Congressional Record

Far from being

rhetorical ornaments, metaphors play a central role in public discourse, as they shape the structure of political categorisation and argumentation. Drawing on a very large bilingual corpus, this book, now in paperback, analyses the distribution of 'metaphor scenarios' in more than a decade of public discourse on European integration, elucidating differences in UK and German attitudes and argumentation. The corpus analysis leads to a refinement of cognitive metaphor theory by systematically relating conceptual, semantic and argumentation levels and incorporating the historical dimension of metaphor evolution. Finally, drawing on

examples of metaphor negotiation and on a reassessment of Hobbes' concept of metaphor in Leviathan, the book highlights the ethical dimension of metaphor in politics.

### **Vacher's European Companion**

This book examines how sovereignty works in the context of European integration and postcolonialism. Focusing on a group of micro-polities associated with the European Union, it offers a new understanding of international relations in the context of modern sovereignty. This book offers a systematic and comparative analysis of the Overseas Countries and Territories (OCTs), the EU and the four affected Member

States: UK, France, the Netherlands and Denmark. Contributors explore how states and state-like entities play 'sovereignty games' to understand how a group of postcolonial entities may strategically use their ambiguous status in relation to sovereignty. The book examines why former colonies are seeking greater room to manoeuvre on their own, whilst simultaneously developing a close relationship to the supranational EU. Methodologically sophisticated, this interdisciplinary volume combines interviews, participant observation, textual, legal and institutional analysis for a new theoretical approach to understanding the strategic possibilities

and subjectivity of non-sovereign entities in international politics. Bringing together research on European integration and postcolonial theory, *European Integration and Postcolonial Sovereignty Games* will be of interest to students and scholars of International Relations, EU studies, Postcolonial studies, International Law and Political Theory.

**The International Who's Who of Women 2002**

This volume presents an overview of major cultural themes in contemporary France. The section on politics deals with the issue of political cohabitation, the evolution of the Communist Party, the environment, social systems and the European Union. In the

social arena, the articles encompass the evolution of the family, benefits for the elderly, the education system, and the social implications of graffiti. The changing nature of French identity is brought to light through an analysis of the press and the debate on multiculturalism. A review of cultural issues includes the notion of leisure, the contemporary social novel, the cosmopolitan tradition in French film, and new cultural spaces. The work concludes with perceptions of France from the United States as seen through diplomatic relations and remakes of french films, and a final essay on France. The various articles include numerous bibliographic

references and will be of great interest to Francophiles, academics, and students of French language and culture. *France at the dawn of the twenty-first*
