Alas poor Yorick, he looks not at all well. I knew him, Horatio; a fellow of infinite jest, though sadly finite breath. Though thy gibes be still, yet still thou grins. I seldom saw thy teeth look quite so clean To celebrate the 400th anniversary of Shakespeare's death, this is the fourth of a new collection of the Bard's greatest plays, digested to a few thousand words with invaluable side notes from John Sutherland. Funny and incredibly clever, these parodies are a joy for those who know their Shakespeare, perfect for the theatre goer needing a quick recap, and a massive relief for those just desperate to pass their English exam.

Excerpt from Shakespeare's Tragedy of Macbeth: Edited, With Notes I have likewise omitted most of the Critical Comments from the introduction and elsewhere, as the books from which they were taken are now generally accessible in public and school libraries. For these extracts I have substituted comments of my own, in the course of which I have attempted to settle some questions that have been much discussed, but, to my thinking, never satisfactorily answered. I have endeavoured to show how Shakespeare himself answers them, instead of reading into the play what is not there, as some excellent critics seem to me to have done. Excerpt from Shakespeare's Macbeth The manner of preparation of this book needs a word of explanation. Dr. John Henry Boynton, of Syracuse University, was to have been the sole editor, but in May, 1898, he died very suddenly. The text, the notes and the glossary he left practically in the form in which they now are; of the introduction nothing appeared except a table of contents. Yet it is hoped that even from this incomplete product his promise as a scholar may be recognized. His work has been revised, and the introduction added by one of his friends and fellow-students - Dr. W. A. Neilson, of Bryn Mawr. To Dr. Neilson's generous activity the friends of Dr. Boynton owe grateful recognition. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. [Shakespeare's Macbeth for Use in Public and High Schools \(Classic Reprint\)](#) BoD - Books on Demand Excerpt from Shakespeare's Macbeth for Use in Public and High Schools Shakespeare himself took no pains to preserve his plays in permanent form. In all only fifteen of his plays were printed during his lifetime. In 1623, however, seven years after his death, a complete collection of his plays, thirty-six in all, were published in what is known as The Folio of 1623. Note - A folio page is about the size of an ordinary page of foolscap (about formed by folding the printer's sheet of paper once. When the printer's sheet is divided into four parts, the size of page is known as quarto; when divided into eight parts it is octavo when divided into twelve parts it is duodecimo. The plays which were printed during Shakespeare's lifetime were published in quarto volumes, as distinguished from the later folios. Literary ombudsman John Crace never met an important book he didn't like to deconstruct. From Salman Rushdie to John Grisham, Crace retells the big books in just 500 biting satirical words, pointing his pen at the clunky plots, stylistic tics and pretensions of Big Ideas, as he turns publishers' golden dream books into dross.

**Macbeth, a Tragedy**

The Shakespearean Originals Series takes as its point of departure the question: "What is it that we read Shakespeare?" The answer may seem self-evident: we read the words that Shakespeare wrote. But do we? In the case of all the major editions of Shakespeare available in the market, the fact of the matter is that many of the words that we read in an edition of, say, Hamlet, never appeared in

the text as it was printed during or shortly after Shakespeare's own lifetime. They are the interpretations and interpolations of a series of editors who have been systematically changing Shakespeare's text from the eighteenth century onwards. This volume offers the text of Macbeth, as printed in the 1623 First Folio.
