The history of liturgical celebration seen through the annual change of seasons and the Church's liturgical calendar.

*Holy Rulers and Blessed Princesses* Oxford University Press

For the first time a noted historian of Christianity explores the full story of the emergence and development of the Marian cult in the early Christian centuries. The means by which Mary, mother of Jesus, came to prominence have long remained strangely overlooked despite, or perhaps because of, her centrality in Christian devotion. Gathering together fresh information from often neglected sources, including early liturgical texts and Dormition and Assumption apocrypha, Stephen Shoemaker reveals that Marian devotion played a far more vital role in the development of early Christian belief and practice than has been previously recognized, finding evidence that dates back to the latter half of the second century. Through extensive research, the author is able to provide a fascinating background to the hitherto inexplicable "explosion" of Marian devotion that historians and theologians have pondered for decades, offering a wide-ranging study that challenges many conventional beliefs surrounding the subject of Mary, Mother of God.

What were Jews saying and doing about the followers of Jesus in the first two centuries? In this provocative and comprehensive study, Claudia Setzer argues persuasively that Jews saw the early followers of Jesus as Jews for some time after the Christians viewed themselves as separate from the larger Jewish communities. This book provides historical context and nuanced exegesis of texts that continue to be "trouble spots" in Jewish-Christian relations. It illuminates the diverse strands of early anti-Judaism while providing the reader with some surprises.

The cult of saints is one of the most fascinating manifestations of medieval piety. It was intensely physical; saints were believed to be present in the bodily remains that they had left on earth.

Medieval shrines were created in order to protect these relics and yet to show off their spiritual worth, at the same time allowing pilgrims limited access to them. English Medieval Shrines traces the development of such structures, from the earliest cult activities at saintly tombs in the late Roman empire, through Merovingian Gaul and the Carolingian Empire, via Anglo-Saxon England, to the great shrines of the fourteenth and fifteenth centuries. The greater part of the book is a definitive exploration, on a basis that is at once thematic and chronological, of the major saints cults of medieval England, from the Norman Conquest to the Reformation. These include the famous cults of St Cuthbert, St Swithun, and St Thomas Becket - and lesser known figures such as St Eanswyth of

Folkestone or St Ecgwine of Evesham. John Crook, an independent architectural historian, archaeological consultant, and photographer, is the foremost authority on English shrines. He has published numerous books and papers on the cult of saints.

In *Making Martyrs East and West*, Cathy Caridi examines how the practice of canonization developed in the West and in Russia, focusing on procedural elements that became established requirements for someone to be recognized as a saint and a martyr. Caridi investigates whether the components of the canonization process now regarded as necessary by the Catholic Church are fundamentally equivalent to those of the Russian Orthodox Church and vice versa, while exploring the possibility that the churches use the same terminology and processes but in fundamentally different ways that preclude the acceptance of one church's saints by the other. *Making Martyrs East and West* will appeal to scholars of religion and church history, as well as ecumenicists, liturgists, canonists, and those interested in East-West ecumenical efforts.

In premodern Moroccan Sufism, sainthood involved not only a closeness to the Divine presence (walaya) but also the exercise of worldly authority (wilaya). The Moroccan Jazuliyya Sufi order used the doctrine that the saint was a "substitute of the prophets" and personification of a universal "Muhammadan Reality" to justify nearly one hundred years of Sufi involvement in Moroccan political life, which led to the creation of the sharifian state. This book presents a systematic history of Moroccan Sufism through the fifteenth and sixteenth centuries C.E. and a comprehensive study of Moroccan Sufi doctrine, focusing on the concept of sainthood. Vincent J. Cornell engages in a sociohistorical analysis of Sufi institutions, a critical examination of hagiography as a source for history, a study of the Sufi model of sainthood in relation to social and political life, and a sociological analysis of more than three hundred biographies of saints. He concludes by identifying eight indigenous ideal types of saint that are linked to specific forms of authority. Taken together, they define sainthood as a socioreligious institution in Morocco.

In this volume, the persistence, resurgence, threat, fascination, and repression of various forms of pagan culture are studied in an interdisciplinary perspective from late antiquity to the upcoming Renaissance. The contributions deal with the survival of pagan beliefs and practices as well as with the Christianization of pagan rural populations and with the different strategies of oppression of pagan beliefs. They deal with the problems raised by the encounter with pagan cultures outside the Muslim world and examine how philosophers attempted to "save" the great philosophers and poets from ancient culture notwithstanding their paganism. The contributors also study the fascination of classic "pagan" culture among friars in the fourteenth and fifteenth centuries and the imitation of pagan models of virtue and mythology in Renaissance poetry. To obtain sacred relics, medieval monks plundered tombs, avaricious merchants raided churches, and relic-mongers scoured the Roman catacombs. In a revised edition of *Furta Sacra*, Patrick Geary considers the social and cultural context for these acts, asking how the relics were perceived and why the thefts met with the approval of medieval Christians.

Rome stands today for an empire and for a city. The essays gathered in this volume explore some of the many ways in which the two were interwoven. Rome was fed, beautified and enriched by empire just as it was swollen, polluted, infected and occupied by it. Empire was paraded in the streets of Rome, and exhibited in the city's buildings. Empire also made the city ineradicably foreign, polyglot, an alien capital, and a focus for un-Roman activities. The city was where the Roman cosmos was most concentrated, and so was most contested. Deploying a range of methodologies on materials ranging from Egyptian obelisks to human skeletal remains, via Christian art and Latin poetry, the contributors to this volume weave a series of pathways through the world-city, exploring the different kinds of centrality Rome had in the empire. The result is a startlingly original picture of both empire and city.

Martyrs have long played a vital role in Christian life, thought, theology, and piety. Robert Kolb, an acknowledged authority on the history of the Lutheran Reformation in Germany, offers a thorough and illuminating analysis of the way German Lutherans changed the perceptions of martyrdom and sainthood. Protestant reformers professed that providential power over daily human life was reserved for God alone, and that mediation with God is provided by Jesus Christ alone. Martyrs and saints could no longer be worshiped or act as intercessors. But this did not mean their absence from the faith and piety of sixteenth-century Protestants. Instead, holy people were regarded as those who confessed the word and in that confession demonstrated and advertised the power of God. This book arose in response to some vexing questions: Why is the first of a long and distinguished line of Protestant martyrologists, Ludwig Rabus, the least noted? Why would he, a German Lutheran, have composed a book of martyrs? Kolb suggests that the answers are complex—they involve differences in historical and political situations and in specific dogmatic emphases of each reformation. Kolb's

diligent research led him well beyond Rabus's martyrbook. His work encompasses material from the writings and biographies of Luther and Melancthon, Wittenberg chronicles and calendars, and hymns and songs. The analysis of this material makes a significant contribution to the understanding of the Lutheran Reformation and of the changing roles of saints and martyrs in the history of Christianity.

Scholars of religion have long assumed that ritual and belief constitute the fundamental building blocks of religious traditions and that these two components of religion are interrelated and interdependent in significant ways. Generations of New Testament and Early Christian scholars have produced detailed analyses of the belief systems of nascent Christian communities, including their ideological and political dimensions, but have by and large ignored ritual as an important element of early Christian religion and as a factor contributing to the rise and the organization of the movement. In recent years, however, scholars of early Christianity have begun to use ritual as an analytical tool for describing and explaining Christian origins and the early history of the movement. Such a development has created a momentum toward producing a more comprehensive volume on the ritual world of Early Christianity employing advances made in the field of ritual studies. The *Oxford Handbook of Early Christian Ritual* gives a manifold account of the ritual world of early Christianity from the beginning of the movement up to the end of the fifth century. The volume introduces relevant theories and approaches; central topics of ritual life in the cultural world of early Christianity; and important Christian ritual themes and practices in emerging Christian groups and factions.

This book presents a range of case-studies of pilgrimage in Graeco-Roman antiquity, drawing on a wide variety of evidence. It rejects the usual reluctance to accept the category of pilgrimage in pagan polytheism and affirms the significance of sacred mobility not only as an important factor in understanding ancient religion and its topographies but also as vitally ancestral to later Christian practice.

"When I studied these manuals, a source then little exploited, I noticed that the academic, like the merchant, was justified by reference to the labor he accomplished. The novelty of the academics thus ultimately appeared to lie in their role as intellectual workers. My attention was therefore drawn to two notions whose ideological avatars I attempted to trace through the concrete social conditions in which they developed. These notions were labor and time. Under these two heads I maintain two open files, from which some of the articles collected here are drawn. I am still persuaded that attitudes toward work and time are essential aspects of social structure and function, and that the study of such attitudes offers a useful tool for the historian who wishes to examine the societies in which they develop."--Preface, page xii

This anthology surveys the development and theology of the liturgical year in the order of its historical evolution: "From Sabbath to Sunday"; "From Passover to Pascha" (Lent, Holy Week, Easter, and Pentecost); and "From Pascha to Parousia" (Epiphany, Christmas, and Advent). In addition,

introductory essays on the meaning of the liturgical year and a short concluding section on the sanctoral cycle ("From Parousia to Persons") are also provided. While written as a companion to standard works in the field, beginning with graduate students in liturgy and seminarians, this book is intended for all - pastors, liturgists, catechists, religious educators - who seek to live according to the Church's theology of time as it is reflected in its calendar of feasts and seasons. Through feast and fast, through festival and preparation, the liturgical year celebrates the presence of the already crucified and risen Christ among us today. *Between Memory and Hope* shows that to live between past and future, between memory and hope, is to remember Christ's passion as we encounter his presence among us now and as we await his coming again in glory.
