The first of a two-volume
project, this book by a
lifelong scholar of
Melville's life, works, and
milieu pinpoints the facts
of Melville's life with great
accuracy and
completeness. Melville
here appears amid the all-
too-human hopes and
anxieties that inspired
and ensnared him during
his early career, when he
passed from the status of
America's first literary
symbol to that of a still-
young man who dared to
write Shakespearean
prose. 40 illustrations.

Bring the Classics To Life.
These novels have been
adapted into 10 short
chapters that will excite
the reluctant reader as
well as the enthusiastic
one. Key words are
defined and used in
context. Multiple-choice
questions require the

student to recall specific details, sequence the events, draw inferences from story context, develop another name for the chapter, and choose the main idea. Let the Classics introduce Kipling, Stevenson, and H.G. Wells. Your students will embrace the notion of Crusoe's lonely reflections, the psychological reactions of a Civil War soldier at Chancellorsville, and the tragedy of the Jacobite Cause in 18th Century Scotland. In our society, knowledge of these Classics is a cultural necessity. Improves fluency, vocabulary and comprehension.

Moby Dick Capstone
An account of Christopher Sten's close encounter of Moby Dick. This work argues that Melville was not only familiar with traditional forms of narrative but that he refined them and appropriated them to his own original purposes.

Moby Dick Kent State University Press
What's it like to be on a small boat with no power but oars, and over 1,500 miles from the nearest land? Two friends decided to find out... Over a boozy Sunday lunch, flatmates James Adair and Ben Stenning made a promise

to row across an ocean despite having no sailing or rowing experience whatsoever. This is an account of their 116 days at sea as they undertook the voyage of a lifetime. From eerie calms to their capsize in stormy seas, their determination and perseverance pushed them through the relentless dangers of rowing and sleeping under sun, moon, wind and stars for day upon day. Their tale is one of moonbows and meteor showers, passing whales and thieving fish, lurking sharks and giant squid ... and a terrifying fight for survival.

Fading Into The Limelight Academic Press

Ishmael, lone survivor of the doomed whaling ship Pequod, falls through a rift in time and space to a future earth—an earth of blood-sucking vegetation and a blood-red sun, of barren canyons where once the pacific ocean roared. Here too there are whales to hunt—but whales that soar through a dark blue sky ... Hugo Award-winner Philip José Farmer has spun a fascinating tale of whaling ships and seamen of the sky in a bizarre future world where there are no seas to sail and no safe

harbor to call home ...
A Voyage to the Arctic in the Whaler Aurora Ron Vitale

"There have been a lot of crazy books about Melville and Moby-Dick but this isn't one of them. Dowling's overarching analogy, between Ishmael's and Melville's obsessions and the annual marathon group-reading of Moby-Dick in New Bedford, makes perfect sense and generates illuminating analyses of the novel and its cultural contexts. It also lets him open his book up into a passionate exploration of how great literature can still play a vital role in people's lives today"-Damion Searls, editor, Thoreau's The Journal: 1837-1861 and Melville's; or The Whale -- Book Jacket.

Rowing After the White Whale Academic Press
More than a year has passed since Morgan and Ishmael escaped from the island of nightmares and the clutches of Kanaloa, the dark squid god. In that time, they've come closer together, but defeating Kanaloa and breaking the sea curse is their priority. But when Morgan and Ishmael are separated, she makes a difficult choice and chooses to find and rescue Ishmael before he is swept up in the dark

curse that afflicted both her father and twin brother. To break the curse, Morgan risks all to discover the secret of the fountain of youth and rescue Ishmael from Kanaloa's dark influence. But all is not as it seems on the island with the famed fountain nor is the journey as straightforward as she had expected. With time running out, will Morgan break the spell that will crack open Kanaloa's secret beyond what she ever could have imagined? If not, all Morgan holds dear will be lost forever.

The Quest, set in America's Southwest, during 1996 --2001, during Clinton's and Bush's Administrations, is an intriguing and engaging story of an inquisitive, intelligent, but troubled Coloradan Vietnam veteran, who, having been born to an Anglo mother and an Hispanic father, sets out on a quest to find his true identity and place in the universe, by coming to Kingsville, Texas,, home of the legendary King Ranch, to explore his father's Chicano roots, as well as his own. In doing so, he becomes immersed in the corrupt public

school, university, state, and federal politics, during this troubled period of Gore/Bush election fiasco, the Religious Right abortion issue, the 9/11 twin tower attack, and the Florida/Supreme Court decisions. During the course of these events, Christopher Worth Garcia, while exploring his father's Hispanic Tejano culture and music, meets the enchanting and beautiful but enigmatic Aurora and the members of the "Discussion Club," with the "colorful" name. Chris is thus caught and wound in a web which includes the stalker/husband from whom he has to find and extricate himself -- or perish.

FICTION MOBY DICK; OR THE WHITE WHALE Titan Books

This comprehensive study of Anglicisms in the context of accelerated neological activity in Contemporary Metropolitan French not only provides detailed documentation and description of a fascinating topic, but opens up new vistas on issues of general linguistic interest: the effects of technology on language, the analyticity-syntheticity controversy,

the lexical contribution to language vitality, the study of compound word formation, the interplay between cultural and linguistic affectivity. By investigating the dynamics of borrowing within the larger framework of general neological productivity and by bringing to bear cognitive and pragmatic considerations, a much-needed fresh approach to the entire question of Anglicisms takes shape. All pertinent phenomena regarding Anglicisms in French -- a topic which continues to command the attention of language commentators and defenders in France and elsewhere -- are explored: integral borrowings, semantic calques, structural calques, the generation of pseudo-Anglicisms and hybrids, graphological and phonological phenomena. In each case, the phenomenon is investigated in the proper context of its interaction with other pertinent neological, phonological and sociocultural developments. These include general changes in French compound word formation, modified derivational dynamics, the microsystem of pseudo-Classical morphology,

historic phonological instabilities, the pressure for more synthetic types of lexical production in relation to the needs of technology and society. Rather than adhering rigidly to any single theoretical model, there is an attempt to set up a dialog between differing models in order to arrive at a multidimensional view of the phenomena investigated.
