In this timely book, authors Matthew and Terces Engelhart present the idea that love before appearances is the antidote to our spiritual, environmental, and social degradation. Exploring topics such as mission statements, manager as coach, human resources as a sacred culture, and inspirational meetings, they offer a manual for building a spiritual community at the workplace—a vital concept in an age when work consumes the bulk of most adults' time. Business, the authors explain, is all about providing a service, product, or experience the market wants, and no business can succeed by failing to understand this point. However, integrating the concept of "Sacred Commerce" into business can provide both financial success and spiritual satisfaction. Stressing that every business is an opportunity to make a lasting impact on the lives of both clients and employees, the Engelharts share the tools they've learned in their own enterprises to fulfill this vision. Sacred Commerce is the ideal mix of the personal and the practical—a guidebook written by people who have felt success, not just spent it. Dissatisfaction with work is at record levels, and the Engelharts show that you don't have to suffer personally—or give up your humanity—to pay the mortgage.

Understanding Gregory Bateson Ashgate Publishing, Ltd.

Sacred Commerce is a groundbreaking book which explores the past and the future of commerce. It tells of the Merchant Priests of ancient Egypt who practiced it and the skill of emotional alchemy they mastered in their pursuit of beauty goodness and truth. This book completes Ayman's work on the map of Emotional Intelligence and its four cornerstone model as explored in his international best seller "Executive EQ: Emotional Intelligence in Leadership and Organizations", co-authored with Dr. Robert Cooper.

This book adopts an international perspective to examine how the online sale of insurance challenges the insurance regulation and the insurance contract, with a focus on insurance sales, consumer protection, cyber risks and privacy, as well as dispute resolution. Today insurers, policyholders, intermediaries and regulators interact in an increasingly online world with profound implications for what has up to now been a traditionally operating industry. While the growing threats to consumer and business data from cyber attacks constitute major sources of risk for insurers, at the same time cyber insurance has become the fastest growing commercial insurance product in many jurisdictions. Scholars and practitioners from Europe, the United States and Asia review these topics from the viewpoints of insurers, policyholders and insurance intermediaries. In some cases, existing

insurance regulations appear readily adaptable to the online world, such as prohibitions on deceptive marketing of insurance products and unfair commercial practices, which can be applied to advertising through social media, such as Facebook and Twitter, as well as to traditional written material. In other areas, current regulatory and business practices are proving to be inadequate to the task and new ones are emerging. For example, the insurance industry and insurance supervisors are exploring how to review, utilize, profit from and regulate the explosive growth of data mining and predictive analytics ("big data"), which threaten long-standing privacy protection and insurance risk classification laws. This book's ambitious international scope matches its topics. The online insurance market is cross-territorial and cross-jurisdictional with insurers often operating internationally and as part of larger financial-services holding companies. The authors' exploration of these issues from the vantage points of some of the world's largest insurance markets - the U.S., Europe and Japan - provides a comparative framework, which is necessary for the understanding of online insurance.

Religion has featured in Anglophone literature in Malaysia from colonial times to the present. In *Intimating the Sacred*, Andrew Hock Soon Ng considers the practice of everyday religiosity as represented in literature, which is often starkly opposed to the impression created by religious rhetoric promoted by the government. The book's examination of intersections between (post)modernity and religion highlights links between religion and other facets of colonial and postcolonial identity such as class, gender and sexuality. It will appeal not only to scholars and specialists, but also to anyone who enjoys modern Southeast Asian literature. Andrew Hock Soon Ng is senior lecturer in literary studies at Monash University, Sunway Campus, Malaysia. He is the author of *Dimensions of Monstrosity in Contemporary Narratives and Interrogating Interstices*. "In *Intimating the Sacred*, Andrew Hock Soon Ng confirms his status as one of the most important new voices in Malaysian literary studies, moving beyond national and postcolonial frameworks to a more subtle plotting of the psychic contours of Malaysian modernity." - Philip Holden, National University of Singapore "In Malaysia, the relationships between various religions, the state ideology and the multicultural composition of the populace are fraught with tension. Ng's book, with critical insights derived from a balanced treatment of texts and theory, deals with these issues in a robust and uncompromising manner. This is a welcome contribution to Southeast Asian literary studies." - Eddie Tay, author of *Colony, Nation, and Globalisation* "This refreshing approach to Malaysian canonical texts combines diverse literary theories and religion. Courageous and convincing, it engages post colonialism, feminism, and theories of religion with a sophisticated focus on texts." - Gaik Cheng Khoo, Australian National University

Winner of the Booker Prize A historical novel set in the eighteenth century, *Sacred Hunger* is a stunning, engrossing exploration of power, domination, and greed in the British Empire as it entered fully into the slave trade and spread it throughout its colonies. Barry Unsworth follows the failing fortunes of William Kemp, a merchant pinning his last chance to a slave ship; his son who needs a fortune because he is in love with an upper-class woman; and his nephew who sails on the ship as its doctor because he has lost all he has loved. The voyage meets its demise when disease spreads among the slaves and the captain's drastic response provokes a mutiny. Joining together, the sailors and the slaves set up a secret, utopian society in the wilderness of Florida, only to await the vengeance of the single-minded, young Kemp.

Business as Mission (BAM) is the operation of a for-profit business located in a cross-cultural setting and aimed toward the fulfillment of the great commission. This definition reveals four key success factors for BAM: support, financial and otherwise, for both the business and the missionaries; the ability to gain access to cross-cultural settings; the opportunity to advance the gospel; and the requirement of managing both missional and business goals. Examining each of these areas, along with the historical effectiveness of BAM, reveals that BAM is an efficient and effective missional strategy, which should be used to see the Great Commission fulfilled by current generations.

Soul to Sisterhood Capstone

Literary depictions of the sacred and the secular from the Middle Ages are representative of the era's widely held cultural understandings related to religion and the nature of lived experience. Using late Medieval English literature, including some of Chaucer's writings, these essays do not try to define a secular realm distinct and separate from the divine or religious, but instead analyze intersections of the sacred and the profane, suggesting that these two categories are mutually constitutive rather than antithetical. With essays by former students of John V. Fleming, the collection pays tribute to the Princeton University professor emeritus through wide-ranging scholarship and literary criticism. Including reflections on depictions of Bathsheba, Troilus and Criseyde, the Legend of Good Women, Chaucer's Pardoner, and Margery Kempe, these essays focus on literature while ranging into history, philosophy, and the visual arts. Taken together, the work suggests that the domain of the sacred, as perceived in the Middle Ages, can variously be seen as having a hierarchical or a complementary relationship to the things of this world.

Gregory Bateson (1904-1980), anthropologist, psychologist, systems thinker, student of animal communication, and insightful environmentalist, was one of the most important holistic thinkers of the twentieth century. Noel G. Charlton offers this first truly accessible introduction to Bateson's work, distilling and clarifying Bateson's understanding of the "mind" or "mental systems" as being present throughout the living Earth, in systems and creatures of all kinds. Part biography, part overview of the evolution of his ideas, Charlton's book situates Bateson's thought in relation to that of other ecological thinkers. This long-awaited volume opens up this challenging thinker's body of work and introduces it to a new generation of readers.

Of Japan's two great religious traditions, Shinto is far less known and understood in the West. Although there are a number of books that explain the religion and its philosophy, this work is the first in English to focus on sites where Shinto has been practiced since the dawn of Japanese history. In an extensive introductory section, authors Joseph Cali and John Dougill delve into the fascinating aspects of Shinto, clarifying its relationship with Buddhism as well as its customs, symbolism, and pilgrimage routes. This is followed by a fully illustrated guide to 57 major Shinto shrines throughout Japan, many of which have been designated World Heritage Sites or National Treasures. In each comprehensive entry, the authors highlight important spiritual and physical features of the individual shrines (architecture, design, and art), associated festivals, and enshrined gods. They note the prayers offered and, for travelers, the best times to visit. With over 125 color photographs and 50 detailed illustrations of archetypal Shinto objects and shrines, this volume will enthrall not only those interested in religion but also armchair travelers and visitors to Japan alike. Whether you are planning to visit the actual sites or take a virtual journey, this guide is the perfect companion. Throw Out The Old Rule Book! Replace it with Something... Ancient! Sacred Business offers a way out of confusion - confusion of decisions and priorities (what should I do next?) and of purpose (why am I doing all this stuff anyway?). Amidst constant change, we want to live productive, balanced, minimum-stress lives. We want to understand and be understood. Sacred Business finds the solution in ancient wisdom. We need a process of remembering rather than invention. The same is true of organizations. How can we do more with less? How can we create shared purpose and build communal spirit? Sacred Business shows that organizations too can change and grow by understanding and using wisdom from our past. The traditional teachings which underpin all cultures and societies but which have hitherto been ignored by business are in fact highly relevant and practical and already finding their way into the world's most enlightened companies. Now is your chance to join them.

This book examines key issues in international digital marketing in China from a theoretical and empirical perspective. Divided into two main parts, it begins with an analysis of China's cultural characteristics and business environment, with a particular emphasis on the Chinese digital context. The book goes on to present original empirical studies and an investigation into recent challenges and opportunities for international firms in the fashion sector. With nearly 900 million internet users and an e-commerce market volume of over one thousand billion US dollars, China is the world's largest digital market. While this creates significant opportunities for international firms, there are many factors to consider when approaching this market. In order to understand the Chinese digital scenario, the book analyzes the characteristics of local internet platforms and consumer patterns. The book also presents a real-world case study on a luxury retail firm operating in China, Florentia Village, and the results from a questionnaire on Chinese mobile shoppers. On this basis, it provides a conceptual framework and discusses the theoretical and managerial implications for international firms operating in China, making it an enlightening book for scholars, students, and practitioners alike.

Analysing both fraud and religion as social constructs with different functions and meanings attributed to them, this book raises issues that are central to debates about the limits of religious toleration in diverse societies, and the possible harm that religious organisations can inflict upon society and individuals. With a focus on minority religions, the book offers a comparative overview of the concept of religious fraud by bringing together analyses of different types of fraud or deception.

Throughout the nineteenth and early twentieth centuries, as Americans increasingly came into contact with the Islamic world, U.S. diplomatic, cultural, political, and religious beliefs about Islam began to shape their responses to world events. In *Sacred Interests*, Karine V. Walther excavates the deep history of American Islamophobia, showing how negative perceptions of Islam and Muslims shaped U.S. foreign relations from the Early Republic to the end of World War I. Beginning with the Greek War of Independence in 1821, Walther illuminates reactions to and involvement in the breakup of the Ottoman Empire, the efforts to protect Jews from Muslim authorities in Morocco, American colonial policies in the Philippines, and American attempts to aid Christians during the Armenian Genocide. Walther examines the American role in the peace negotiations after World War I, support for the Balfour Declaration, and the establishment of the mandate system in the Middle East. The result is a vital exploration of the crucial role the United States played in the Islamic world during the long nineteenth century--an interaction that shaped a historical legacy that remains with us today.

Infused with visionary power, Sacred America, Sacred World is a manifesto for our country's evolution that is both political and deeply spiritual. It offers profound hope that America can grow beyond our current challenges and manifest our noblest destiny, which the book shows is rooted in sacred principles that transcend left or right political views. Filled with practical ideas and innovative strategies honed from the author's work with over 1000 luminaries via his company, The Shift Network, Sacred America, Sacred World rings with a can-do entrepreneurial spirit and explains how America can lead the world toward peace, sustainability, health, and prosperity. This vision of the future weaves the best of today's emergent spirituality with seasoned political wisdom, demonstrating ways America can grow beyond its current stagnation and political gridlock to become a world leader in peace and progress. Published to coincide with the party conventions and presidential debates, this book will promote a return to the sacred principles cherished by America's forefathers in order to create a "transpartisan," non-ideological, pragmatic approach to social reform. This uplifting discussion explores evolutions in political leadership, environmental concerns, and economic reformation. It is time to forge a bold new image of America's future. Here is a road map for getting there.
