The Building of the Alps Courier Dover Publications

Immediately celebrated as a tour de force upon its release, Langston Hughes's first published collection of poems still offers a powerful reflection of the Black experience. From "The Weary Blues" to "Dream Variation," Hughes writes clearly and colorfully, and his words remain prophetic.

Nature provides us with many services seemingly for free: recharged groundwater, fertile soil and plant biomass created by photosynthesis. We human beings draw extensive benefits from these "ecosystem services," or ES – food, water supply, recreation and protection from natural hazards. Major international studies, such as the Millennium Ecosystem Assessment, have addressed the enormous role of biodiversity and ecosystems to human well-being, and they draw particular attention to the consequences resulting from the reduction or loss of these services. These very topical issues are being addressed by authors/scientists in a wide variety of disciplines – and their approaches, terminologies and methodological specifics are just as diverse. What, for example, does the efficacy of nature or natural capital mean? Which values of nature are particularly important, how are they distributed in space and time and how can they be assessed and the relevant knowledge promoted? Can all ecosystem services be quantified and even monetarised? What should be done to ensure that the multiple services of nature will be available also in future? This book explains the multifaceted concept of ecosystem services, provides a methodological framework for its analysis and assessment, and discusses case examples, particularly from Germany. It is addressed to scientists and practitioners in the administrative, volunteer and professional spheres, especially those who deal with environment, landscape management and

nature conservation and regional and land-use planning. The target group includes experts from the business community, politicians and decision makers, students and all those interested in fundamental ecological, economic, ethical and environmental issues.

A Dictionary of Books Relating to America Lonely Planet
How did gender shape the expanding Jesuit enterprise in the early modern world? What did it take to become a missionary man? And how did missionary masculinity align itself with the European colonial project? This book highlights the central importance of male affective ties and masculine mimesis in the formation of the Jesuit missions, as well as the significance of patriarchal dynamics. Focussing on previously neglected German figures, Strasser shows how stories of exemplary male behavior circulated across national boundaries, directing the hearts and feet of men throughout Europe towards Jesuit missions in faraway lands. The sixteenth-century Iberian exemplars of Ignatius of Loyola and Francis Xavier, disseminated in print and visual media, inspired late seventeenth-century Jesuits from German-speaking lands to bring Catholicism and European gender norms to the Spanish-controlled Pacific. As Strasser demonstrates, the age of global missions hinged on the reproduction of missionary manhood in print and real life.

Folk Culture in a World of Technology Michelin Travel Publications
Bradt's fully illustrated wildlife guides focus on regions of the world particularly celebrated for their amazing and often unique species. With spectacular photography or exclusive watercolour drawings throughout, each visitors' guide provides an introduction to the region's principal flora and fauna alongside suggested wildlife itineraries, practical information on when to go and what to take and photography tips. Written in a deliberately engaging way, they offer something different from dry field guides, and will appeal to the interested layman as much as the wildlife devotee. Ideal as a lightweight companion to any wildlife trip they also make a handsome souvenir. Beautifully illustrated with full-colour photographs throughout, Madagascar Wildlife is a celebration of the unique fauna of a remarkable island. Featuring over 250 species - from lemurs to millipedes - this guide is ideal for natural history enthusiasts and travellers alike. Newly discovered species and recently protected habitats are all covered in this fully revised edition. Also included is practical advice on visiting the

key national parks and reserves plus special features on the evolution, camouflage, night-time wildlife and conservation issues.

Crafting together the power of words and womanhood, writer Tanya Markul has written a completely unique poetry collection fit for the phenomenal readers of today. In Tanya's words, "May we raise the bar for how we live our lives. May we ridiculously increase the amount of peace, play, creativity, beauty, love, and joy in everything we do. May we all sip from the wisdom of our suffering. And awaken with the courage to share our stories that can heal our inner and outer worlds."

Sand Key, the Key to All Bradt Travel Guides

A warm, gorgeous exploration of a little girl's experience immigrating to a new country and missing her home and her grandmother, who still lives far away. Sakura's dad gets a new job in America, so she and her parents make the move from their home in Japan. When she arrives in the States, most of all she misses her grandmother and the cherry blossom trees, under which she and her grandmother used to play and picnic. She wonders how she'll ever feel at home in this new place, with its unfamiliar language and landscape. One day, she meets her neighbor, a boy named Luke, and begins to feel a little more settled. When her grandmother becomes ill, though, her family takes a trip back to Japan. Sakura is sad when she returns to the States and once again reflects on all she misses. Luke does his best to cheer her up -- and tells her about a surprise he knows she'll love, but she'll have to wait till spring. In the meantime, Sakura and Luke's friendship blooms and finally, when spring comes, Luke takes her to see the cherry blossom trees flowering right there in her new neighborhood. Sakura's Cherry Blossoms captures the beauty of the healing power of friendship through Weston's Japanese poetry-inspired text and Saburi's breathtaking illustrations.
