All along Yogiraj Siddhanath's yogic journey, as years passed by, he practiced and moved into techniques that were most natural to him. With the grace of Babaji he developed a dynamic process of healing oneself and others. He called it Otprot-Surya meaning, "osmotic solar healing" and evolved the system of Surya Yoga, the science of pranic-healing with solar power. Prana is described in the Indian yogic texts and treatises as "the breath of life" or "life force energy"; a subtle element or entity underlying the fabric of all of creation, animating sentient beings with consciousness and life. It is the vibratory power that sustains us throughout our cycles of reincarnation, imparting life to all the different bodies we incarnate in. It is our soul potential, expressed in the human being as one's individual vitality. Knowledge of this majestic undercurrent and the science of channeling its awesome power, for pranic-healing and advancement along the evolutionary path to enlightenment, is the most cherished undertaking, unlocking the inner mysteries of soul and Divinity. Prana is "life" and pranayama is the yogic extension or control of the living impulse animating every atom of our universe. Prana is conveyed to our planet from the light of the sun and congealed in material form. Thus, for our planetary system, the sun is the source of prana. Likewise, in the course of pranic-healing, prana may be most effectively availed of through the rays of our sun since the highest concentrations of prana are found in sunlight. Prana is the life of oxygen, however this life-force is something more subtle than oxygen. Just as photosynthesis occurs in plants, a bioluminescence occurs in our bodies through the focused absorption of sunlight whereby we inhale and ingest the salubrious rays of the sun through the medulla oblongata called "the Mouth of God," and the third eye of Shiva, thereby rejuvenating ourselves. Like a conductor of this spiritual and healing impulse, pranic-healing through solar power is the dynamic process of tuning one's body to absorb the life energy of

the sun. By its very nature, this evolutionary science deals with nature itself, delving into the roots of who we are and what we are made of, beginning with the source of energy from which life as we know it evolved, the sun. The life of every living creature on our planet is ultimately dependent on the sun. It is the primary source of nourishment, responsible for life itself. Similarly, it is our lineage to the divine source of knowledge via the cosmic entity of prana. This is the universal life force that awakens us and evolves us to our divine indweller. The technique of pranic-healing connects the solar heart of the individual and the giver of this life-energy for our planet, the sun. This is the spiritual absorption of pranic healing-light through the act of submerging oneself in the cosmic current that sustains the whole of creation. The body becomes sponge-like, tuned to facilitate the absorption of prana, as the total organism inhales and imbibes the healing light of the sun through the skin, lungs, and vital centers (chakras) of the subtle body. From the astral body, the entire network of subtle nerves (nadis) and physical nerves are fed with the luminosity of pranic light.

Autobiography of a Yogi is at once a beautifully written account of an exceptional life and a profound introduction to the ancient science of Yoga and its time-honored tradition of meditation. Profoundly inspiring, it is at the same time vastly entertaining, warmly humorous and filled with extraordinary personages. Self-Realization Fellowship's editions, and none others, include extensive material added by the author after the first edition was published, including a final chapter on the closing years of his life. Selected as "One of the 100 Best Spiritual Books of the Twentieth Century", *Autobiography of a Yogi* has been translated into more than 30 languages, and is regarded worldwide as a classic of religious literature. Several million copies have been sold, and it continues to appear on best-seller lists after more than sixty consecutive years in print. With engaging candor, eloquence, and wit, Paramahansa Yogananda tells the inspiring chronicle of his life: the experiences of his remarkable childhood, encounters with

many saints and sages during his youthful search throughout India for an illumined teacher, ten years of training in the hermitage of a revered yoga master, and the thirty years that he lived and taught in America. Also recorded here are his meetings with Mahatma Gandhi, Rabindranath Tagore, Luther Burbank, the Catholic stigmatist Therese Neumann, and other celebrated spiritual personalities of East and West. The author clearly explains the subtle but definite laws behind both the ordinary events of everyday life and the extraordinary events commonly termed miracles. His absorbing life story becomes the background for a penetrating and unforgettable look at the ultimate mysteries of human existence.--Amazon.com.

Action with awareness is both the vehicle and the destination in all phases of Babaji's Kriya Yoga. Through it we become aware of That which is aware; which is the one constant underlying all of our thoughts and experiences. Babaji's Kriya Yoga is a means of self-knowledge, of knowing our selves and the truth of our being. It brings action with awareness and a devotional spirit into our practice of asanas, pranayama, meditation, mantras and also into all our thoughts, words, dreams and desires and actions. This sadhana has enormous potential to make us more conscious human beings. It requires the willingness of the body, mind, heart and will, to align with the soul in aspiration of purification and perfection. This book provides detailed instructions, diagrams and photographs in the practice of a particular set of 18 Yoga asanas or postures, known as Babaji's Kriya Hatha Yoga. The essays and instructions herein enable the practitioner to go beyond the development and health of the physical body, and to transform the practice of yoga asana into a spiritual practice, inducing a higher state of consciousness. Unlike earlier publications related to Hatha Yoga, this volume will show you how to transform your Hatha Yoga practice into a means for Self-Realization. It introduces students to the Five-fold Path of Babaji's Kriya Yoga. This book is dedicated to Yoga students new to Kriya Yoga and also to Initiated students looking to deepen their own practice. *Why I Became a Hindu* St. Etienne de Bolton, Quebec : Babaji's Kriya Yoga Order of Acharyas, Incorporated

Mahavatar Kriya Babaji's Bhakti Sutras are filled with humility and unfathomable love for humankind. His words contain profound wisdom and unity, which all mankind has the potential to hear within. To many around the world Mahavatar is known as a Great, Omniscient, Immortal Presence in the Himalayas of India. Many planetary people have encountered Babaji in the sacred Himalayan Mountains and in visions, dreams, meditations and in etheric realms. In our present turbulent world, full of distractions, world-wide economic disturbances and increasing natural disasters, few actually perceive this voice of Babaji. When the voice is heard, rarely are those who hear it so attuned to the voice's vibration that they can express it into coherent words. Practically, the Bhakti Sutras may be a guide in attaining one's Higher Self and the Divine Love-Light all carry within. Babaji dictated his 108 Bhakti Sutras to his Disciple, Utpalavati. The Sutra style of writing is adopted widely in Indian spiritual writings. Each sutra is accompanied by a commentary called bhashya (written by Utpalavati) and sometimes with a subcommentary called vyakhyana (written by Jagadish).

A "Kriya Yogi's Kundalini Awakening in the Himalayas" offers readers a deep trek not only to the Himalayas but to an extraordinary woman's spiritual awakening. Her initial aspiration to learn mountaineering had turned into a spiritual quest to attain enlightenment. She began reading books on quantum physics and metaphysics, and found no answers, before eventually stumbling upon Autobiography of a Yogi, by Paramahansa Yogananda (1893-1952), where she learned that the path of Kriya Yoga had been given to humanity to realize our immortality through self-realization and the evolution of consciousness and got initiated into this science by Baba Paramahansa Hariharananda Giri, a direct disciple of Sri Yukteshwar and a peer to Yogananda. She experienced her final Awakening, where she became ONE with the Universe at the cave of Mahavatar Babaji that Yogananda cites in his book. She took the treacherous Siddhartha Road to Awakening that spanned over 25 years of her various spiritual practices

Does Sri Gorakshanath's shakti manifest through different human forms? Is this Lord Shiva's manifestation? Is Mahavatar Baba the manifestation of the collective divinity of Himalayan saints and siddhas? Did Ashwasthama of the Mahabharat manifest through Hairakhan Babaji? Has Hairakhan Baba taken birth in human form? Or entered the body of any yogi through shakti diksha or kaya pravesh? Has this divine personality taken different forms while remaining immersed in samadhi and maintaining a singular identity? What do the saints of the Himalayas have to say about this? What is the current thought and acceptance in yogic and philosophical terms? To answer these questions. I underlook an indefinable journey the journey of life. I visited innumerable sacred places, met many great saints and sages, both known and unknown. We can join the dots in retrospect, but looking ahead, the future remains unknown until we have realised that the future itself is in the past. This book has been written as a broad-based search. The writer, Romola Butalia, given the name of Sriji at the Kumbha in Ujjain, has made incalculable effort through varied and often difficult terrain, visiting many ancient sacred temples, teerth sthans or places of pilgrimage and tapasya sthals where tapasya or austerities have been performed. It is written from anubhuti or experience, with bhav or devotion and from the heart,

while still remaining an analytical study. 'Jaki rahin bhavna jaisi, Prabhu murat dekhi tin taisi' (According to our devotion will be our experience) Direct experience is not measurable and remains inexplicable. Even at a sacred place, all will not experience the same energy. It is directly connected to the individual's vibrations and his bhav. For one without purity of purpose it can, at best, be a pleasurable experience; a change from his usual state of mind, nothing more. The mind that moves will continue to move. It may be stilled momentarily, but the effects will not be lasting, the memory will be merely of the pleasant, it will not have a transformational impact.

This is the account of an American teenager who discovered a monastery in Tibet that was the inspiration for the legend of Shangri La. It might be categorized as a 'new age' or philosophy book, like the Celestine Prophecy, since it focuses on his spiritual training and their teachings in a novel-like format. Hard to believe, but interestingly, the sub-tropical region amongst the Himalayas that he describes finding, was later documented by explorers from National Geographic, then 'covered up' (there is still evidence of this). Also interesting is that the author was apparently mentioned in the Edgar Cayce readings (the famous American psychic whose books have sold millions of copies), as someone who would one day bring an important message to the world.

In this channelled sequel to the international bestseller *Anna, Grandmother of Jesus*, we journey with Anna, the Holy Family and 18 other Magdalene-Essenes as they travel to France and Britain after Jesus's crucifixion and resurrection. This book gives a completely new perspective on the gnostic Mount Carmel Essene mystery school, in which Jesus and Mary Magdalene took initiations, as well as on the Holy Family and the Magdalene Order. Through Claire Heartsong, Anna tells not only the story of Jesus, but also the story of the women who surrounded him throughout his life. The book reveals the deeper mysteries they have safeguarded for aeons of time, including aspects of Jesus's personal life not recorded in history – his relationships and, most radically, his offspring. In this one-of-a-kind story, Claire shares the information she received from Anna on the 'Seeding of Light' – the dispersion of Anna, Mother Mary and Jesus's enlightened descendants whose 'bloodline' acts as a living catalyst for the awakening of the Christ-Magdalene potential today. Not only does this book give a new view of the Christ drama 2,000 years ago but, more importantly, it offers the potential to lift the suppressed Divine Feminine voice in our time.

India is a civilisation of many images a culture of many visual feasts a tradition where the visible and the palpable are as important as the oral and the occurrent, where our highest truths are embodied in our kathas and gathas our songs and stories, where our temples are not only places of worship but equally a gallery of beautiful forms and figures where myth is as important as doctrine, where ancient memories are full of cherished narratives where mythic beings are real in many different ways and we enrich our lives by festivals which celebrate events from the lives of our mythic gods and goddesses and where knowledge is gained as much from itinerant performers as it is from learned discourses and where when the wind blows through the Pipal tree is as if we hear the hymns of the Vedas.

Millions are wondering what the future holds for mankind, and if we are soon due for a world-changing global shift. Paramhansa Yogananda (author of the classic *Autobiography of a Yogi*) and his teacher, Sri Yukteswar, offered key insights into this subject. They presented a fascinating explanation of the rising and falling eras that our planet cycles through every 24,000 years. According to their teachings, we have recently passed through the low ebb in that cycle and are moving to a higher age—an Energy Age that will revolutionize the world. Over one hundred years ago Yukteswar predicted that we would live in a time of extraordinary change, and that much that we believe to be fixed and true—our entire way of looking at the world — would be transformed and uplifted. In *The Yugas*, authors Joseph Selbie and David Steinmetz present substantial and intriguing evidence from the findings of historians and scientists that demonstrate the truth of Yukteswar's and Yogananda's revelations.
