The Rules of Life, Expanded Edition Seagull Library of German A magnificent example of Widmer's characteristic humor, literary genius, and unparalleled imagination. In the wildly entertaining novel *The Blue Soda Siphon*, the narrator unexpectedly finds himself back in the world of his childhood: Switzerland in the 1940s. He returns to his childhood home to find his parents frantic because their son is missing. Then, in another switch, the young boy that he was back then turns up in the present of the early 1990s, during the Gulf War, where he meets himself as an older man, and meets his adult self's young daughter. These head-scratching, hilarious time shifts happen when both the adult narrator and his childhood self go to the cinema and see films, the subjects of which echo their own lives. Translated into English for the first time by Donal McLaughlin, this novel, in which the eponymous blue soda siphon bottle is a recurring symbol, is a magnificent example of Urs Widmer's characteristic humor, literary genius, and unparalleled imagination.

A magnificently illustrated Chinese folklore tale about a tigress, a seer, a King, and the prince, who must leave his family and learn the ways of the tigers so that the war between man and animal can end. Deep in the Great Forest, a tigress is mourning the death of her tiger babies who have been killed by hunters. Seeking revenge, she attacks the villages, destroying houses and prompting the king to gather his army. But a seer named Lao Lao warns the king that if he angers the tigress further she will destroy the kingdom. Lao Lao counsels the king to give his own son to the tigress and promises that no harm will come to the boy. The next morning, the king brings the prince to the edge of the Great Forest and tells him, "Now you must go on alone." To end the war between man and animal, the prince must forget his human ways and begin to learn what tigers know. The Tiger Prince was inspired by *The Tigress*, a late Shang dynasty bronze vessel in the Cernuschi Museum in Paris depicting a scene from the Chinese folktale of a baby raised by a tigress.

A sneak peek at an electrifying tale of greed and power, magic and destiny, and one boy's courage at the heart of it all, from Jennifer A. Nielsen, the New York Times bestselling author of the *Ascendance Trilogy*. When Nic, a slave in the mines outside of Rome, is forced to enter a sealed cavern containing the lost treasures of Julius Caesar, he finds much more than gold and gemstones: He discovers an ancient bulla, an amulet that belonged to the great Caesar and is filled with a magic once reserved for the Gods -- magic some Romans would kill for. Now, with the deadly power of the bulla pulsing through his veins, Nic is determined to become free. But instead, he finds himself at the center of a ruthless conspiracy to overthrow the emperor and spark the Praetor War, a battle to destroy Rome from within. Traitors and spies lurk at every turn, each more desperate than the next to use Nic's newfound powers for their own dark purposes. In a quest to stop the rebellion, save Rome, and secure his own freedom, Nic must harness the magic within himself and defeat the empire's most powerful and savage leaders.

The intellectual work of Michel Foucault has been an increasingly central component of social science in recent years. This is the first book to directly address the implication of Foucault's work for the field of education. This text, originally published in 1997, not only provides a critical examination of the significance of Foucauldian thought for education, but also discusses how Foucault's theories are arrayed in the everyday life of schools.

'... A beautifully written, articulate and compelling argument for a sociocultural perspective on second language teacher education .

. . Essential reading for all who wish to understand this perspective.' - David Nunan, University of Hong Kong
 '...Significant and timely. Johnson is masterful at writing in an engaging, transparent prose about complex concepts. It's a rare scholar who can write prose like this. Throughout my reading I wanted to engage in dialogue with her - this is a sure sign of a great book." - Diane Tedick, University of Minnesota, USA
 This book presents a comprehensive overview of the epistemological underpinnings of a sociocultural perspective on human learning and addresses in detail what this perspective has to offer the field of second language teacher education. Captured through five changing points of view, it argues that a sociocultural perspective on human learning changes the way we think about how teachers learn to teach, how teachers think about language, how teachers teach second languages, the broader social, cultural, and historical macro-structures that are ever present and ever changing in the second language teaching profession, and what constitutes second language teacher professional development. Overall, it clearly and accessibly makes the case that a sociocultural perspective on human learning reorients how the field understands and supports the professional development of second language teachers.
