*How Buffett Does It* Simon and Schuster  
Following in the tradition of the TAO TE CHING, that ancient Chinese classic text on human nature, and more popular interpretations like the bestselling THE TAO OF POOH, wisdom from the iconic cartoon figure, THE TAO OF WARREN BUFFETT is a compendium of quotes from one of the world's favourite businessmen. Buffett's investment strategies and life philosophies are revealed in this easy-to-read collection of sayings, some of which have never

been heard before. The perfect gift for everyone on your list: from serious investors to over-spenders, Warren Buffett can teach everyone a few secrets of success.

The Warren Buffett Stock Portfolio Simon and Schuster

In the past eighteen months, investors have seen rapid, often intimidating changes in the stock market-tech stocks have soared and crashed and assets that shifted away from traditional blue chip companies have quickly shifted back again. In spite of this volatility however, there has been one constant: Warren Buffet's value investing strategies make money. In BUFFETOLOGY, Mary Buffet

and David Clark unveiled the analysis techniques that made Warren Buffett the billionaire and investment icon he is today. Now in this companion workbook, the authors explain Buffett's system of business perspective investing, focusing on specific mathematical ratios and calculations. Written in clear, easy-to-understand language, THE BUFFETTOLOGY WORKBOOK offers everyone with or without an Internet connection the tools they'll need to apply the same kind of value analysis to readily available financial data that Warren Buffett does.

Why Stocks Go Up (and Down) Simon and Schuster

Give a man a fish and he eats for a day. Teach him to arbitrage, and he will eat for a lifetime' Warren Buffett Warren

Buffett and the Art of the Stock Arbitrage is the first book to explore the secret world of Buffett's arbitrage and special situations investing. Long considered one of the most powerful and profitable of Buffett's investment operations, but the least understood, these special types of investments have been the edge that has made Warren Buffett the world's greatest investor. This book examines Buffett's special brand of arbitrage investing, which involves taking advantage of short term price discrepancies that often occur when one company offers to buy another company. Buffett and David Clark, the authors of four best-selling books on Warren Buffett's investment methods, take the reader deep into the world of Buffett's arbitrage and special situation

operations, giving us his strategies, his equations for determining value, and dozens of examples of his investments in this very lucrative segment of Buffett's investment operations. They offer detailed analysis and explanations of Buffett's arbitrage and special situations operations and techniques for the first time ever.

### **Warren Buffett Accounting Book**

Simon and Schuster

A \$10,000 investment in Warren Buffett's original 1956 portfolio would today be worth a staggering \$250 million ... after taxes! What are his investing secrets? How to Pick Stocks Like Warren

Buffett contains the answers and shows, step-by-profitable-step, how any investor can follow Buffett's path to consistently find bargains in all markets: up, down, or sideways. How to Pick Stocks Like Warren Buffett sticks to the basics: how Buffett continually finds bargain stocks passed over by others. Written by an actual financial analyst who uses Buffett's strategies professionally, this tactical how-to book includes: Comprehensive financial tools and information Strategy-packed "Buffett in action" boxes Buffett's own stock portfolio continually updated on the author's website!

Buffettology Simon and Schuster

At last, here is a book that reveals what the public really wants to know about this legendary investor: how he

determines where he puts his money. From a team with privileged insight, Mary Buffett, a savvy CEO and Warren Buffett's former daughter-in-law, and David Clarke, a successful portfolio analyst, comes BUFFETTOLOGY, the most detailed explanation ever of the billionaire's unique investment techniques. Using Warren Buffett's system to access a company's potential economic excellence and the right price to pay for its stock, BUFFETTOLOGY demonstrates the actual mathematical models and equations, revolving around three variables: the yearly per share earnings figure, its predictability, and the market price of security. With BUFFETTOLOGY, individual investors will come to truly understand, and emulate, Warren Buffett's masterful insight, and

see that investment is most intelligent when it is most businesslike. [The Warren Buffett Portfolio](#) Wiley A collection of the inspiring words and wisdom from America's favorite businessman that reveal his secrets of success from the bestselling authors of Buffettology and The New Buffettology. Like the sayings of the ancient Chinese philosopher Lao-tzu, Warren Buffett's worldly wisdom is deceptively simple and enormously powerful in application. In *The Tao of Warren Buffett*, Mary Buffett—author of three books on Warren Buffett's investment methods—joins noted Buffettologist and international lecturer David Clark to bring you Warren Buffett's smartest, funniest, and most memorable sayings with an eye toward revealing the life

philosophy and the investment strategies that have made Warren Buffett, and the shareholders of Berkshire Hathaway, so enormously wealthy. Warren Buffett's investment achievements are unparalleled. He owes his success to hard work, integrity, and that most elusive commodity of all, common sense. The quotations in this book exemplify Warren's practical strategies and provide useful illustrations for every investor—large or small—and models everyone can follow. The quotes are culled from a variety of sources, including personal conversations, corporate reports, profiles, and interviews. The authors provide short explanations for each quote and use examples from Buffett's own business transactions whenever

possible to illustrate his words at work. As Warren says: "You should invest in a business that even a fool can run, because someday a fool will." "No matter how great the talent or effort, some things just take time: You can't produce a baby in one month by getting nine women pregnant." "Our method is very simple. We just try to buy businesses with good-to-superb underlying economics run by honest and able people and buy them at sensible prices. That's all I'm trying to do." The Tao of Warren Buffett inspires, amuses, sharpens the mind, and offers priceless investment savvy that anyone can take to the bank. This irresistibly browsable and entertaining book is destined to become a classic.

*The Practice of Absorption*

*Spectrophotometry* John Wiley & Sons  
 This book concentrates on the investment style of Business Perspective Investing, as practiced by Benjamin Graham and Warren Buffett. It takes the reader through the realisation that the thought process involved when buying shares in a company is no different to buying the company in its entirety. Beginning with how to assess the quality of a business, it explains and illustrates with examples what to look for in company accounts, how to determine the value drivers of a business, the strength of its franchise and how to interpret key financial ratios and performance indicators. It discusses the ideal characteristics of a business worthy of investment so that you will develop a mental checklist of what to look out for.

The book then sets out a number of valuation methods to determine the likely economic worth of a company. It is against this estimate that a judgement can be made as to whether a share price offers good value. The book concludes with thoughts on portfolio construction, in particular Focus Investing, where a concentrated approach is taken, and legitimate reasons for deciding to sell a holding. Throughout, the emphasis is on the methodology used to manage the Sanford DeLand UK Buffettology Fund.  
**Summary** John Francisco Sanchez  
 When Warren Buffett Speaks. . . people listen. "If people want to improve their investing skills, it has to help to study how the Master does it. This short book outlines Buffett's philosophy and techniques." —Peter S. Lynch, Fidelity

Investments "Common sense with a deft irony . . ." —John C. Bogle, founder of The Vanguard Group and author, *The Little Book of Common Sense Investing* "It was Warren Buffett's thoughts and philosophy that first captivated investors. Janet Lowe has done us all a great service by collecting and arranging Warren Buffett's wit and wisdom in an easy-to-read and enjoyable book." —Robert G. Hagstrom, Portfolio Manager, Legg Mason Growth Trust mutual fund, and author, *The Warren Buffett Way, Second Edition* "A must-read. Buffett's wit and wisdom is a roadmap for anyone looking to succeed in business, investing, and life." —Steve Halpern, Editor, [www.thestockadvisors.com](http://www.thestockadvisors.com)  
Warren Buffett Speaks McGraw Hill

Professional Buffettology - The Previously Unexplained Techniques That Have Made Warren Buffett The Worlds by David Clark, Mary Buffett. Have you ever looked at the stock market in both confusion and fascination, wondering what's the difference between a successful investor and a terrible one? Stock markets are full of information, fluctuations and trends. How do you separate the noise from the real data? Warren Buffett developed a personalized reading of the investment market that distinguished him from the pack of standard brokers and turned him into one of today's top-ten billionaires. Are you tired of letting your money lay in the bank with low interest rates? Wary of traders trying to make a commission or

of friends constantly coming up with a new magic formula? This summary will guide you through Warren Buffett's reasoning, step by step. It will reveal the tools and analyses he used to make the right choices with his money and will help you earn from your savings and stop worrying about your pension plan.

Why read this summary: Save time  
Understand the key concepts

NOT THE ORIGINAL BOOK.

*The Tao of Warren Buffett* Everest Media LLC

The book is divided into several sections covering Warren Buffett's personal business management: . Managing one's life - focuses on Buffett's insistence on a good education, picking one's heroes early in life, and staying away from

things that damage you personally. The authors also discuss Buffett's belief that challenges make life interesting. .

Managing One's Career - Buffett believes that you should work at something that you are passionate about. Do what you like and you will find a way to make money. Do what you hate and you will be miserable even if you are rich. .

Managing Employees - place honesty on the same level as intelligence as a managerial attribute. How to keep managers inspired and working hard. .

Managing the Business - Buffett has learned that companies that have a durable competitive advantage over their competitors consistently earn more money year after year and are the easiest to manage. . Managing of Personal Money - discover the simple

rules that Buffett uses for buying other businesses and how he has incorporated them into his own personal investment style.

### The New Buffettology

Bestselling authors Mary Buffett and David Clark examine seventeen companies that Warren Buffett has bought for himself and for his holding company, Berkshire Hathaway, as durable investments and explain why these companies are once again selling at prices that offer great long-term growth prospects. Warren Buffett has always believed that the time to buy stocks is when nobody else wants them. As we enter the fifth year of what many economists are calling the Great Recession, we find that some of the most amazing businesses—those with a

durable competitive advantage—are trading at prices and price-to-earnings ratios that offer investors serious long-term moneymaking opportunities. Pessimism about the banking situation in Europe and unemployment in America have created the perfect storm to bring stock prices down and present value-oriented investors some great possibilities. In Warren Buffett's world, as stock prices decrease, the prospects for investment increase. Putting a number on those prospects tells Warren whether or not the stock is an attractive buy. The Warren Buffett Stock Portfolio explains how to do just that—how to value companies and conservatively estimate the kind of future return that an investment is offering at its current market price. Mary Buffett and David

Clark look at stocks in Warren's portfolio as the basis for their analysis. After a brief history of Warren's investment strategy, Buffett and Clark explain how to interpret a company's per-share earnings and per-share book-value histories to quickly identify which companies have a durable competitive advantage and to project the compounding annual rate of return that an investment offers. The authors provide case studies and evaluations of seventeen companies in Warren Buffett's portfolio. The Warren Buffett Stock Portfolio is a valuable companion to the other books in Buffett and Clark's successful series—Buffettology, The Buffettology Workbook, The New Buffettology, The Tao of Warren Buffett, Warren Buffett and the Interpretation of

Financial Statements, Warren Buffett's Management Secrets, and Warren Buffett and the Art of Stock Arbitrage.

**Winning the Money Game** Simon and Schuster

En el mundo de la inversión, el nombre de Warren Buffett ha sido sinónimo de éxito y beneficios. A sus noventa años, el hombre que convirtió 105.000 dólares en 20.000 millones sigue siendo el modelo a seguir y, hasta la fecha, su metodología había sido un misterio. Este libro revela desde una perspectiva privilegiada la pregunta más formulada en Wall Street: ¿cómo, dónde y cuándo invierte su dinero Buffett? Gracias a las aportaciones de su círculo más cercano, las técnicas del Oráculo de Omaha salen a la luz a través del estudio más exhaustivo de su cartera de acciones.

Aquí no encontrarás una biografía repleta de anécdotas, sino que conocerás la fórmula del éxito financiero a través de conceptos, modelos matemáticos y casos concretos de empresas que fueron adquiridas por Buffett. En suma, los mejores consejos para enfrentarte a cada una de las situaciones a las que te reta el mercado actual. Con Buffettología puedes conocer de forma fácil y accesible la filosofía inversora del mejor del mundo para saber en qué empresas debes interesarte, cuánto dinero merece la pena pagar por ellas, o cuándo debes comprar, recomprar y vender una acción.

**Warren Buffett and the Interpretation of Financial Statements** Simon and Schuster

Since its hardcover publication in August of 1995, Buffett has appeared on the Wall Street Journal, New York Times, San Francisco Chronicle, Los Angeles Times, Seattle Times, Newsday and Business Week bestseller lists. Starting from scratch, simply by picking stocks and companies for investment, Warren Buffett amassed one of the epochal fortunes of the twentieth century—an astounding net worth of \$10 billion, and counting. His awesome investment record has made him a cult figure popularly known for his seeming contradictions: a billionaire who has a modest lifestyle, a phenomenally successful investor who eschews the revolving-door trading of modern Wall Street, a brilliant dealmaker who cultivates a homespun aura. Journalist

Roger Lowenstein draws on three years of unprecedented access to Buffett's family, friends, and colleagues to provide the first definitive, inside account of the life and career of this American original. Buffett explains Buffett's investment strategy—a long-term philosophy grounded in buying stock in companies that are undervalued on the market and hanging on until their worth invariably surfaces—and shows how it is a reflection of his inner self. *Tao of Charlie Munger* Simon and Schuster

If you will follow those steps discussed in this book and you start, make moves right now, you could achieve a biggest change and you can beat the life you've dreaming of and become free from the financial struggle you are facing before

the year 2015 ends. (39 pages)

### **Buffettology** Profile Books

"First class. A great job at collating our philosophy." - Warren Buffett"Very practical." - Charlie Munger"One of the top investment books of all time." - The Motley Fool"A must-read business book." - JP Morgan Private Banking"As much a business management book as a personal finance book." - Publisher's Weekly"One of the best books of the year. Two thumbs up!" - CNN (Financial News)"A serious investment course with entertainment thrown in." - Investor's Chronicle"The book on Buffett - a superb job!" - Forbes"Extraordinary - full of wisdom, humour and common sense." - Money"A classic on value investing and the definitive source on Buffett." - The Financial Times

*Buffettology* Harriman House Limited  
"A compendium of pithy quotes culled from interviews, speeches, the Daily Journal, and questions and answers at the Berkshire Hathaway and Wesco annual meetings, offering insights into Munger's remarkable financial success and life philosophies"--Front jacket flap.

**Buffettology** McGraw Hill Professional  
Warren Buffett's Stock Portfolio is the first book to take readers deep into Warren Buffett's investment portfolio. Each of Buffett's current stock investments is analyzed in detail with information as to why Buffett found these attractive businesses and how he determined that they are good long-term investments. Each company will be analyzed using the criteria outlined in *Buffettology* and Warren Buffett and the

Interpretation of Financial Statements. The reader can then apply these techniques to a variety of other stocks and see if they meet Buffett's criteria. Although information about Warren Buffett's stock portfolio is available online, it is merely listings of the stocks Warren owns. No one else explains the criteria Warren uses to determine how and when to buy and sell. In addition this book will include stocks that are too new to be online. The authors will also look at a few top-performing stocks that Warren has sold in the last ten years.  
*Tao of Charlie Munger* Simon and Schuster

The Warren Buffett Way provided the first look into the strategies that the master uses to pick stocks. A New York Times bestseller, it is a valuable and

practical primer on the principles behind the remarkable investment run of the famed oracle of Omaha. In this much-awaited companion to that book, author Robert Hagstrom takes the next logical step, revealing how to profitably manage stocks once you select them. THE WARREN BUFFETT PORTFOLIO will help you through the process of building a superior portfolio and managing the stocks going forward. Building a concentrated portfolio is critical for investment success. THE WARREN BUFFETT PORTFOLIO introduces the next wave of investment strategy, called focus investing. A comprehensive investment strategy used with spectacular results by Buffett, focus investing directs investors to select a concentrated group of businesses by

examining their management and financial positions as compared to their stock prices. A strategy that has historically outperformed the market, focus investing is based on the principle that a shareholder's return from owning a stock is ultimately determined by the economics of the underlying business. Hagstrom explains in easy-to-understand terms exactly what focus investing is, how it works, and how it can be applied by any investor at any level of experience. He demonstrates how Buffett arranges his stocks in a focus portfolio and reveals why this is as responsible for his incredible returns as the individual stocks he picks. Ultimately, Hagstrom shows how to use this technique to build and manage a portfolio to achieve the best possible

results.
