Maria the nurse and nanny - invoking
Haitian Voodoo to protect those she
loves from her damaged, violent sister
Andrea. And Michael - the wealthy man
between them, fighting desperately to
save his baby son and escape with the

sister he truly loves. This exhilarating saga of love and revenge sweeps us from Hispaniola in 1916, where the sisters' family originated in poverty and slavery, to the lurking drug culture of Balboa, Panama, and finally, to the United States. The ripples of the sisters' family history spread insidiously and threaten all that Michael has built. Will the Voodoo that was meant to protect save them? Or will it finally bring disaster upon Michael, Maria, and everything they love?

Unmanned aerial vehicles (UAVs) have been widely adopted in the military world over the last decade and the success of these military applications is increasingly driving efforts to establish unmanned aircraft in non-military roles. Introduction to UAV Systems, 4th edition provides a comprehensive introduction to all of the elements of a complete Unmanned Aircraft System (UAS). It addresses the air vehicle, mission planning and control, several types of mission payloads, data links and how they interact with mission performance, and launch and recovery concepts. This book provides enough information to encourage a student to learn more; to provide a specialist with a basic appreciation of the technical issues that drive other parts of the system and interact with their specialty; or to help a program manager understand system-level tradeoffs and know what questions to ask. Key features: Comprehensive overview of all elements of a UAS and of how they interact. Introduces the underlying concepts of key subsystems. Emphasizes system-integration issues and how they relate to subsystem design choices. Practical discussion of issues informed by lessons learned in UAV programs. Introduction to UAV Systems, 4th edition is written both for newcomers to the subject and for experienced members of the UAV community who desire a comprehensive overview at the system level. As well as being a primary text for an introductory course on UAS or a supplementary text in a course that goes into more depth in one of the individual technologies involved in a

UAS, this book is a useful overview for practicing engineers, researchers, managers, and consultants interested in UAV systems.

Is noise the most neglected green issue of our age? This book argues compellingly that it is, and tells you all you need to know about noise as a social, cultural, environmental and health issue. Across the world, more people are disturbed by noise in their day-to-day lives than by any other pollutant on Earth. From the shanty towns of Mumbai to the smart boulevards of Paris, noise is a problem. It is damaging people's health, costing billions, and threatening the world's natural sound systems in the same way that climate change is altering its eco-systems. Drawing on evidence from all over the world, this book showcases policies and strategies that have worked to decrease noise pollution, and offers lessons for policymakers and environmental health professionals, campaigners and any individual affected by noise. Written by a renowned noise campaigner and experts in law and health, this book tells you all you need to know about noise as a social, cultural and environmental issue and how we can act to build a more peaceful world.

'All his novels are terrific' Sarah Waters Patrick Hamilton's novels were the inspiration for Matthew Bourne's new dance theatre production, *The Midnight Bell*. In *Craven House*, among the shifting, uncertain world of the English boarding house, with its sad population of the shabby genteel on the way down - and the eternal optimists who would never get up or on - the young Patrick Hamilton, with loving, horrified fascination, first mapped out the territory that he would make, uniquely, his own. Although many of Hamilton's lifelong interests are here, they are handled with a youthful brio and optimism conspicuously absent from his later work. The inmates of *Craven House* have their foibles, but most are indulgently treated by an author whose world view has yet to harden from scepticism into cynicism. The generational conflicts of Hamilton's own youth thread throughout the narrative, with hair bobbing and dancing as the battle lines. That perennial of the 1920s bourgeoisie, the 'servant problem', is never far from the surface, and tensions crescendo gradually to a resolution one climactic dinnertime.

These fifteen short stories dive deeply into reality looking to pull out new senses. They have the ability to show - especially what cannot be told. Tales of the feminine world, the natural world and of freedom (or the lack of it) open up the blinds to let us see beyond everyday's acts and wordly rites; to let us see beyond words and gestures.

Never Far Away

To uphold family honor and tradition,

Sheetal Prasad is forced to forsake the man she loves and marry playboy millionaire Rakesh Dhanraj while the citizens of Raigun, India, watch in envy. On her wedding night, however, Sheetal quickly learns that the stranger she married is as cold as the marble floors of the Dhanraj mansion. Forced to smile at family members and cameras and pretend there's nothing wrong with her marriage, Sheetal begins to discover that the family she married into harbors secrets, lies and deceptions powerful enough to tear apart her world. With no one to rely on and no escape, Sheetal must ally with her husband in an attempt to protect her infant son from the tyranny of his family.

WHAT THE REVIEWERS AND READERS SAY: (The following reviews are from the Barnes and Noble and Amazon sites) The Night Boy is really good Pulp Fiction, November 15, 2004 FOUR out of FIVE Stars Reviewer: Laslow Jordan (United Kingdom) Finally some real pulp fiction and it's good too. Preddy doesn't try to articulate every thought of every character like so many writers do; instead he leaves some space for the readers' imaginations. The Night Boy's rapid pacing is as visual and as exciting as a good movie. The best one-night stand I've had in years! The Night Boy is a real page burner, November 15, 2004 FIVE out of FIVE Stars Reviewer: Jay Michaels (California) - I read a lot of thrillers but I had to read The Night Boy twice as Preddy conjures up some clever misdirection, some just a word, that turn on a dime. It's funny too. In fact I found some of the humorous passages, like "you can't get pregnant from spit", creeping into my thoughts days later. The Night Boy is a real page burner that

sticks with you like mashed potatoes! The Night Boy has something for everyone! FIVE out of FIVE Stars
 Reviewer: Carl Connors@New Book Tattler, November 19, 2004, The Night Boy is a novella with a big bang. From the intriguing first line to the bold final scene this fresh tale has something for everyone. Sheryn is the personification of insecurity, vanity, and self-absorption; her sidekick is a witty guy hiding a dark side of his own. The two good cops are horny for each other in a sweet way, but end up breaking the rules, and the heroine is a psychopath with a big secret. Preddy's perpetrator, the Night Boy, is a deliberate, cunning killer and something more. If viewed from the inside out Preddy may be using the Night Boy character as a metaphor for the darkness, the Night, which lives in everyone. Or maybe not. The premise is now and unique and the language is active and fresh. The Night Boy is an excellent first book for Preddy and worth every penny. Night Boy has arrived FOUR out of FIVE Stars Reviewer: Weston Allred, a journalist, November 12, 2004, The Night Boy is a subsonic thriller that's quite humorous too if you can believe it. Preddy pokes fun at pathetic obsession, convenient love, and romantic expectations all the while serving up a tidy thriller. The ending is a real pisser. The Night Boy rips and I want more! Great Pulp Fiction FIVE out of FIVE Stars Reviewer: Frank Long, @ebookcritique November 12, 2004, The cover says that it is a 'tight thriller bathed in sarcastic social commentary and sly dark humor', what it is is a modern and warped social commentary and dark humor wrapped in a sick and slick thriller! Excellent language, some pretty gritty, and scenarios. Preddy delivers.

An Apology for Mohammed and the Koran

Lucy Nash has just finished up her sophomore year of high school and is anticipating an uneventful summer at her rural Georgia home. . . that is, until a weird twist of fate and physics takes her on a trip back through time to the year 1975 with Cameron Hall, a boy her age whose own time is thirty years into her future. Cameron is hoping to stop a series of child disappearances, one of which deeply affected his family, and ends up teaming up with his accidental "passenger" to solve the crime. But despite their access to resources from the future, can two teenagers resolve a mystery that has remained a cold case for over sixty years. . . and what impact will their presence in the past have on their own lives - and their own futures?

"Except for a brief period during the Rhineland battle, the First Canadian Army was the smallest to serve under Eisenhower's command. The Canadian component never totalled more than 185,000 of the four million Allied troops serving in Northwest Europe. It is evident, however, that the divisions of 2nd Canadian Corps played a role disproportionate to their numbers. Their contribution to operations designed to secure the channel ports and open the approaches to Antwerp together with the battles in the Rhineland place them among the most heavily committed and sorely tried divisions in the Allied armies. By the end of 1944 3rd Canadian Division had suffered the highest number of casualties in 21 Army Group with 2nd Canadian Division ranking a close second. In the armoured divisions, 4th Canadian was at the top of the list as was 2nd Canadian Armoured Brigade among the independent tank brigades.

Overall Canadian casualties were 20 per cent higher than in comparable British formations. This was a direct result of the much greater number of days that Canadian units were involved in close combat."--Jacket.
