ARYANNA SELAH

Child's Book of Warriors Blake Education

A much-needed and delightful book. It shows how history can be taught with the meaningful experiences of each child at its centre, making connections between the child, the locality and community, the national and global past and concepts of time. Throughout the authors empower teachers to adopt their philosophy, by showing them how to plan, select resources and strategies and reflect on ideas and case studies. Hilary Cooper, Emeritus professor of history and pedagogy, The University of Cumbria, UK. Bringing History Alive through Local People and Places puts the local environment and community at the heart of history, showing how it can be used as the context for successful history teaching across the primary age range. It considers how to develop children's concepts and skills through local history, how to link local, national and global aspects of history, and helps you develop your own historical knowledge, understanding and confidence in teaching the subject. Practical topics explored include: Investigating children's cultural and geographical roots through fieldwork Finding and visiting local museums, archives and heritage sights Choosing and using resources Using significant people, events and buildings to link with national history Environmental education and sustainable development through local history Understanding the links between history and everyday life Planning and assessing history. Based on the latest research and practice in the field, Bringing History Alive through Local People and Places offers an exciting template of creative ideas and activities to show teachers how they can make history relevant to all children.

Narrative Inquiry in Early Childhood and Elementary School

Nelson Thornes

This bestselling resource has been fully updated, putting formative assessment at the heart of the Talk for Writing process and showing how to help children love writing across the curriculum. By helping children speak the language of non-fiction in a fun engaging way before they attempt to write, the Talk for Writing approach builds children's confidence and linguistic ability enabling them to craft their own writing. In the new edition, this practical resource offers: • Fully worked, tried and tested examples of how to apply Talk for Writing to each non-fiction text type • A wide range of fun activities helping children internalise how to express and link text effectively • A process that co-constructs learning so that children learn how to structure text and create toolkits of key ingredients • Guidance for teachers in

England on how to apply the approach across the primary curriculum • An OLC including new footage of Pie Corbett demonstrating Talk for Writing and new footage of classes engaged in the approach • Advice on how to use the DVD and handouts to train all staff in the approach • Evidence of impact from cold to hot tasks Designed for busy teachers, Talk for Writing across the Curriculum, second edition, will help transform children's writing and attainment across the curriculum. "This book celebrates the importance of talk in becoming and growing as a writer: talk to share ideas; talk to analyse text; talk to co-construct writing; and to talk to evaluate writing. Throughout the book constantly underlines the importance of talk for learning and the many creative and rich ways talk can be used to help young writers internalise the rhythms and patterns of text. Full of practical ideas and activities, the teaching combines being creative and being critical in a wholly integrated way. An invaluable resource for primary school teachers!" Debra Myhill, Professor of Education at the University of Exeter, UK "The teaching of reading has always taken priority in policy and practice in literacy. Pie Corbett and Julia Strong have produced a very welcome counterweight to that dominance in their Talk for Writing Across the Curriculum. It is so refreshing to see suggestions for teaching to bring elements of language together, especially when done in such an entertaining and engaging way as this. This new edition makes a 'classic' even better." David Wray, Emeritus Professor, University of Warwick, UK "This latest update of Pie and Julia's best-selling book reflects changes in the curriculum, strengthening the T4W approach, using cold and hot tasks, showing new worked examples of how to apply T4W to each non-fiction type and placing formative assessment at the heart of the process. It is exciting to see how all the best ideas and findings in education are converging, evidenced in this latest 'up to the minute' excellent publication." Shirley Clarke, Formative Assessment Expert

Maisie's Dragon Routledge

"The Routledge History of Literature in English covers the main developments in the history of British and Irish literature from AD 600 to the present day. Accompanying language notes explore the interrelationships between language and literature, emphasising the growth of literary writing, its traditions, conventions and changing characteristics. Extensive quotations from poetry, prose and drama underpin the narrative. With a new chapter on novels, drama and poetry in the 21st century and an extensive companion website, The Routledge History of Literature in English will be an invaluable reference for any student of English literature and language."--

Bringing History Alive through Local People and Places

John Wiley & Sons

The Teachers Book is an invaluable resource providing planning

grids for each book which integrate reading and writing teaching strategies, ICT related tasks, homework activities and class follow-up activities. The planning guides offer suggestions for before, during and after reading.

Young Researchers Routledge

Writing History 7-11 supports students and primary teachers helping them to explore ways in which activities involving the talk that underpins historical enquiry can be developed into reading and exciting, extended, reflective writing. The step that teachers and pupils take from 'talk for learning' to 'talk for writing' is a vital one. In this book the authors argue that all aspects of historical enquiry leading to writing involve discussion and dialogue which permeate every aspect of 'doing history'. From this perspective they set out a theoretical framework for understanding the role of talk and reading in developing pupils' critical thinking and confident reflective writing, then demonstrate through a series of case studies, in which teachers, university lecturers and pupils work together, how the theory is put into practice in the classroom. Themes include: How to support children in writing in a variety of interesting genres How to make links between the National Curriculum (2013) for History and for English How to plan for breadth and depth studies in the new National Curriculum How activities in History 5 - 11 can be developed into exciting extended writing The second half of the book draws upon case studies from a number of real primary classrooms with children of different ages. Each case study shows how teaching was planned to develop children's confidence and enjoyment in discussion and to scaffold reasoned, written explanation and argument. Topics presented are all relevant to the new curriculum framework and include talking and reading about: Time, change and significance over 6000 years - writing a television script Celtic Britain and the Roman Army - writing a travel brochure about Celtic Britain The destruction of Roman towns - writing a Saxon poem An archaeological investigation of a body in a Danish peat bog - writing a newspaper report Did any countries benefit from WW1? - writing an argued viewpoint The expansion westwards of European settlers - writing a flap book exploring different perspectives. This indispensable book provides not only sources for pupils to use in their writing, but also models and exemplars of different styles and voices to draw upon.

Children, Childhood and Youth in the British World Learning Matters

Handsomely illustrated with more than 100 striking, sometimes shocking, archival images gathered from around the world, The World's Bloodiest History combines compelling depictions of momentous events with fascinating character portraits and arresting eyewitness accounts to create an absorbing, multifaceted chronicle of a sobering, all-too-human legacy. *Idea of a New General History of North America* Nelson Thornes

An important analysis of the language of time, cause and evaluation in historical texts studied by students at secondary school, looking at the implications for making meaning in historical writing.>

Grammarsaurus Key Stage 2 Engaging Students in Academic Literacies

Age was a critical factor in shaping imperial experience, yet it has not received any sustained scholarly attention. This pioneering interdisciplinary collection is the first to investigate the lives of children and young people and the construction of modes of childhood and youth within the British world.

The Pueblo Revolt Routledge

A Brief History of Modern Psychology offers a concise account of the evolution of this dynamic field—from early pioneers of psychological theory to cutting-edge contemporary applications. In this revised third edition, leading scholar Ludy Benjamin surveys the significant figures, concepts, and schools of thought that have shaped modern psychology. Engaging and accessible narrative provides readers historical and disciplinary context to modern psychology and encourages further investigation of the topics and individuals presented. This book provides a solid foundational knowledge of psychology's past, covering essential areas including prescientific psychology, physiology and psychophysics, early schools of German and American psychology, and the origins of applied psychology, behaviorism, and psychoanalysis. Exploration of 20th century and contemporary developments, including the emergence of clinical and cognitive psychology, ensures a complete overview of the field. The author integrates biographical information on widely recognized innovators such as Carl Jung, Wilhelm Wundt, and B.F. Skinner with lesser known figures including E.B. Titchener, Mary Calkins, and Leta Stetter Hollingworth. This personalistic approach to history allows readers to understand the theories, research, and practices of the individuals who laid the foundation to modern psychology.

The supporting Teacher Resource Books offer practical advice on organising and using the course and provide a comprehensive range of further teaching ideas that cover all links with the NLS.

Early Years Non-fiction Routledge

As top-down educational reform policies at local and national levels increasingly isolate teachers from their own professional and instructional agency, and stultify children's passion for learning, new techniques are needed for understanding and transforming educational practices. Narrative Inquiry in Early Childhood and Elementary School: Learning to Teach, Teaching Well facilitates meaningful change in early years education by providing early childhood and elementary school teachers with methods to incorporate narrative into their instruction and inquiry. This book offers practical strategies for incorporating narrative tools and structures into the classroom, and encouraging effective conceptual, pedagogical, and personal avenues for engaged teaching and learning across languages and cultures. The book's chapters promote a lively discussion of central tenets of narrative inquiry and illustrative examples of teachers at work with narrative and inquiry for improving their practice and children's learning.

Bulletin of the Center for Children's Books Taylor & Francis This is an engaging biographical detective story delving into a dark and mysterious family secret...who was Louis T Stanley? Now

a hundred years later the story of one of the greatest cover-ups in British political history is revealed by Louis T Stanley's step-daughter. Louis T Stanley was the illegitimate son of the serving Prime Minister of Great Britain, H.H. Asquith, and his mother was a young aristocrat's daughter, Venetia Stanley. The Stanley and Asquith families had always been close. Venetia's father, the 4th Lord Sheffield, Lyulph Stanley, and H.H. Asquith had studied together. Asquith then married Helen with whom he had five children, but following Helen's premature death he married the eccentric and prickly Margot who provided him with two more children. Later Lyulph Stanley and HH Asquith became involved in Liberal politics and their children became the best of friends. Asquith's eldest daughter Violet became inseparable friends with Venetia Stanley and accompanied her to Downing Street and visits to the House of Commons etc. H.H Asquith and Venetia began to build up a close relationship. The closeness of the couple was rarely questioned at the time; the sixty-five year old Prime Minister had seven children and the aristocratic girl, by now in her early twenties, hid under the cover of her friendship with Violet. Based on extensive research and the piecing together of childhood memories and historical events Bobbie Neate recounts the secret life of her Grandfather and the extreme measures that were taken to keep it a secret for so long. With connections to many high profile aristocratic families of the era, including the Mitfords, this book will appeal to those fascinated by the hierarchy of the period as well as those enthralled by the romance of forbidden love. With evidence to support her claims this book will cause immense debate in academic circles.

Wellington Square R.I.C. Publications

With chapter sequencing following the new Curriculum, this book supports you to make use of the opportunities presented in the National Curriculum for effective and engaging Primary English teaching. Covering all areas of the new National Curriculum for primary English and offering insight into effective teaching, it helps you connect what you need to teach, to how it can be taught. It opens up the opportunities in the new curriculum for creative and imaginative teaching and covers all areas of children's literacy from poetry and literature to SPAG. Throughout the text, case studies of teaching are used as a starting point for learning and guidance on practical teaching strategies is included in all chapters. A comprehensive guide to the teaching of primary English that will help you secure your subject knowledge and transform your teaching. Includes the full National Curriculum Programme of Study for English, key stages 1 and 2 as a useful reference for trainee teachers. Other books in this series include: Primary Science for Trainee Teachers and Primary Mathematics for Trainee Teachers

Targeting Text Routledge

The Bible has played a critical role in the story of Judaism, modernity, and identity. Penny Schine Gold examines the arena of children's education and the role of the Bible in the reshaping of Jewish identity, especially in the United States in the 1920s and 1930s, when a second generation of Eastern European Jews engaged the task of Americanizing Jewish culture, religion, and institutions. Professional Jewish educators based in the Reform movement undertook a multifaceted agenda for the Bible in America: to modernize it, harmonize it with American values, and move it to the center of the religious school curriculum. Through public schooling, the children of Jewish immigrants brought America home; it was up to the adults to fashion a Judaism that their children could take back out into America. Because of its historic role in the development of Judaism and its cultural significance in American life, Gold finds, the Bible provided Jews with vital links to both the past and the present. The ancient

sacred text of the Bible, transformed into highly abridged and amended "Bible tales," was brought into service as a bridge between tradition and modernity. Gold analyzes these American developments with reference to the intellectual history of eighteenth- and nineteenth-century Europe, innovations in public schooling and social theory, Protestant religious education, and later versions of children's Bibles in the United States and Israel. She shows that these seemingly simple children's books are complex markers of the pressing concerns of Jews in the modern world.

Focus on Writing Composition A&C Black

Childhood is not only a biological age, it is also a social construct. The essays in this collection range chronologically from the fifteenth to the eighteenth century, and geographically across England, France, Germany, Italy and Spain. They chart the depictions of children in various media including painting, sculpture and the graphic arts.

The Routledge International Handbook of Child and Adolescent Grief in Contemporary Contexts A&C Black

This book is the first comprehensive history of the development of child study during the early part of the twentieth century. Most nineteenth-century scientists deemed children unsuitable subjects for study, and parents were hostile to the idea. But by 1935, the study of the child was a thriving scientific and professional field. Here, Alice Boardman Smuts shows how interrelated movements—social and scientific—combined to transform the study of the child. Drawing on nationwide archives and extensive interviews with child study pioneers, Smuts recounts the role of social reformers, philanthropists, and progressive scientists who established new institutions with new ways of studying children. Part history of science and part social history, this book describes a fascinating era when the normal child was studied for the first time, a child guidance movement emerged, and the newly created federal Children's Bureau conducted pathbreaking sociological studies of children.

The World's Bloodiest History Springer

Poliomyelitis, better known as polio, thoroughly stumped the medical science community. Polio's impact remained highly visible and sometimes lingered, exacting a priceless physical toll on its young victims and their families as well as transforming their social worlds. This social history of infantile paralysis is plugged into the rich and dynamic developments of the United States during the first half of the twentieth century. Children became epidemic refugees because of anachronistic public health policies and practices. They entered the emerging, clinical world of the hospital, rupturing physical and emotional connections with their parents and siblings. As they underwent rehabilitation, they created ward cultures. They returned home to occasionally find hostile environments and always discover changed relationships due to their disabilities. The changing concept of the child, from an economic asset to an emotional commitment, medical advances, and improved sanitation policies led to significant improvements in child health and welfare. This study, relying on published autobiographies, memoirs, and oral histories, captures the impact of this disease on children's personal lives, encompassing public-health policies, hospitalization, philanthropic and organizational responses, physical therapy, family life, and schooling. It captures the anger, frustration, and terror not only among children but parents, neighbors, and medical professionals alike.
