The intimate biography of the iconic DJ who was lost too soon. Tim Bergling was a musical visionary who, through his sense for melodies, came to define the era when Swedish and European house music took over the world. But Tim Bergling was also an introverted and fragile young man who was forced to grow up at an inhumanly fast pace. After a series of emergencies resulting in hospital stays, he stopped touring in the summer of 2016. Barely two years later, he took his own life. Tim - The Biography of Avicii is written by the award-winning journalist Måns Mosesson, who through interviews with Tim's family, friends and colleagues in the music business, has intimately gotten to know the star producer. The book paints an honest picture of Tim and his search in life, not shying from the difficulties that he struggled with.

William Manchester's epic and definitive account of President John F. Kennedy's assassination--now restored to print in a new paperback edition. As the world still reeled from the tragic and historic events of November 22, 1963, William Manchester set out, at the request of the Kennedy family, to create a detailed, authoritative record of the days immediately preceding and following President John F. Kennedy's death. Through hundreds of interviews, abundant travel and firsthand observation, and with unique access to the proceedings of the Warren Commission, Manchester conducted an exhaustive historical investigation, accumulating forty-five volumes of documents, exhibits, and transcribed tapes. **Bill Graham Presents** Little, Brown

The blogger behind Confessions of a Funeral Director—what Time magazine called a "must read"—reflects on mortality and the powerful lessons death holds for every one of us in this compassionate and thoughtful spiritual memoir that combines the humor and insight of Smoke Gets in Your Eyes with the poignancy and brevity of When Breath Becomes Air. We are a people who deeply fear death. While humans are biologically wired to evade death for as long as possible, we have become too adept at hiding from it, vilifying it, and—when it can be avoided no longer—letting the professionals take over. Sixth-generation funeral director Caleb Wilde understands this reticence and fear. He had planned to get as far away from the family business as possible. He wanted to make a difference in the world, and how could he do that if all the people he worked with were . . . dead? Slowly, he discovered that caring for the deceased and their loved ones was making a difference—in other people's lives to be sure, but it also seemed to be saving his own. A spirituality of death began to emerge as he observed: The family who lovingly dressed their deceased father for his burial The act of embalming a little girl that offered a gift back to her grieving family The nursing home that honored a woman's life by standing in procession as her body was taken away The funeral that united a conflicted community Through stories like these, told with equal parts humor and poignancy, Wilde offers an intimate look into the business and a new perspective on living and dying

Whether a death is sudden or anticipated, losing a loved one shakes us to our very core, destroying our belief in a just, safe, and predictable world. Grief often changes us quickly both physically and mentally. It is like being kidnapped and suddenly transported to a foreign land without luggage, a passport, or the language to make sense of what's happening. Even if you have a road map for getting through the pain and anguish, you still have to take the trip. The purpose of this book is to help you find threads of hope that will assist your recovery and help you carry on. By sharing inspirational stories, personal experiences, and professional advice from contributors to theOpen to Hope website, we trust that you will be comforted and inspired by learning how others dealt with their losses, what they saw as roadblocks, and how they handled them as well as what it has taken for them to not only survive, but thrive. We want to help you resume leading the life that you were meant to live—a life of satisfaction and one driven by a belief in your own personal power for change.

**The Pastor's Complete Memorial Guidebook** Jonathan David Publishers

A national bestseller, this extraordinary work of investigative reporting uncovers the identities, and the remarkable stories, of the CIA secret agents who died anonymously in the service of their country. In the entrance of the CIA headquarters looms a huge marble wall into which seventy-one stars are carved—each representing an agent who has died in the line of duty. Official CIA records only name thirty-five of them, however. Undeterred by claims that revealing the identities of these "nameless stars" might compromise national security, Ted Gup sorted through thousands of documents and interviewed over 400 CIA officers in his attempt to bring their long-hidden stories to light. The result of this extraordinary work of investigation is a surprising glimpse at the real lives of secret agents, and an unprecedented history of the most compelling—and controversial—department of the US government.
