MANN KEIRA

Software Configuration Management Artech House Publishers

Authored by an internationally known expert in configuration management (CM) solutions, this unique new book examines CM from a "business value" perspective. The book provides a thorough overview of CM technology and reveals "best practice" techniques for selecting and deploying

automated CM solutions. It also explores nine key challenges facing e-commerce and gives guidelines for avoiding common pitfalls that can quickly derail an e-business.

Electro-Technical Rating Addison-Wesley Longman

The aim of this model course is to meet the mandatory minimum standards of competence for seafarers as electro-technical ratings, in the following functions: electrical, electronic and control engineering; maintenance and repair; and controlling the operation of the ship and care for persons on board, at the support level specified in table A- III/7 of the STCW Code
