Kaja doesn't like change in her life. And why should she? Everything seems to be quite nice and settled: she is living in a cosy flat in the centre of Zurich, together with her faithful dog Zorro. She has a successful career as a computer programmer and a casual relationship with a charming work colleague. Surely, it couldn't get any better. - But then her whole life comes crashing down: her lover turns out to be a cheat, her professional reputation is in tatters and to cap it all, she starts seeing a shiny blue creature called Lance who does his very best to get on her nerves. Has it all been too much for her recently? Is she hallucinating? Or is she the only girl in the world with a personal dragon at her service? Virginia Fox's debut novel tells the story of a young woman, her journey from just living to finding a purpose in life, all told in a light-hearted, humorous style. You will laugh and cry with her and you will be genuinely happy for her in the end. - Only it won't be the end. It will be the beginning of new adventures, because this is only part one of the author's

trilogy. A book for dragon friends and animal lovers, looking for a little bit of magic in their life.

“A lovely little miracle of a book.” —Katherine Applegate, Newbery Medal-winning author of *The One and Only Ivan* “[A] large-hearted and riveting medieval adventure.” —William Alexander, National Book Award-winning author of *Goblin Secrets* “A breathtaking adventure.” —Kirby Larson, Newbery Honor-winning author of *Hattie Big Sky* A runaway boy befriends a polar bear that’s being transported from Norway to London in this “stupendous coming-of-age tale stuffed with adventure” (Kirkus Reviews, starred review). The polar bear is a royal bear, a gift from the King of Norway to the King of England. The first time Arthur encounters the bear, she terrifies him. Yet, strangely, she doesn’t harm him—though she has attacked anyone else who comes near. So Arthur finds himself taking care of a polar bear on a ship to England. Tasked with feeding and cleaning up after the

bear, Arthur’s fears slowly lessen as he begins to feel a connection to this bear, who like him, has been cut off from her family. But the journey holds many dangers, and Arthur knows his own freedom—perhaps even his life—depends on keeping the bear from harm. When pirates attack, Arthur must make a choice—does he do everything he can to save himself, or does he help the bear to find freedom? Based on the real story of a polar bear that lived in the Tower of London, this timeless adventure story thoughtfully looks at the themes of freedom, captivity, and the bond between a boy and a bear.

Commissaire Dupin is back on the case in this atmospheric mystery from international bestselling author Jean-Luc Bannalec. "Bannelec's Breton adventures are some of the best French local color going, with a deft blend of puzzle, personality, and description of the indescribable."—Kirkus Reviews The Fleur de Sel Murders is internationally bestselling author Jean-Luc Bannalec's third installment in the atmospheric Commissaire Dupin mystery series. The old salt farmers have

always said that the violet scent of the Fleur de Sel at harvest time on the salt marshes of the Guérande Peninsula has been known to cause hallucinations. Commissaire Dupin also starts to believe this when he's attacked out of the blue in the salt works. He had actually been looking forward to escaping his endless paperwork and taking a trip to the "white country" between the raging Atlantic Ocean and idyllic rivers. But when he starts snooping around mysterious barrels on behalf of Lilou Breval, a journalist friend, he finds himself unexpectedly under attack. The offender remains a mystery, and a short time later, Breval disappears without a trace. It is thanks to his secretary Nolwenn and the ambition of the prefect that Dupin is assigned to the case. But he won't be working alone because Sylvaine Rose is the investigator responsible for the department—and she lives up to her name.... What's going on in the salt works? Dupin and Rose search feverishly for clues and stumble upon false alibis, massive conflicts of interest, personal feuds—and ancient Breton legends.

In the past few decades, scientists of human nature—including experimental and cognitive psychologists, neuroscientists, evolutionary theorists, and behavioral economists—have explored the way we arrive at moral judgments. They have called into question commonplaces about character and offered troubling explanations for various moral intuitions. Research like this may help explain what, in fact, we do and feel. But can it tell us what we ought to do or feel? In *Experiments in Ethics*, the philosopher Kwame Anthony Appiah explores how the new empirical moral psychology relates to the age-old project of philosophical ethics. Some moral theorists hold that the realm of morality must be autonomous of the sciences; others maintain that science undermines the authority of moral reasons. Appiah elaborates a vision of naturalism that resists both temptations. He traces an intellectual genealogy of the burgeoning discipline of "experimental philosophy," provides a balanced, lucid account of the work being done in this controversial and increasingly influential field, and offers a fresh way of thinking about ethics in the classical tradition. Appiah urges that the relation between empirical research and morality, now so often antagonistic, should be seen in terms of dialogue, not contest. And he shows how experimental philosophy, far from being something new, is actually as old as philosophy itself. Beyond illuminating debates about the connection between psychology and ethics, intuition and theory, his book helps us to rethink the very nature of the philosophical enterprise.
