Style is not just the
clothes on our backs—it is

self-expression,
representation, and
transformation. As a
fashion-obsessed Ojibwe
teen, Christian Allaire
rarely saw anyone that
looked like him in the
magazines or movies he
sought out for inspiration.
Now the Fashion and Style
Writer for Vogue, he is

working to change
that—because clothes are
never just clothes. Men's
heels are a statement of
pride in the face of
LGTBQ+ discrimination,
while ribbon shirts honor
Indigenous ancestors and
keep culture alive. Allaire
takes the reader through
boldly designed chapters

to discuss additional topics like cosplay, make up, hijabs, and hair, probing the connections between fashion and history, culture, politics, and social justice. *A Junior Library Guild Gold Standard Selection

50 Ways to Wear Accessories Victoria & Albert Museum

A comprehensive study of dress in Northern Europe from the early fourteenth century to the beginning of the Renaissance, *Illuminating Fashion* is the first thorough study of the

history of fashion in this period based solely on firmly dated or datable works of art. It draws on illuminated manuscripts, early printed books, tapestries, paintings, and sculpture from museums and libraries around the world. "Symbolism and metaphors are buried in the art of fashion," says Roger Wieck, the editor of *Illuminating Fashion*. Examining the role of social customs and politics in influencing dress, at a time of rapid change in fashion, this fully illustrated volume

demonstrates the richness of such symbolism in medieval art and how artists used clothing and costume to help viewers interpret an image. At the heart of the work is *A Pictorial History of Fashion, 1325 to 1515*, an album of over 300 illustrations with commentary. This is followed by a comprehensive glossary of medieval English and French clothing terms and an extensive list of dated and datable works of art. Not only can this fully illustrated volume be used

as guide to a fuller understanding of the works of art, it can also help date an undated work; reveal the shape and structure of actual garments; and open up a picture's iconographic and social content. It is invaluable for costume designers, students and scholars of the history of dress and history of art, as well as those who need to date works of art.

Dressing the Man is the

definitive guide to what men need to know in order to dress well and look stylish without becoming fashion victims. Alan Flusser's name is synonymous with taste and style. With his new book, he combines his encyclopedic knowledge of men's clothes with his signature wit and elegance to address the fundamental paradox of modern men's fashion: Why, after men today have spent more money on clothes than in any other period of history, are there fewer well-

dressed men than at any time ever before? According to Flusser, dressing well is not all that difficult, the real challenge lies in being able to acquire the right personalized instruction. Dressing well pivots on two pillars -- proportion and color. Flusser believes that "Permanent Fashionability," both his promise and goal for the reader, starts by being accountable to a personal set of physical trademarks and not to any kind of random, seasonally served-up collection of

fashion flashes. Unlike fashion, which is obliged to change each season, the face's shape, the neck's height, the shoulder's width, the arm's length, the torso's structure, and the foot's size remain fairly constant over time. Once a man learns how to adapt the fundamentals of permanent fashion to his physique and complexion, he's halfway home. Taking the reader through each major clothing classification step-by-step, this user-friendly guide helps you apply

your own specifics to a series of dressing options, from business casual and formalwear to pattern-on-pattern coordination, or how to choose the most flattering clothing silhouette for your body type and shirt collar for your face. A man's physical traits represent his individual road map, and the quickest route toward forging an enduring style of dress is through exposure to the legendary practitioners of this rare masculine art. Flusser has assembled the largest and most diverse

collection of stylishly mantled men ever found in one book. Many never-before-seen vintage photographs from the era of Cary Grant, Tyrone Power, and Fred Astaire are employed to help illustrate the range and diversity of authentic men's fashion. Dressing the Man's sheer magnitude of options will enable the reader to expand both the grammar and verbiage of his permanent-fashion vocabulary. For those men hoping to find sartorial fulfillment

somewhere down the road, tethering their journey to the mind-set of permanent fashion will deliver them earlier rather than later in life.

"Hair and fashion are

inextricably linked, signs of the times, reflective of the zeitgeist. Whether long or cropped, curly or straight, hairstyles are a potent force and, in combination with the latest fashions, create unforgettable images: from Vidal Sassoon's 'Five Point Cut' for Mary Quant, to the punk look of 1970s London to Sam McKnight's iconic styles for Princess Diana. Hair is fashion and fashion is hair, a fascinating symbiotic relationship which is investigated in detail in this timely book. Hair &

Fashion considers both the historical development of this relationship and its contemporary significance, focusing on key moments such as the 1920s bob, the long-haired hippie look of the 1960s and the recent Hoxton Fin. The role of colour for hair and its associated cultural meanings have become increasingly important in the twenty-first century, an era in which most women have dyed their hair at least once, and Hair & Fashion also looks

closely at the role of the blonde, brunette and redhead in popular culture. This text is supported by evocative images, including work by top photographers from groundbreaking fashion shoots, as well as specially commissioned shoots. Haircuts and hairstyles, as this book reveals, are no mere simple incursions into hair taming and conformity but a living, growing embodiment of cultural codes and meanings with the potential to turn you into a walking work of

art."--BOOK JACKET.

In most college and university libraries, materials published before 1800 have been moved into special

collections, while the post-1923 books remain in general circulation. But books published between these dates are vulnerable to deaccessioning, as libraries increasingly reconfigure access to public-domain texts via digital repositories such as Google Books. Even libraries with strong commitments to their print collections are clearing out the duplicates, assuming that circulating copies of any given nineteenth-century edition are essentially

identical to one another. When you look closely, however, you see that they are not. Many nineteenth-century books were donated by alumni or their families decades ago, and many of them bear traces left behind by the people who first owned and used them. In *Book Traces*, Andrew M. Stauffer adopts what he calls "guided serendipity" as a tactic in pursuit of two goals: first, to read nineteenth-century poetry through the clues and objects earlier readers left in their books and,

second, to defend the value of keeping the physical volumes on the shelves. Finding in such books of poetry the inscriptions, annotations, and insertions made by their original owners, and using them as exemplary case studies, Stauffer shows how the physical, historical book enables a modern reader to encounter poetry through the eyes of someone for whom it was personal. *Fashions in Hair* JCP Books LLC

 Photographs of extraordinary hairstyles

that will inspire anyone concerned with fashion, beauty, and visual culture Throughout history, hairstyles have conferred status. Cleopatra wore elaborate braids; Marie-Antoinette's contemporaries competed to pile their hair outrageously high; punk fashion made a fetish of spiked and dyed hair. Hair expresses our individuality, and fashion designers, photographers, and style gurus love its infinite possibilities. This book celebrates the art of hair. From African tribal

fashions to today's new creations, each chapter explores a style such as braids, curls, chignons, short crops, Mohawks, and some wilder extremes. Rare archival images combine with fabulous work by stellar photographers including Duane Michals, Martin Parr, Patrick Demarchelier, Jean-Paul Goude, Herb Ritts, Helmut Newton, Robert Mapplethorpe, David LaChapelle, Nan Goldin, and others. These are accompanied by witty and informed contributions

from fashion stars and world-renowned stylists from Vidal Sassoon, Orlando Pita, Julien d’Ys, and Sam McKnight to queen of burlesque Dita Von Teese, Nicole Tucker (Alicia Keys’s hairstylist), and Kathy Phillips, former beauty editor at Vogue.

Hair, and its association with art and fashion, has until now been a sadly neglected subject. This book provides a

fascinating study of the history of hair, and discusses how fashion and events have influenced hair styles (especially those of women) around the world. The author looks at international fashion, and explores the similar and contrasting trends that have developed in different countries. Superb illustrations together with succinct captions and running text make this book an entertaining and informative read. This book will appeal to any woman seeking

inspiration for her own hair, to the male voyeur, the social or art historian, the hairdresser or, indeed, anyone with a fascination for this hitherto little-recorded aspect of human fashion and fantasy.

 Does everyone have a certain "type" they end up with...whether they want to or not? If Ray Carlucci's ex is anything to go by, Ray likes his men gorgeous, rebellious, and chock-full of issues. But now that Ray is single again, he has a shot at a fresh starta very fresh

start, since his tattoo shop was gutted by repo men and he can fit all his belongings in the trunk of a cab. Ray's shiny new chauffeur's license lands him a job as a driver for an elderly couple on Red Wing Island. It's a cold fall, and since the Michigan island is the summer home to snowbirds who fly south for the winter, it's practically deserted save for Ray's new household and a sculptor named Anton Kopec, who works day and night twisting brambles and twine into

the distorted shapes of macabre creatures. Compelling, bizarre, and somewhat disturbing...not just the sculptures, but the artist, too. Ray has a feeling Anton is just his "type." Despite their scorching chemistry, when a dead body is unearthed by some workers and a freak ice storm traps them all on the island, Ray can't say for certain that his new flame isn't capable of murder.

This captivating study reproduces arguably the

most extraordinary primary source documents in fashion history. Providing a revealing window onto the Renaissance, it chronicles how style-conscious accountant Matthäus Schwarz and his son Veit Konrad experienced life through clothes, and climbed the social ladder through fastidious management of self-image. These bourgeois dandies' agenda resonates as powerfully today as it did in the 16th century: one has to dress to impress, and dress to

impress they did.
