 The Visitor is the haunting tale of Anastasia King who, at the age of twenty-two, returns to her grandmother's house in Dublin - the place where she grew up - after six years away. She has been in Paris, comforting her disgraced and dying mother who ran away from a disastrous marriage to Anastasia's late father, her grandmother's only son. 'It's a pity she sent for you,' the grandmother says, smiling with anger. 'And a pity you went after her. It broke your father's heart.' Anastasia pays a severe price for the choice she made, one that deprives her of her family and makes her an exile in the place she once called home.

 Visitor Experience at Holocaust Memorials and Museums is the first volume to offer comprehensive insights into visitor reactions to a wide range of museum exhibitions, memorials, and memory sites. Drawing exclusively upon empirical research, chapters within the book offer critical insights about visitor experience at museums and memory sites in the United States, Poland, Austria, Germany, France, the UK, Norway, Hungary, Australia, and Israel. The contributions to the volume explore visitor experience in all its complexity and argue that visitors are

more than just "learners". Approaching visitor experience as a multidimensional phenomenon, the book positions visitor experience within a diverse national, ethnic, cultural, social, and generational context. It also considers the impact of museums' curatorial and design choices, visitor motivations and expectations, and the crucial role emotions play in shaping understanding of historical events and subjects. By approaching visitors as active interpreters of memory spaces and museum exhibitions, Popescu and the contributing authors provide a much-needed insight into the different ways in which members of the public act as "agents of memory", endowing this history with personal and collective meaning and relevance. Visitor Experience at Holocaust Memorials and Museums offers significant insights into audience motivation, expectation, and behaviour. It is essential

reading for academics, postgraduate students and practitioners with an interest in museums and heritage, visitor studies, Holocaust and genocide studies, and tourism.

Sheri Tepper, one of the foremost science fiction writers in the world, gives us an exciting, evocative and thought-provoking tale where science and magic meet head-on. A group of colonists, waking every few hundred years to see what's been happening on the planet they fled to from a dying Earth, watch as the systems and rules they set in place so long ago become debased and decayed. The corrupt leaders govern by oppression, but technological resources run low and the knowledge of how to replace them is lost in the mists of time. Instead, the power-hungry leaders turn to sorcery of the blackest kind, kindled by pain and despair. And when they launch a religious crusade to wipe out all those who won't conform to the government's ever-more-stringent dictates, not even the original colonists - the new gods - are safe from the ravaging sorcery-fuelled armies of the righteous . . .

The chapters draw on recent findings from cognitive psychology, cognitive science and neuroscience to provide a basis for a better understanding of the antecedents of a memorable experience. Understanding the visitor experience provides essential insights into how museums can affect people's lives.

Personal drives, group identity, decision-making and meaning-making strategies, memory, and leisure preferences, all enter into the visitor experience, which extends far beyond the walls of the institution both in time and space. Drawing upon a career in studying museum visitors, renowned researcher John Falk attempts to create a predictive model of visitor experience, one that can help museum professionals better meet those visitors' needs. He identifies

five key types of visitors who attend museums and then defines the internal processes that drive them there over and over again. Through an understanding of how museums shape and reflect their personal and group identity, Falk is able to show not only how museums can increase their attendance and revenue, but also their meaningfulness to their constituents. *The Visitor* Menasha Ridge Press

*Engaging the Visitor* addresses some of the most fundamental issues relating to interpretation, exhibition design and the visitor experience, in a format which is attractive, approachable - and above all actionable. Challenging many preconceptions, this book is firmly rooted in the results of museum-based scientific research. Deep and effective engagement with exhibit content is still the exception in very many museums. When most visitors pass an exhibit with only a glance, it will fail to engage. And until the visitor is engaged no informal learning - or any other satisfying experience - will happen...

This book will help you answer such questions as: How often do visitors really engage with the content of the exhibitions in our museum? Why do our visitors engage with some of our exhibits and not others? How can we increase our visitors' engagement through better exhibit design?
