Cursive handwriting send your child into hiding? What if there was an easy, fun way for your child to practice improving Cursive handwriting skills? Handwriting Improvement for Kids is the perfect solution! This book is specifically designed for 3rd through 5th grade students looking to improve their penmanship skills. The Fry Sight Words list is a more modern list of

words than the Dolch list, and was extended to capture the most common 1,000 words. Dr. Edward Fry developed this expanded list in the 1950s (and updated it in 1980), based on the most common words to appear in reading materials used in Grades 3-9. Learning all 1,000 words in the Fry list would equip a child to read about 90% of the words in a typical book, newspaper, or website. The Fry words are

listed by the frequency with which they occur and are often broken down into groups of 100. So the first 100 Fry words are the 100 most frequently occurring words in the English language.
