Viewed through the eyes of those on the ground, *Black Watch* reveals what it means to be part of the legendary Scottish regiment, what it means to be part of the war on terror and what it means to make the journey home again. This book contains Gregory Burke's award-winning text, with production notes by the director John Tiffany and

colour photographs that capture the powerful and inventive use of movement in this visceral, complex and urgent piece of theatre. The National Theatre of Scotland's production of *Black Watch* opened at the Edinburgh Festival Fringe in 2006 where it won a Herald Angel, a Scotsman Fringe First, a Best Theatre Writing Award from The List, a Stage Award for Best Ensemble, the Critics' Circle Award and the South Bank Show Award for Theatre. In 2007 it began a world tour in Scotland. "Completely brilliant." Daily Telegraph "*Black Watch*

is a glorious piece of theatre, raw, truthful, uncomfortable, political, funny, moving, graceful and dynamic." Scotland on Sunday "A brilliantly realised piece." Evening Standard "A magnificent piece of social and political theatre. A high point not just of the festival but of the theatrical year" Observer

As Harold Davis fell under heavy machine-gun fire, his body riddled with bullet wounds and life seemingly slipping away from him, he could not have realised that he was one of the Korean War's more fortunate soldiers. American medics sprang into action and, against all odds, saved the plucky young Scot, a man who proved tougher than the bullets the brutal enemy showered him with. Unlike tens of thousands of those who fought in Korea in the 1950s, he lived to tell the tale of his horrific experiences on the front line. Now, for the first time, the Black Watch hero shares his vivid and harrowing memories. A man of tremendous grit and determination, Davis was pieced back

together during almost two years in hospital. He defied doctors to return to his pre-war career as a professional footballer, building a reputation as one of Scotland's most feared and revered defenders at Rangers FC.

In the wake of the Jacobite Rebellions, companies of trustworthy Highlanders were raised from royal clans to protect the populace, deter cattle stealing and guard against any possible Jacobite incursion. Soon after its formation, the companies organized into a regiment of foot known famously as the "Black Watch," the name thought to derive from their dark-coloured tartans and their role to "watch" the Highlands. This book explores the uniforms, equipment and history of the Black Watch, from

their involvement in the battles of Fontenoy and Ticonderoga in the mid-18th century, through to the Korean War of the 1950s.

A Brief History of the Royal Highland Regiment ... By John Stewart ... New Edition, Containing a Record of the Great War London : Barrie & Jenkins

The Black Watch is one of the finest fighting forces in the world and has been engaged in virtually every worldwide conflict for the last three centuries.

Named after the dark tartan of the soldiers' kilts, it is the oldest Highland regiment. As part of the British army, their first battle abroad was in Flanders in 1745 but the regiment soon moved to North America to fight the French, and then shared the capture of Montreal, the Windward Islands and Martinique. The American War of Independence saw the regiment once again in America, fighting horrific battles and eventually storming Fort Washington in 1776. Since then the

regiment has held its own from the Napoleonic Wars to the Indian mutiny to Iraq. The Black Watch is the UK's most decorated regiment, combining the proud history and tradition of an organisation that has been soldiering for over 250 years.

The Black Watch (Royal Highlanders), 42nd/73rd Foot, entered the Great War with two Regular, one Special Reserve (the 3rd) and four Territorial Force battalions (4th to 7th); by the end of the war the total had grown to twenty-two battalions (Becke), twenty-five according to the History's Foreword. Thirty thousand served in the Regiment in France, Belgium Salonika, Palestine and Mesopotamia and of these 8,390 died.

The Regiment was awarded 69 Battle Honours, three VCs were won and a fourth was awarded to a BW officer in 1917 while he was commanding 1st Lincolns. This three-volume history is outstanding - Vol 1 deals with the Regular and the Special Reserve battalions, Vol 2 the TF battalions and Vol 3 the New Army (Service or Kitchener) battalions. Common to all three volumes are the Preface, Foreword (by the Colonel of the Regiment) and the page listing the Regiment's Battle Honours. In each volume the battalions are treated separately and for all the front line battalions, following the narrative describing their war service there are the same six appendices: Record of Officers' Service, Summary of Casualties, Officer casualty list, Other

Rank casualty list, Honours and Awards and finally the list of Actions and Operations. In Volume 1 there is a seventh appendix to the 1st and 2nd Battalion narratives - a list of Other Ranks of each battalion who were commissioned during the war. In the case of the TF the second and third line battalions, which did not leave the UK, all are dealt with together. There is a bonus in Volume 2; at the end there is a section on the Royal Highlanders of Canada represented by the 13th, 42nd and 73rd Canadian Infantry Battalions, giving a brief account of their actions with appendices showing for each battalion a summary of killed, list of Honours and Awards and list of Actions and Operations. I believe this has got all you can hope for in a regimental history.

Black artists of African and Caribbean descent and major contributions to the British art scene Black artists have been making major contributions to the global art scene since at least the middle of the 20th century. While some of these artists of African and Caribbean descent have been embraced at times by the art world, they have mostly been neglected or have not received the recognition they deserve. Taking its starting point as the Windrush-era Caribbean Artists Movement, and considering and contextualizing the political, cultural, and artistic climate from which it emerged, this concise introduction showcases the work of 70 Black-British artists from the 1930s to the present.

Artwork in a range of media offer a lens through which to understand some of the events and issues confronted and explored, shedding light on the Black-British experience. Constructed around contemporary ideas on race, national identity, citizenship, gender, sexuality, and aesthetics in Britain, this book interrogates themes at the heart of Black-British art, revealing art in dialogue with a complex past and present. Featuring some of the most prominent and influential Black-British artists of recent decades, as well as less well-known artists, it also includes work from a new generation of artists on the cutting edge of contemporary art. At a time when visibility within the art world has taken on a renewed urgency, this is a timely and accessible introduction

celebrating Black-British artists and their outstanding contribution to art history.

From childhood family day trips to Loch Lomond, to her days as TVam's roving correspondent, Lorraine Kelly has covered the length and breadth of Scotland. But certain special places tug at her heartstrings and lure her back time and time again. Traveling to the highlands and islands and all her favorite places in between, this is Lorraine's personal journey around her beautiful and beguiling country. Each and every stop gives rise to fascinating stories and memories along the way, from her adopted home of Dundee to the wild and remote islands of St. Kilda. She revisits

childhood haunts in Glasgow, indulges in a spot of whisky-tasting on the island of Islay, and reveals what led her to once arrive in Edinburgh pushing a pram and wearing a pair of roller skates. She rediscovers the joys of the natural wilderness in the Highlands, visits a dramatic Viking fire festival in Shetland, and recalls the week she and her family spent hunting the Loch Ness monster. Beautifully illustrated with stunning original photographs, Lorraine Kelly's Scotland is a celebration of a gloriously diverse country with a deep and rich heritage, told with all Lorraine's characteristic warmth and humor. *Rethinking Readiness* Random House The first short story collection from a writer who calls to mind such luminaries as Denis Johnson, George Saunders, and

When *The New Yorker* published a short story by Saïd Sayrafiezadeh in 2010, it marked the emergence of a startling new voice in fiction. In this astonishing book, Sayrafiezadeh conjures up a nameless American city and its unmoored denizens: a call-center employee jealous of the attention lavished on a co-worker newly returned from a foreign war; a history teacher dealing with a classroom of maliciously indifferent students; a grocery store janitor caught up in a romantic relationship with a kleptomaniac customer. These men's struggles and fleeting triumphs—with women, with

cruel bosses, with the morning commute—are transformed into storytelling that is both universally resonant and wonderfully strange. Sometimes the effect is hilarious, as when a would-be suitor tries to take his sheltered, religious date on a tunnel of love carnival ride. Other times it's devastating, as in the unforgettable story that gives the book its title: A soldier on his last routine patrol on a deserted mountain path finally encounters "the enemy" he's long sought a glimpse of. Upon giving the author the Whiting Writers' Award for his memoir, *When Skateboards Will Be Free*, the judges hailed his writing as "intelligent, funny, utterly unsmug and unpreening." These fiercely original stories show their author employing his

considerable gifts to offer a lens on our collective dreams and anxieties, casting them in a revelatory new light. Praise for *Brief Encounters with the Enemy* “With impressive guile and design, Mr. Sayrafiezadeh uses the arrival and escalation of that war as the through-line connecting each personal drama. . . . These calculated echoes work to unify [his] haunting book in a way that story collections rarely manage.”—Sam Sacks, *The Wall Street Journal* “In his memoir, Sayrafiezadeh told the remarkable tale of a childhood steeped in doomed dogma. His stories . . . offer something more: a searing vision of his wayward homeland, delivered not in the clamoring rhetoric of a revolutionary, but in the droll monologues of young men who kill because they lack the moral imagination

to do otherwise.”—Steve Almond, *The New York Times Book Review* (Editors’ Choice) “Sayrafiezadeh’s eight interlinked stories are just as fulfilling as any novel you’re likely to read this summer.”—*The Boston Globe* “A tantalizing fiction debut . . . [that] menaces and mesmerizes.”—*Elle* “The recurring motifs include 99-cent American flags, putting in a word with the boss, idealistic Army recruitment brochures and unseasonable temperatures. Each time they recur they are more potent, and poignant. The collection is readable, and real, and hopefully a harbinger of more fiction to come from Sayrafiezadeh.”—*Minneapolis Star Tribune* “Funny and surprising . . . Sayrafiezadeh’s simple style can fool you into thinking that his struggling narrators

are plain and unassuming. They are anything but. . . . Each story compels you to read the next, and no character escapes unscathed.”—*The Daily Beast Tougher Than Bullets* Columbia University Press

The Royal Highland Fusiliers came into being in 1959 as a result of the amalgamation of two regiments, both of which had strong connections with Glasgow and the west of Scotland: The Royal Scots Fusiliers, founded in 1678 by Charles Erskine, fifth Earl of Mar; and The Highland Light Infantry, or HLI, created in 1881 as a result of the amalgamation of the 71st Highlanders and the 74th Highlanders. Two distinctive infantry traditions can be found in the names of these regiments, which have helped to form the line

infantry regiments of the British Army. Fusiliers were armed with the flintlock fusil instead of the more common matchlock musket, and light infantry came into being during the Napoleonic Wars to provide the army with a corps of skirmishing sharpshooters similar to Austrian and German Jäger troops. Amongst those who have served as fusiliers or light infantrymen are Hugh Trenchard, who became Air Chief Marshal of the Royal Air Force, Winston Churchill and David Niven, who joined the HLI from Sandhurst in the inter-war years. All these traditions and personalities went into the making of a regiment whose name lives on in the 2nd battalion of The Royal Regiment of Scotland, which was formed in 2006 as a result of the restructuring of the infantry

regiments of the British Army.

New York Times Bestseller Baratunde Thurston's comedic memoir chronicles his coming-of-blackness and offers practical advice on everything from "How to Be the Black Friend" to "How to Be the (Next) Black President". Have you ever been called "too black" or "not

black enough"? Have you ever befriended or worked with a black person? Have you ever heard of black people? If you answered yes to any of these questions, this book is for you. It is also for anyone who can read, possesses intelligence, loves to laugh, and has ever felt a distance between who they know themselves to be and what the world expects. Raised by a pro-black, Pan-Afrikan single mother during the crack years of 1980s Washington, DC, and educated at Sidwell Friends School and Harvard University, Baratunde Thurston has more than over thirty years' experience being black. Now, through stories of his politically inspired Nigerian name, the heroics of his hippie mother, the murder of his drug-abusing father, and other revelatory black details, he

shares with readers of all colors his wisdom and expertise in how to be black. “As a black woman, this book helped me realize I’m actually a white man.”—Patton Oswalt

Military Timepieces Oxford University Press

The Black Watch was formed at Aberfeldy in Perthshire in the early eighteenth century as an independent security force, or 'watch', to guard the approaches to the lawless areas of the Scottish Highlands. Instantly recognisable due to the famous red hackle cap badge and the traditional dark blue and green government tartan kilt from which it got its name, The Black Watch was renowned as one of the great fighting regiments of the British Army and served with distinction in all major

conflicts from the War of Austrian Succession onwards. In a highly controversial move, the regiment served under the operational control of the US Army during the counter-insurgency war in Iraq in December 2004. The Black Watch prided itself on being a 'family regiment', with sons following fathers into its ranks, and this new concise history reflects the strong sense of identity which was created over the centuries. In 2006, as part of a radical review of the country's defence policy, The Black Watch was amalgamated into the new Royal Regiment of Scotland. This new account of the famous regiment is therefore a timely memorial to its long and distinguished history.

_____ As seen on Sky News All Out Politics 'There's no understanding global inequality without understanding its history. In *The Divide*, Jason Hickel brilliantly lays it out, layer upon layer, until you are left reeling with the outrage of it all.' - Kate Raworth, author of *Doughnut Economics* · The richest eight people control more wealth than the poorest half of the world combined. · Today, 60 per cent of the world's population lives on less than \$5 a day. · Though global real GDP has nearly tripled since 1980, 1.1 billion more

people are now living in poverty. For decades we have been told a story: that development is working, that poverty is a natural phenomenon and will be eradicated through aid by 2030. But just because it is a comforting tale doesn't make it true. Poor countries are poor because they are integrated into the global economic system on unequal terms, and aid only helps to hide this. Drawing on pioneering research and years of first-hand experience, *The Divide* tracks the evolution of global inequality - from the expeditions of Christopher Columbus to the present day - offering revelatory answers to some of humanity's greatest problems. It is a provocative, urgent and ultimately uplifting account of how the world works, and how it can change for the better.

The Black Watch Regimental Archives contain many thousands of photographs graphically illustrating the history of this famous Highland regiment since the first images were recorded some 150 years ago. Over two hundred of these pictures have been selected for this volume to represent different aspects of regimental life both home and abroad, in peace and at war. From the days when the infantry still practised forming squares to the hand over of Hong Kong, the last significant remnant of the Empire, in 1997, this collection provides a fascinating insight into the activities of the Regiment. Naturally, many of the Regiment's great heroes and characters appear in these pictures but so do many

other famous people, members of the royal family, Presidents of the United States of America and other heads of state. The collection of photographs also covers the Territorial battalions of the

Black Watch from their early days as Rifle Volunteers through the two World Wars during which they won such renown for the Regiment.
