New York Times bestseller and Newbery Honor Book! A gorgeously written, hopeful middle grade novel in verse about a young girl who must leave Syria to move to the United States, perfect for fans of Jason Reynolds and Aisha Saeed. Jude never thought she'd be leaving her beloved older brother and father behind, all the way across the ocean in Syria. But when things in her hometown start becoming volatile, Jude and her mother are sent to live in Cincinnati with relatives. At first, everything in America seems too fast and too loud. The American movies that Jude has always loved haven't quite prepared her for starting school in the US—and her new label of "Middle Eastern," an identity she's never known before. But this life also brings unexpected surprises—there are new friends, a whole new family, and a school musical that Jude might just try out for. Maybe America, too, is a place where Jude can be seen as she really is.

This lyrical, life-affirming story is about losing and finding home and, most importantly, finding yourself.

useful guidebook, so you can learn how successful remote leaders overcome the challenges created by virtual working. Here is a window into how you will benefit by purchasing and reviewing this excellent resource aimed at remote managers, remote team leaders, virtual leaders and matrix managers: Benchmark your remote leadership complexity and use this to prioritise your focus areas for improvement or risk management. Understand what it means to nurture a purposeful virtual team, and explore the use of a variety of tools and templates to keep your finger on the pulse of activity. Understand the difference between motivating co-located versus remote teams, and learn how to keep remote team members motivated and engaged. Grasp a full consideration of remote communication challenges and how to overcome them with practical guidelines and tools that work in a variety of contexts across typical communication channels of email, telephone and web meetings. Get to grips with best practices on how to use these communication channels to best effect, and appreciate that not having access to face-to-face meetings is not always a compromise when other channels are harnessed effectively. The process of transforming a collection of individuals into a cohesive team—a group of people structured to work together to meet the requirements of their customers by achieving their purpose and goals—is known as team building. Team building strengthens the relationships between members of a group. Individual members appreciate each other's diversity while working toward common aims and objectives. Team building can refer to the daily interactions that employees have while working together to do the tasks that their professions need. This is a natural kind of team development that can be aided if the group takes the time to develop a set of team rules. These norms guide group members' interactions within the team and with the rest of the organisation. Structured activities and exercises guided by team members can also be used to establish a team. Managers can also contract out for

facilitation using an external professional if they have the right budget and goals. External facilitation by a seasoned professional can help you increase your team-building efforts. Employees that have created bonds as a result of team building will be able to complete the job and goals of your company more successfully than those who have not. Maintain your focus on team-building opportunities that contribute to the team's actual task being completed.
