The Analogical Phonetic-syllabic Dictionary Cambridge University Press

Advancing Music Education in Northern Europe tells the story of a unique organization that has contributed in profound ways to the professional development of music teachers in the Nordic and Baltic nations. At the same time, the book offers reflections on how music education and approaches to the training of music teachers have changed across recent decades, a period of significant innovations. In a time where international partnerships appear to be threatened by a recent resurgence in protectionism and nationalism, this book also more generally demonstrates the value of formalized international cooperation in the sphere of higher education. The setting for the discussion, Northern Europe, is a region arguably of great importance to music education for a number of reasons, seen, for instance, in Norway's ranking as the "happiest nation on earth", the well-known success of Finland's schools in international-comparative measures of student achievement, how Sweden has grappled with its recent experience as "Europe's top recipient of asylum seekers per capita", and Estonia's national identity as a country born from a "Singing Revolution", to name but a few examples. The contributors chronicle how the Nordic Network for Music Education (NNME) was founded and developed, document its impact, and demonstrate how the eight nations involved in this network - Norway, Iceland, Denmark, Sweden, Finland, Estonia, Latvia, and Lithuania - are making unique contributions of global significance to the field of music education.

The Life of Music Springer

"Choral Repertoire is the definitive and comprehensive one-volume presentation of the most significant composers and

compositions of choral music from the Western Hemisphere throughout recorded history. The book is designed for multiple uses-as a programming guide for practicing conductors, instructional resource for students and teachers of choral music, historic and stylistic reference for choral singers, and source of information about composers and compositions for choral enthusiasts-and as such, the book intends to further and make accessible important information relevant to the vast scope of choral music. Organized by era (Medieval, Renaissance, Baroque, Classical, and Modern), *Choral Repertoire* covers general characteristics of each historical era, trends and styles unique to various countries, biographical sketches of more than six hundred composers, and performance annotations of more than five thousand individual works. Of the composers, there is substantive coverage of women and composers of color, and of the repertoire, there is inclusion of lesser-known works as well as those works that are considered standard"--

Rock County, Minnesota, was just one of thousands of communities across the nation seeing World War II from a great distance and feeling it firsthand. Day after day the Rock County Star-Herald featured harrowing headlines about the action and the poignant smiling faces of local boys missing or killed overseas. Through the best and worst of those days Al McIntosh, the paper's editor, wrote a weekly column, "More or Less Personal Chaff," that his readers and neighbors came to depend on for comfort, direction, information, and insight--Publisher.

The Invention of Tradition Oxford University Press

Nicholas Kenyon explores the enduring appeal of the classical canon at a moment when we can access all music—across time and cultures Immersed in music for much of his life as writer, broadcaster and concert presenter, former director of the BBC Proms, Nicholas Kenyon has long championed an astonishingly wide range of composers and performers. Now, as we think about culture in fresh ways, Kenyon revisits the stories that make up the classical tradition and foregrounds those which are too often overlooked. This inclusive, knowledgeable, and enthusiastic guide highlights the achievements of the women and men, amateurs

and professionals, who bring music to life. Taking us from pianist Myra Hess's performance in London during the Blitz, to John Adams's composition of a piece for mourners after New York's 9/11 attacks, to Italian opera singers singing from their balconies amidst the 2020 pandemic, Kenyon shows that no matter how great the crisis, music has the power to bring us together. His personal, celebratory account transforms our understanding of how classical music is made—and shows us why it is more relevant than ever.

'Jeremy Dibble has written a book which adds substantially to Stanford's reputation and which greatly enriches both British and Irish musical scholarship. It is brilliantly done.' -Irish Times
Jeremy Dibble presents the first authoritative, comprehensive study of the life and works of Charles Villiers Stanford (1852-1924), one of the most gifted and influential composers. Dibble reveals how, although perhaps best known for his church music, Stanford was also an eminent symphonist, songwriter, and author of many fine choral works. Cosmopolitan, ambitious, and pragmatic, he was untiring in his efforts to advance the cause of British music during its renaissance at the end of the nineteenth century, promoting the music of his contemporaries, and the many pupils he taught at Cambridge and the Royal College of Music, including Vaughan

Williams, Ireland, Howells, Bliss, Holst, and Gurney.

The Seal Lullaby by Eric Whitacre is a delightful, deceptively simple setting in the form of a lullaby for mixed choir and accompaniment of Rudyard Kipling's poem 'The White Seal'. This full SATB (Soprano, Alto, Tenor, Bass) choral arrangement with Piano accompaniment is accurately transcribed and appears in great quality print, with easy part writing throughout, so that singing this emotive song is as easy as possible. When Eric Whitacre was commissioned to write music for an animated feature, he was so struck by the words of Kipling's lovely poem that he immediately sat down to write a calm and subtle yet musically interesting piece. Unfortunately, the song was not used, but was later commissioned by the Towne Singers, and we are pleased to offer you this Seal Lullaby sheet music.

Mémoires de la Section des lettres Library of Alexandria
The period between the end of World War I and Hitler's ascension to power witnessed an unprecedented cultural explosion that embraced the whole of Europe but was, above all, centered in Germany. Germany housed architect Walter Gropius and the Bauhaus movement; playwrights Bertolt Brecht and Erwin

Piscator; artists Hans Richter, George Grosz, John Heartfield, and Hannah Hoch; composers Paul Hindemith, Arnold Schonberg, and Kurt Weill; and dozens of others. In Art and Politics in the Weimar Period, John Willett provides a brilliant explanation of the aesthetic and political currents which made Germany the focal point of a new, down-to-earth, socially committed cultural movement that drew a significant measure of inspiration from revolutionary Russia, left-wing social thought, American technology, and the devastating experience of war.
