 11 Production of urea, DAP and complex fertilizers (in MT) 12 Benchmarking energy consumption in the fertilizer sector 13 Brief overview of different PAT cycles for iron and steel sector 14 Crude steel production and capacity utilization 15 Comparison of Indian and international SEC for steel industry 16 Brief overview of different PAT cycles for pulp and paper sector 17 Benchmarking energy consumption in different industry groups of pulp and paper sector 18 Brief overview of different PAT cycles for textile sector 19 Production of yarn and fabric in India 20 Typical energy requirements for different process in the textile industry 21 Brief overview of different PAT cycles for petrochemical sector 22 Production (in MT) of major petrochemicals in India 23 Share of different types of energy consumption in petrochemical plants (in %) 24 Energy for ethane and naphtha crackers Transport 1 Trend in consumption of select petroleum products in India 2 India's road network 3 Lane-wise length of national highways in India (in km) 4 Freight and passenger movement by roads 5 Major port-wise capacity utilization during 2018/19 (in MT) 6 Cargo traffic handled at ports in India (in MT) 7 Traffic handled at non-major ports (in MT) 8 Funds allocated under Sagarmala scheme to coastal states/ UTs (2015/16–2018/19) 9 Cargo movement through inland waterways

	Target versus actual coal supply (in MT)

in India 5 Coal production by CIL and SCCL 6 Production of coal (in %) from opencast and underground mining 7 Coal off-take (in %) by different sectors in India during 2020/21 8 Lignite off-take (in %) by different sectors in India during 2020/21 9 Coal transportation by various modes for 2018/19 10 India's import of coal (in percentage share) 11 Coal imports and production trend (in MT) 12 India's export of coal (in percentage share) 13 Fly ash generation and utilization (in MT) between 2015 and 2021 14 Mode of fly ash utilization during 2019/20 Petroleum and Natural Gas 1 Total balance recoverable crude oil and natural gas reserves in India 2 Basin-wise ultimate hydrocarbon reserves as on 31 March 2020 3 Basin-wise in-place hydrocarbon reserves as on 31 March 2020 4 Trend in domestic crude oil production 5 Crude import, product imports, and total imports 6 Crude import, product imports, and total imports 7 Trend in production of petroleum products from refineries and fractionators 8 Country-wise crude oil imports by India 9 Trend in petroleum products' consumption in India 10 Status of petroleum products' consumption during 2019/20 11 Trend in domestic natural gas production 12 Trend in natural gas production and import dependency 13 Trend in consumption of natural gas by different sectors 14 Trend in consumption of imported and domestic natural gas by different sectors 15 Crude throughput of Indian refineries 16 Trend in gross refining margin of Indian refineries 17 Trend in subsidies for the sale of petroleum and natural gas in India 18 Share of tax/duties to total contribution of petroleum sector to exchequer 19 Contribution of taxes from the oil and gas industry to the central exchequer 20 Trend of Excise Duty on

petrol and diesel vis-à-vis crude oil price in India 21 Contribution of taxes from the oil and gas industry to the state exchequer 22 State-wise collection of sales tax/VAT/SGST/UTGST from the oil and gas industry in 2019/20 23 Trend in retail selling price and taxes of gasoline in India vis-à-vis other countries 24 Trend in retail selling price and taxes of diesel in India vis-à-vis other countries 25 Trends in the price of domestic gas produced in India on GCV basis 26 Trend in the geographical areas offered and awarded under city gas distribution bidding 27 Status of state-/UT-wise piped domestic, commercial, and industrial connections · Indian sedimentary basins Power 1 Installed generating capacity in India by mode (utilities) as on 31 March 2021 2 Installed generating capacity in India by sector (utilities) as on 31 March 2021 3 Growth rate of installed generating capacity in India (2020/21) 4 CAGR of installed generating capacity in India (2012-20) 5 Growth rate of electricity generation in India (2019/20) 6 Electricity generation in India (2012-20) 7 Growth of gross electricity generation in India by mode 8 PLF of coal- and lignite-based power plants 9 Power supply position: energy 10 Power supply position: peak 11 Growth rate of peak demand and met (2011-21) 12 Growth rate of energy requirement and availability 13 Sector-wise electricity consumption pattern 14 Electricity intensity of economy 15 AT&C and T&D losses 16 Per capita electricity consumption 17 Sustainable Development Goals Renewable Energy 1 Linkages of other SDGs to SDG 7 2 Grid power and their percentage share till March 2021 3 Growth of renewable energy sources (till March 2021) 4 Top 10 states in renewable installation (till March 2021) 5 Installed solar capacity

(2015–21) 6 Top 10 states grid-connected installed solar capacity (till 28 February 2021) 7 Solar tariff (till March 2020/21) 8 Top 10 states by targets rooftop capacities 9 Net solar PV installed (2017–2020) 10 State-wise wind power potential at 100 m above ground level 11 Growth of wind energy sector (till July 2019) 12 State-wise installed capacity (as on December 2020) 13 Cumulative biomass power, gasification and bagasse cogeneration projects (up to June 2019) 14 State/UT-wise cumulative commissioned biomass power, waste-to-power, and bagasse cogeneration grid connected projects (up to 30 June 2019) 15 Family-size biogas plants (up to June 2019) 16 State-/UT-wise maximum waste generation and processing in urban areas in India .. (as on 31 December 2018) 17 Cumulative waste-to-energy/power projects (up to June 2019) 18 State-wise ethanol manufacturing capacity in India 19 Year-wise cumulative installed capacity till June 2019 20 Tidal energy potential 21 Target for geothermal energy deployment Agriculture 1 Production of different agricultural products in India 2 HSD and LDO consumption in the agriculture sector 3 Electricity consumption in the agriculture sector 4 Region-wise electricity consumption in the agriculture sector 5 Production of urea, diammonium phosphate, and other complex fertilizers (in MT) 6 Trend in GHG emission from the agriculture sector in India (in GgCO₂e) 7 Percentage share of major farm machineries used in Indian agriculture 8 Farm power availability and foodgrain yield 9 Share of major crops in the gross cropped area in India (in %) 10 Number of tractors sold 11 Number of power tillers sold 12 Number of diesel and electric pumps used in India 13 Selected state UT-wise

area covered under microirrigation (drip and sprinkler) in India Industry 1 Share of different processes in crude steel production Transport 1 World transport sector energy balance 2 Share (in %) of GHG emissions in transport sector in India 3 India transport sector energy balance 4 Total number of registered motor vehicles in India 5 Trend in electrification of route network of railways 6 Gauge-wise growth in network of the Indian Railways 7 Addition made to capacity through new lines, gauge conversion, and doubling of lines by the Indian Railways 8 Trend in passenger traffic movement on the Indian Railways 9 Trend in railways freight segment earnings on average rate per tonne kilometre basis 10 Trend in fuel consumption in the Indian Railway 11 Share of commodity groups in total traffic at major ports in 2017/18 12 Growth in capacity in Indian shipping industry in terms of number of vessels and gross tonnage 13 Trend in passenger load factor of scheduled Indian airlines in the domestic market Household Energy 1 Residential consumers of LPG 2 Percentage of power consumption in residential sector to total power consumed by all sectors 3 Consumption of LPG and kerosene in the residential sector 4 LPG refills from May 2016 until June 2019 5 Growth of LPG consumers in India 6 Consumption of LPG consumers in India 7 Consumption of LPG (in %) in residential sector 8 Growth of residential consumers in India 9 Consumption of electricity by residential sector Buildings 1 Consumption of electricity by sectors in India in 2019/20 2 Commercial energy consumption by use 3 Residential energy consumption by use 4 Building typologies as per ECBC, 2017 5 Building typologies as per Eco-Niwas Samhita,

2018 6 HVAC load break-up (in %) 7 Energy-efficient building design process 8 Building form and orientation for passive design 9 Shading design strategies 10 Structural and thermal loads 11 Façade with different WWR 12 Daylighting as a passive design strategy 13 Types of ventilation 14 Energy reduction with increase in design indoor temperature 15 Percentage growth of cooling requirement in India Air Quality and Pollution 1 Annual ambient concentration of different pollutants across the country during 2008–20 2 State/UT-wise average ambient air quality status of different pollutant parameters for the period of 2008–20 3 Sectorial contribution to ambient PM10 and PM2.5 4 Institutional framework of air quality governance in India Solid Waste Management 1. Trajectory of average MSW generated in India between 2011 and 2019 2. MSW management status in India 3. MSW composition for waste received from Gurugram 4. Status of solid waste treatment 5. Major e-waste contributing states in India 6. Composition of plastic waste in major plastic waste generating cities in India as of 2015/16 7. GHG emissions from solid waste disposal sites and reduction potential 8. Emission points from MSW sector · Status of MSW generation in each state/UT of India · Major recycling infrastructure in some of the states of India · Plastic waste generation in some of the Indian states/UTs · Management of plastics in India · Average constituents of C&D waste · C&D waste generated in major cities of India · C&D waste management in India · C&D waste recycling in a typical recycling facility Water Resource Management 1. Per capita water availability in relation to population (a) Category of groundwater exploitation in

monitored blocks in India and (b) the number of groundwater assessment units 2. Depth to water-level maps for (a) pre-monsoon and (b) post-monsoon in 2018 3. Trend of average water table in India from 1980 to 2015 4. Number of districts with fluoride in groundwater above the permissible limit 5. Number of locations in different states with arsenic concentration in groundwater above the permissible limit (0.01 to 0.05 mg/L and > 0.05 mg/L) 6. Number of districts with electrical conductivity in groundwater above the permissible limit 7. Number of districts with iron in groundwater above the permissible limit 8. Number of districts with nitrate in groundwater above the permissible limit (45 mg/L) 9. Net irrigated area in India 10. Access to safe drinking water in rural households (in %) 11. Access to safe drinking water in urban households (in %) 12. BOD trends of waterbodies in India (in mg/L) 13. Total coliform (in MPN/100 mL) trends of waterbodies in India 14. Faecal coliform (in MPN/100 mL) trends of waterbodies in India Land and Forest Resource Management 1. Percentage of area under various uses in 2017 2. Land-use change from 2010/11 to 2014/15 3. Linkage of SDG 15 to other SDGs 4. Forest cover in terms of percentage to the total geographical area 5. Trend analysis of forest cover in India between 2005 and 2019 6. Forest area of six regions of the country along with annual fire alerts 7. Trend in afforestation from 2007/08 to 2014/15 by MoEFCC 8. Endemic and threatened endemic species of India 9. The area under protected areas in India Climate Change 1 Annual total number of extreme climatic events in India 2 All-India annual mean temperature anomalies for 1901–2020 (based on the 1981–2010 average) 3 Spatial patterns of liner

trends of (a) maximum and (b) minimum temperatures

4. Spatial pattern of trend ($^{\circ}\text{C}/100$ years) in mean annual temperature anomalies (1901–2020)
5. Decadal means of all-India summer monsoon rainfall (in percentage departure from mean)
6. All-India annual mean percentage departures for 1901–2020 (based on the 1961–2010 average)
7. Sub-divisional trends of (a) seasonal and (b) monsoon rainfall for 1901–2003
8. Time series of active (upper panel) and break (lower panel) during the monsoon season
9. Cyclone tracks of depressions and cyclonic storms formed during 2020: a) monsoon season b) other seasons
10. Emission trends across four major CO₂ emitters
11. CO₂ emissions (in MTCO₂) in India in comparison to GDP (PPP)
12. CO₂ emissions within subsectors in India
13. Emissions by fuel type in India
14. Comparison of coal cess collected, amount transferred to, and financed from projects recommended under NCEEF

List of Maps

1. Crude oil and product infrastructure in India
2. Natural gas infrastructure in India

Renewable Energy

1. Solar potential of Indian states/union territories
2. State-wise wind energy potential at 100/120 m above ground level
3. Biomass power, bagasse cogeneration, and waste-to-energy
4. Small hydro potential in India
5. Geothermal potential in India

Agriculture

1. State-wise annual land-use cover change in India: 2003–05 to 2011–13

Building

1. Climate zone map of India

Water Resource Management

1. Places with fluoride concentration more than 1.5 mg/L
2. Locations with arsenic concentration in groundwater above the permissible limit (0.01 to 0.05 mg/L and > 0.05 mg/L)
3. Distribution of electrical conductivity in India

Land and Forest

Resource Management

1. Wasteland map of India
2. State-wise number of wetlands in India
3. Forest types in India
4. Forest cover in India

TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2019/20 Asian Development Bank

TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by TERI since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, household, buildings), and environment (local and global). Recent changes in the energy sector and environment are depicted with the help of graphs, figures, maps, and tables. The publication also reviews government policies associated with energy and environment. TEDDY 2019/20 gives an account of India's commercial energy balances, extensively covering energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable reference for researchers, scholars, and organizations engaged in energy and related sectors. Contents of the book are organized into three sections—Energy Supply, Energy Demand, and Local and Global Environment. Interlinkage of SDGs with energy and environment also forms the subject matter of TEDDY 2019/20. The thirty fifth edition continues to remain less prose intensive with inclusion of more data, represented with the help of infographics, thus making the publication an authentic and interesting read. Key Features:

- Provides a review

of government policies, programmes and initiatives that have implications for the petroleum and natural gas sector and the Indian economy • New chapters on Air Pollution, Solid Waste Management, Water Resource Management, and Land and Forest Resource Management • Exhaustive data from energy supply, energy demand, and local and global environment sectors Contents: Energy and environment: an overview Energy supply: Coal and lignite • Petroleum and natural gas • Power • Renewable energy Energy demand: Agriculture • Industry • Transport • Household energy • Buildings Local and global environment: Air quality and pollution • Solid waste management • Water resource management • Land and forest resource management • Climate change Audience: Researchers and Professionals from industries, government organizations, and public sector undertakings. Research scholars from different NGOs, bilateral and multilateral institutions, and academic institutions. Shelving: Energy, Environmental Sciences and Studies, Industry (Coal and lignite, oil and gas, power, renewable energy), climate change, Agriculture sector, Transport sector, domestic sector

The Electrical Engineer Asian Development Bank
2011 Clean Energy Investments Asian Development Bank
Energy Abstracts for Policy Analysis Disha Publications
This evaluation focuses on the Asian Development Bank (ADB) interventions to stimulate energy efficiency investments in industry and buildings. Among the key findings is that energy pricing and market imperfections need to be addressed to promote energy efficiency investments. ADB and governments in developing member

countries should support the removal of various barriers to energy efficiency investments in Asia and the Pacific.

PT 365 Govt Schemes for UPSC and all other exam 2020: Latest Indian Govt Policy and Schemes for Competitive Exams It gives us immense pleasure in presenting the Latest Government Schemes 2020, Useful for UPSC Prelims, Mains and all other competitive exams, this book deals with the relevant features and topics of Latest Government Schemes for Civil Services Exams in a systematic and comprehensive manner by the use of simple and concise language for easy and quick understanding. We hope that the readers will find this book user friendly and helpful in preparation of their examinations. I look forward to have the views, comment, suggestions and criticism from readers which would definitely help in further improvement of the Book. I would like to heartfelt thanks to all my team members for their efforts to prepare this book. Latest Government Programme / Schemes 2020 have become an integral part of a lot of entrance exams being conducted by UPSC and State PSC Exams. It is very important for students to remain updated on the current happenings in their surroundings especially those that are important from the perspective of competitive exams. These Govt. Schemes, a thoroughly revised, reorganised, updated and ENLARGED edition, presents a comprehensive study of all the sections that are covered under the subject of General Knowledge. The Government Schemes 2020 provides the latest information & most authentic data reference material on Current Affairs and

General Knowledge. It has specially been designed to cater to aspirants of various competitive exams like UPSC and State PSC Civil services Exams. The material has been written in a lucid language and prepared as per the requirements of the various competitive exams. PT 365 Govt Schemes Best wishes for your exams!!

SABKA SAATH SABKA VIKAS PRIME MINISTER NARENDRA MODI SPEAKS (2017-2018) World Bank Publications

ACTIVE ELECTRICAL DISTRIBUTION NETWORK Discover the major issues, solutions, techniques, and applications of active electrical distribution networks with this edited resource

Active Electrical Distribution Network: A Smart Approach delivers a comprehensive and insightful guide dedicated to addressing the major issues affecting an often-overlooked sector of the electrical industry: electrical distribution. The book discusses in detail a variety of challenges facing the smart electrical distribution network and presents a detailed framework to address these challenges with renewable energy integration. The book offers readers fulsome analyses of active distribution networks for smart grids, as well as active control approached for distributed generation, electric vehicle technology, smart metering systems, smart monitoring devices, smart management systems, and various storage systems. It provides a treatment of the analysis, modeling, and implementation of active electrical distribution systems and an exploration of the ways professionals and researchers from academia and industry attempt to meet the significant challenges facing them. From smart home energy management systems to approaches for the reconfiguration of active distribution networks with renewable energy integration, readers

will also enjoy: A thorough introduction to electrical distribution networks, including conventional and smart networks An exploration of various existing issues related to the electrical distribution network An examination of the importance of harmonics mitigation in smart distribution networks, including active filters A treatment of reactive power compensation under smart distribution networks, including techniques like capacitor banks and smart devices An analysis of smart distribution network reliability assessment and enhancement Perfect for professionals, scientists, technologists, developers, designers, and researchers in smart grid technologies, security, and information technology, **Active Electrical Distribution Network: A Smart Approach** will also earn a place in the libraries of policy and administration professionals, as well as those involved with electric utilities, electric policy development, and regulating authorities.

Judith-Valley-Phillips Comprehensive Resource(s) Management Plan (RMP) The Energy and Resources Institute (TERI) The East-West Economic Corridor (EWEC) was launched in 1998 as a flagship initiative of the Greater Mekong Subregion. EWEC has since achieved many of its infrastructure targets and must now be transformed from a transport corridor into an economic corridor. This report reviews and updates the Pre-Investment Study for EWEC conducted in 2001. It consolidates the interests and concerns of stakeholders into a revised and updated strategy and action plan to provide a vision and framework, improve coordination, and assist in mobilizing resources for EWEC development. Preparation of this revised and updated strategy and action plan for

EWEC involved a series of consultations with government officials of EWEC countries and representatives of the private sector, nongovernment organizations, and development partners. These consultations culminated in a regional workshop held on 24 April 2009 in Khon Kaen, Thailand. The revised and updated strategy and action plan for EWEC was endorsed at the 15th GMS Ministerial Conference held in Cha-am, Petchburi Province, Thailand on 17–19 June 2009.

Cracking IAS Prelims Revision Files – Art, Culture & Panorama (Vol. 7/9) is the 1st ebook of a series of 9 eBooks specially prepared to help IAS aspirants cross the milestone of Preliminary Exam. The ebook is aimed at Revision cum practice so as to develop confidence to crack the IAS Prelim Exam. • The eBook is divided into 3 Topics • Each topic provides 5-6 Revision Modules ensuring complete revision of the topic. Thus in all around 15 such Modules are provided. • Each topic will end up with a Quiz containing 15 questions to test your topic preparedness. • Further Solved Questions of the last 5 years on Art, Culture & Panorama are also provided. • In the end 2 Tests are provided on Art, Culture & Panorama to test your revision of the entire section This ebook, along with the 8 other ebooks of this series, will definitely help you improve your score in the IAS Prelim Exam.

Cracking IAS Prelims Revision Files - Art, Culture & Panorama (Vol. 7/9)

Allied Publishers

India's energy system has evolved around domestic coal, sizable imports of oil and LNG, moderate contribution of hydro power, declining and yet sizable use of traditional biomass as cooking

fuel by rural households and growing attention to modern renewable, nuclear and energy efficient technologies. India's per-capita GHG emissions are below the global average and far below those in the developed countries.

Notwithstanding the inherited fossil based energy system and high economic growth expectations, India voluntarily committed to reduce GHG emissions intensity of the economy by 20-25 per cent from 2005 to 2020. This book details inventory of energy and emissions at national and sector levels. It maps firm and locale level energy use and emissions and their impacts such as on the urban air pollution. The future energy and emissions trends are analyzed following scenarios analysis using integrated assessment modelling framework that aligns India's national development goals with global climate change actions. The analysis shows that the global 2°C temperature stabilization target shall require fundamental transformation of India's energy system, both on demand and supply sides. The book demonstrates the necessity and validity of following a long-term development-centric perspective; even while delineating near-term energy and emissions policies, programs and targets such as those needed to delineate the Intended Nationally Determined Contributions (INDCs). The book, while illustrating the best practice modeling, scenarios development and policy assessment for India, provides insights into the mode and means of navigating the energy and emissions policy landscape for India. The complexity of the policymaking notwithstanding, the book is intended to demystify the methods and means for delineating the policies. The book, we hope demonstrates the need to use best

practice methodologies for national assessments and also the existence of

the scientific capacity in the country to carry out such assessments.
