 Best known for his unique musical style and blindingly fast hybrid picking technique, English guitarist Albert Lee is often referred to within the music industry as the "guitar player's guitar player," renowned for his work across several genres of music and for the respect that he has garnered from other industry giants. This comprehensive biography tells the entire story of Lee's long career and personal experiences, beginning with his upbringing in south London and his early experimentations with skiffle music (the British equivalent of American rockabilly).

It covers Lee's career in Chris Farlowe's Thunderbirds and the British rock and country group Heads, Hands, and Feet, his move to the United States in the 1970s and his subsequent work with Eric Clapton, the Crickets, Emmylou Harris and the Hot Band, the Everly Brothers, and, more recently, with Bill Wyman and with Hogan's Heroes. Lee's career is set against the background of changes in popular music and shows how he, as a British artist with nomadic Romany roots, has influenced traditionally "American" musical genres. The work includes 66 photographs, many from Lee's personal collection, two appendices, and an extensive bibliography.

This fascinating collection reproduces the most important front pages in the history of the Wisconsin State Journal newspaper, from its first publication under that name on September 30, 1852, to the current "War on Terrorism." See what Wisconsinites first read about Abraham Lincoln's election and assassination, Custer's last stand against the Sioux, the first votes by women, Henry Ford's \$5 daily wage, the Saint Valentine's Day mob massacre in Chicago, the disappearance of Amelia Earhart as she attempted to fly around the world . . . and the wars, elections, crimes, and social revolutions that have defined the past century and a half. Each front page, reproduced from the original, is readable down to the smallest type. In 2002 the Wisconsin State Journal celebrates its Sesquicentennial, marking one hundred and fifty years of service to the people of Madison and the State of Wisconsin. The newspaper had an earlier inception as the Madison Express in 1839, when Madison was a territorial town on the frontier and statehood was still nine years away. Readers will notice the newspaper's appearance has changed nearly as much as have the methods of gathering the news and producing the

paper. But readers' fascination with and hunger for the news of each day remain strong.

The story of Sin City '66 revolves around a Las Vegas detective named Frank Gibson who, in August of 1966, becomes involved in the investigation of a suicide of the manager of a prominent local rock band. Gibson, however, comes to believe his

death wasn't a suicide, but a murder. After failing to convince his superior at the police department that it may be a murder, Gibson begins his own private investigation into the band manager's death. Along the way he traces the manager's relationship with the band, recounting how he brought them from an obscure bar band to near national prominence. Afterwards he discovers that the band and the manager had a serious falling out, and suspects the band may have been the murderers. Their motive would have been both revenge as well as an effort to recoup major financial losses from his cheating them out of millions of dollars. So come along with detective Gibson's investigation into the case, with all its twists and turns and interesting players. Some of them are very interesting indeed, as the reader will soon discover. See what you think as the evidence piles up along the way to solving the mysterious case of Sin City '66.
