Originally compiled and edited by Louis Kí_hler, this edition contains some of the most popular keyboard sonatinas, rondos and other works (including symphonic transcriptions) of Beethoven, Clementi,

Haydn, Kuhlau and Mozart, among others. In clarifying this edition, editor Allan Small has removed impractical fingerings and unnecessary accidentals found in other editions.

Pieces for Children Graphic Arts Books (Faber Piano Adventures). Written for ages 5 and 6, My First Piano Adventure captures the child's playful spirit. Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic motions. 2. An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also

learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber's *My First Piano Adventure, Lesson Book A*. The Lesson Book introduces directional pre-reading, elementary music theory and technique with engaging songs, games, and creative discovery at the keyboard. Young students will enjoy the multi-cultural "friends at the piano" who introduce white-key names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers' instructional theory "ACE" - Analysis, Creativity, and Expression, guides the pedagogy of *My First Piano Adventure*. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play

more musically. View Helpful Introductory Videos Here

Book 1 introduces the child to the keyboard, staves, clefs, simple time signatures, note values, and rests. Reading encompasses notes to a 5th above and a 5th below Middle C. The notes A and E are introduced first, played by a braced 3rd finger of each hand. This encourages free movement of the whole arm from the shoulder, and develops a natural, balanced hand position, before the 5-finger position is gradually mastered. The first line of the treble staff and the fifth line of the bass staff are highlighted, and further lines are similarly treated as the child learns more notes. Staccato, slurs, ties, upbeats, and repeat signs are all experienced in Book 1. Tempo and dynamic markings encourage musical playing, and are in English, in order to

avoid "knowledge overload."

"Book 3 introduces the concepts of key, key signature, scales, triads, tones and semitones in a novel and exciting way each key is a group of characters or objects with note-names i.e. a band, a birthday party, a clothes-line with garments. Certain notes belong, while all other notes accidentals are outsiders. Transposition is a natural outcome of this concept, with a tune moving from one group to another. The child masters eight new notes up to High G and down to Low F, which facilitates the playing of more adventurous repertoire. The semiquaver, semiquaver rest, dotted crotchet and dotted quaver are introduced ..."--Provided by publisher
