PITTS LAYLA

A Manual of Hebrew Poetics AMACOM

Schlagworte: Bribery, Corruption, Incentives, Incentive Systems, Compliance

Anti-Bribery Compliance Incentives Springer

Co-written by an HR lecturer and an HR practitioner, this introductory textbook provides academic and practical insights which convey the reality of human resource management. The range of real life cases and learning features enables students to quickly understand the issues in practice as well as theory, and brings the subject to life.

Constitutional Protection of Human Rights in Latin America Alerion

Neither the morality of human rights nor its relation to the law of human rights is well understood. In this book, Michael Perry addresses three large issues. There is undeniably a religious ground - indeed, more than one religious ground - for the morality of human rights. But is there a secular ground for the morality of human rights? What is the relation between the morality of human rights

and the law of human rights? Perry here addresses the controversial issues of capital punishment, abortion, and same-sex unions. What is the proper role of courts, in a liberal democracy, in protecting - and therefore in interpreting - constitutionally entrenched human rights? In considering this question, special attention is paid to the Supreme Court and how it should rule on issues such as capital punishment and abortion. *Toward a Theory of Human Rights* makes a significant contribution both to human rights studies and to constitutional theory.

Cengage Learning

Constitutional courts around the world play an increasingly central role in day-to-day democratic governance. Yet scholars have only recently begun to develop the interdisciplinary analysis needed to understand this shift in the relationship of constitutional law to politics. This edited volume brings together the leading scholars of constitutional law and politics to provide a comprehensive overview of judicial review, covering theories of its creation, mechanisms of its constraint, and its comparative applications, including theories of interpretation and doctrinal developments. This book serves as a single point of entry for legal scholars and practitioners interested in understanding the field of comparative judicial review in its broader political and

social context.

Researches in the Highlands of Turkey Simon and Schuster

"This manual closes a circle which began almost thirty-five years ago (November, 1954) with the beginning of work on a doctoral dissertation defended at the Pontifical Biblical Institute in April, 1957 (published in Spanish in 1962). During three decades of teaching and writing the author has kept an active interest in poetics and stylistics and the resulting accumulated knowledge has been concentrated in the present manual. The primary purpose of the book is not to serve as a source of information about facts and authors but rather to initiate the reader into the stylistic analysis of poetry. To obtain information and to classify it the reader can turn to recent works (Watson), earlier works (Knig, Hempel), or reprinted works (Bullinger). Among the poetic techniques discussed are Sound and sonority, rhythm, imagery, figures of Speech, dialogue and monologue, development and composition"--Page 4 of cover.

The Judicial Process in Comparative Perspective Cambridge University Press

Legal Reasoning, Research, and Writing for International Graduate Students, Fifth Edition, helps international students understand and approach legal reasoning and writing the way law students

and attorneys do in the United States. With concise and clear text, Professor Nedzel introduces the unique and important features of the American legal system and American law schools. Using clear instruction, examples, visual aids, and practice exercises, she teaches practical lawyering skills with sensitivity to the challenges of ESL students. New to the Fifth Edition: Streamlined presentation makes the material even more accessible. Chapters are short, direct, and to the point. Five chapters on reasoning and writing, including exam skills, office memos, and rewriting. Full chapters on contract drafting and scholarly writing. New flowcharts provide a concise, visual overview for each chapter. Citation coverage updated to new 21st edition of The Bluebook. Simplified examples and exercises. Three thoroughly revised chapters on legal research, including non-fee legal research and technological changes in the practice of U.S. law. Professors and student will benefit from: Comparative perspective informs readers about the unique features of American law as compared to civil law, Islamic law, and Asian traditions. Explanations of practical skills assume no former knowledge of the American legal system. U.S. law school necessary skills explained immediately: case briefing, creating a course outline, time management, reading citations, and writing answers to hypothetical exam questions. Short, lucid chapters that reiterate major points to aid comprehension. Clear introductions to writing hypothetical-based exams, legal memoranda, contract drafting and scholarly writing. An integrated approach to proper citation format, with explanation and instruction provided in context. Discussion of plagiarism and U.S. law school honor codes. Practical skill-building exercises in each chapter. Research exercises are primarily Internet-based Charts and summaries that are useful learning aids and reference tools

Standard Albanian Council of Europe

"THE CODE OF LEKE DUKAGJINI is a great cultural treasure, comparable to the chapters of The Old Testament." "It provides deep insights into the ancient society of the Albanians, their somber dignity & their magnificent sense of honor."--David Binder, The New York Times. "This legal system was established & passed on to future generations as a common law by Leke Dukagjini, a co-fighter of the legendary Skenderbeg." "The 'Besa' or the 'word of honor' as stated in THE CODE OF LEKE DUKAGJINI which means peace & protection to those whom it is given, has become today an important fighting tool in the political struggle of Kosovo's Albanians against Serb oppression."--Victor Meier, The Frankfurter Allgemeine Zeitung. "The legal Code of the Albanians known by them for a thousand years, is one of the most original in the history of mankind. Among the basic pillars of this code are the equality of men before the code & the non-abuse of justice." "The entire essence of the legal code of the Albanians is an unparalleled rigorous respect for this basic principle: non-violation of the dignity of a man- his honor, home, & life."--Ismail Kadare, Albanian writer.

Comparative Judicial Review London : Macmillan

Law in the United States, Second Edition, is a concise presentation of the salient elements of the American legal system designed mainly for jurists of civil law backgrounds. It focuses on features of American law likely to be least familiar to jurists from other legal traditions, such as American common law, the federal structure of the U.S. legal system, and the American constitutional tradition. The use of comparative law technique permits foreign jurists to appreciate the American legal system in comparison with legal systems with which they are already familiar. Chapters in the second edition also cover such topics as American civil justice, criminal law, jury trial, choice of laws and international jurisdiction, the American legal profession, and the influence of American law in the global legal order.

This book is the first application of the comparative method to the analysis of both the basic features of judicial process and their evolution and profound transformation in Europe and America. Cappelletti discusses the challenges facing the courts of justice and other adjudicatory agencies, and evaluates the solutions adopted by contemporary legal systems.

The Palace of Dreams kassel university press GmbH

From the moment that Gjorg's brother is killed by a neighbour, his own life is forfeit: for the code of Kanun requires Gjorg to kill his brother's murderer and then in turn be hunted down. After shooting his brother's killer, young Gjorg is entitled to thirty days' grace - not enough to see out the month of April. Then a visiting honeymoon couple cross the path of the fugitive. The bride's heart goes out to Gjorg, and even these 'civilised' strangers from the city risk becoming embroiled in the fatal mechanism of vendetta.

The Right to a Fair Trial Edward Elgar Publishing

This book considers local autonomy, measured as a multidimensional concept, from a cross-country comparative perspective, and examines how variations can be explained and what their consequences are. It fills a gap in the literature by providing a comprehensive study of the different components of local autonomy across a large number of countries, over time. It offers a theoretically saturated concept to measure local autonomy and applies it to 39 countries, including all 28 EU member states together with Albania, Georgia, Iceland, Liechtenstein, Macedonia, Moldova, Norway, Serbia, Switzerland Turkey and Ukraine, over a period of 25 years (1990-2014).

Fjalor enciklopedik shqiptar: N-Zh dhe një shtojcë Oxford University Press

Released for the first time in the English language, and marking the centennial of Albania's independence, Serbs and Albanians delivers an at once refreshing and comprehensive insight into the cultural composition of Southeast Europe. A wider audience can now appreciate the work of Milan Ufflay, a controversial figure of his time whose assassination was denounced by leading intellectuals, Albert Einstein and Heinrich Mann. With a measured and often poetic voice, Ufflay takes us on a journey through the Middle Ages as it unfolded on a land where opposing cultures were distilled and interwoven, dynasts and whole cities upturned and reborn.

Toward a Theory of Human Rights Penguin (Non-Classics)

INTRODUCTION TO LAW AND THE LEGAL SYSTEM provides an overview of law and the American legal system, using cases to support the major functions of U.S. law. Suitable for a variety of departments and courses, this text is known for its broad coverage, flexible organization, and use of cases to explain legal concepts. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Global Corruption Report 2007 University Press of Kentucky

We have entered into an entirely new era, an age of increasingly frequent and intense periods of turbulence in the global economy. Unlike past recessions, today's crises have precipitated a need for businesses to develop a new mindset, one that takes into account intermittent periods of disturbance, allowing them to thrive while under the constant threat of chaos. Chaotics presents a revolutionary set of guidelines designed to help businesses: • detect sources of turbulence • prepare scenarios • predict resulting vulnerabilities and opportunities • develop responses to ensure long-term resilience and success • avoid risk while advancing the interests of the company • build flexibility into the balance sheet • price strategically • adjust products to meet new customer values • and more. Complete with metrics and measurements, Chaotics outlines a powerful new system for managing waves of uncertainty affecting customers, employees, and other stakeholders. In this climate of increased turbulence, no organization can survive with less.

[Kanuni i Lekë Dukagjinit](#) McGraw-Hill Companies

The Global Corruption Report 2007 looks at how, why and where corruption mars judicial processes, and to reflect on remedies for corruption-tainted systems. The book focuses on judges

and courts but situates them within the broader justice system - police, prosecutors, lawyers and agencies responsible for enforcing judicial decisions. It also looks at the social context of the judiciary and shows how societal expectations, the existence of non-state justice mechanisms and the strength of informal networks that circumvent the justice system, all have a bearing on judicial corruption. The book takes a close look at the two main judicial corruption problems: political interference and petty bribery by court personnel. The 37 country case studies and a series of concrete recommendations for judges, political powers, businesses, lawyers, prosecutors, academics, NGOs and donors are supplemented by 15 empirical studies of corruption in various sectors, including the justice sector.

Introduction to Human Resource Management Stanford University Press

The right to a fair trial is a fundamental element of legal systems. Guaranteed by national constitutions and the European Convention on Human Rights, it ensures the effectiveness of law against arbitrary acts of the authorities. The reports which appear in this volume were presented in Brno, at a seminar on European constitutional heritage, in which judges from constitutional courts and other equivalent bodies from approximately 20 countries participated. They show the convergence of approaches, in Europe and on other continents, and the universal nature of rights protected by a fair trial.

Higher Education in Albania Cambridge University Press

A major legal scholar presents an empowering reassessment of our nation's most essential document In this surprising and highly unconventional work, Harvard law professor Mark Tushnet poses a seemingly simple question that yields a thoroughly unexpected answer. The Constitution matters, he argues, not because it structures our government but because it structures our politics. He maintains that politicians and political parties--not Supreme Court decisions--are the true engines of constitutional change in our system. This message will empower all citizens who use direct political action to define and protect our rights and liberties as Americans. Unlike legal scholars who consider the Constitution only as a blueprint for American democracy, Tushnet focuses on the ways it serves as a framework for political debate. Each branch of government draws substantive inspiration and procedural structure from the Constitution but can effect change only when there is the political will to carry it out. Tushnet's political understanding of the Constitution therefore does not demand that citizens pore over the specifics of each Supreme Court decision in order to improve our nation. Instead, by providing key facts about Congress, the president, and the nature of the current constitutional regime, his book reveals not only why the Constitution matters to each of us but also, and perhaps more important, how it matters. *Legal Reasoning, Research, and Writing for International Graduate Students* Aspen Publishing Why are we sometimes unable to remember events, places and objects? This concise overview explores the concept of 'forgetting', and how modern society affects our ability to remember things. It takes ideas from Francis Yates classic work, The Art of Memory, which viewed memory as being dependent on stability, and argues that today's world is full of change, making 'forgetting' characteristic of contemporary society. We live our lives at great speed; cities have become so enormous that they are unmemorable; consumerism has become disconnected from the labour process; urban architecture has a short life-span; and social relationships are less clearly defined - all of which has eroded the foundations on which we build and share our memories. Providing a profound insight into the effects of modern society, this book is a must-read for anthropologists, sociologists, psychologists and philosophers, as well as anyone interested in social theory and the contemporary western world.
