*Wood & Wood Products Surplus Record*  
This book reports on advances in manufacturing, with a special emphasis on smart manufacturing and information management systems. It covers sensors, machine vision systems, collaborative technologies, industrial robotics, digital twins, and virtual and mixed reality. Further topics include quality management, supply chain, agile manufacturing, lean management, and sustainable transportation. Chapters report on theoretical research and

experimental studies concerning engineering design, simulation, and various machining processes for classical and additive manufacturing. They also discuss key aspects related to engineering education and competence management in the industry 4.0 era. Based on the 6th International Conference on Design, Simulation, Manufacturing: The Innovation Exchange (DSMIE-2022), held on June 6-9, 2023, in High Tatras, Slovak Republic, this first volume of a 2-volume set provides academics and professionals with extensive information on trends and technologies, and challenges and practice-oriented experience in all the

above-mentioned areas.

Outdoor play experiences have a crucial role in young children's learning and development and should be a daily part of their lives. Planning and facilitating rich play and learning opportunities outside can, however, be challenging,

especially in difficult weather conditions. *Outdoor Learning through the Seasons* provides detailed guidance on how we can encourage young children to engage with the natural world throughout the year. Using the four seasons as a framework, the book aims to help all adults to feel confident about taking children outside everyday and developing their awareness of the world around them. It suggests a wide range of experiences and looks at the various ways in which children can interact with the environment to further their learning and development. There are ideas to brighten grey winter days as well as summer sunshine, snow, wind and rain. Features include: reference to recent research on the significance of outdoor play in early childhood; guidance on how

to encourage effective learning outdoors; practical tips to offer high quality provision in layout, design and planting; suggestions for planning outdoor experiences in the seven areas of learning in line with the revised Early Years Foundation Stage; advice on working with parents and the role of adults; ideas for all seasons, weather conditions and working with the four elements: earth, air, water and fire; useful reference lists of further resources including stories, poems and websites; an appendix of seasonal recipes. Including a full colour photo plate section to illustrate good practice, this practical book is essential reading for all those looking to provide rich and stimulating outdoor play provision for children in early years settings on a daily basis.

Prepare to learn about two things that don't seem to go together-fetishes and parties! Written by PVC Leatherman with a foreward [sic] by Randy LaBido, *The Fetish Party* is the ideal book for you to find out exactly how taboo activities and socially acceptable ones meet under one roof. Fetish parties are unlike any parties you experienced before! They are vastly different, yet in some ways, the same. This is your personal introduction to the fascinating, and very misunderstood, feared, and reviled world of fetish parties. And by personal, PVC

Leatherman regales you with anecdotes from his night as a fetish party virgin, to now, when he is a practically an instigator and ringleader! If you are curious about the fetish lifestyle, meaning curious enough to want to go to your first fetish party, you want to know what to expect. This book tells you what to expect whether you go alone, or not. Instead of floggers, paddles, violet wands, hot candle wax, bondage rope, riding crops, wrist and ankle cuffs, making you nervous, you will want to experience them. Instead of thinking spankings are for children, considering getting your shoes kissed or feet worshiped is gross, or seeing a guy dressed in a corset and high heels is weird, you will realize they are different ways people have fun in nonjudgmental

ways. And those kinky people in leather, latex, and vinyl, will no longer be perverts or a mystery, but friends, dancer partners, and play partners. You would no longer be on the outside. You'd be in an underworld of energy, excitement, pleasure, and pain...and loving it! Get ready to immerse yourself with all the minor and major details needed to navigate any fetish party with comfort, confidence, and ease.

Sometimes you know things you're not supposed to know. Things that you can

never un-know. Things that will change the course of your life...and the fate of the ones you love. I found her in our living room, bleeding and close to death, but alive. Barely. Until morning stole her last breath. The media called her killer the “Triangle Terror” ... and then forgot about her. But I never forgot—my murdered sister, and an investigation that led to my own resurrection from the dead. Twenty-two years ago, on a cold February night, Landon Worthington lost his father for the last time. After an armed robbery gone wrong, evidence and witness testimony pointed a shaky finger at Dan Worthington—deadbeat dad and alcoholic husband. But before the dust could settle over the conviction, Landon’s preteen sister, Alexis, is murdered in their home, plunging

Landon’s life into further despair. Two decades and a cold case later, Landon is dogged by guilt over their estranged relationship and decides to confront his incarcerated father about what really happened the night of the robbery. But the years of lies are hard to unravel. And the biggest question of all haunts him: How does everything tie into his sister’s murder? And so begins Landon’s journey to piece together the puzzle of secrets, lies, and truths that can free his father, avenge his sister, and perhaps save himself. A short story mystery perfect to read before bed as a standalone or as the companion book to *A Secondhand Life*.
