The Works and Days World Bank Publications

A publishing phenomenon in Spain: a moving, lyrical, far-ranging meditation on the deep joys of confronting oneself through silence by a Spanish priest and Zen disciple. With silence increasingly becoming a stranger to us, one man set out to become its intimate: Pablo d'Ors, a Catholic priest whose life was changed by Zen meditation. With disarming honesty and directness, as well as a striking clarity of language, d'Ors shares his struggles as a beginning meditator: the tedium, restlessness, and distraction. But, persevering, the author discovers not only a deep peace and understanding of his true nature, but also that silence, rather than being a retreat from life, offers us an intense engagement with life just as it is. Imbued with a rare beauty, *Biography of Silence* shows us the deep joy of silence that is available to us all.

To enable the reader to develop well-informed knowledge about a drug safety profile during pregnancy, three sections of data have been provided for each drug: FDA Category, Risk Summary, and Further Reading.

Gabriel Garcia Marquez, winner of the 1982 Nobel Prize for Literature and author of *One Hundred Years of Solitude*, started his literary career with the publication of *The Story of a Shipwrecked Sailor* . . . 'On February 22 we were told that we would be returning to Columbia' In 1955 eight crew members of Caldas, a Colombian destroyer, were swept overboard. Velasco alone survived, drifting

on a raft for ten days without food or water. Marquez retells the survivor's amazing tale of endurance, from his loneliness and thirst to his determination to survive. *The Story of a Shipwrecked Sailor* was Marquez's first major work, published in a Colombian newspaper, *El Espectador*, in 1955 and then in book form in 1970. 'The story of Velasco on his raft, his battle with sharks over a succulent fish, his hallucinations, his capture of a seagull which he was unable to eat, his subsequent droll rescue, has all the grip of archetypal myth. Reads like an epic' Independent 'A master storyteller' Daily Mail 'Garcia Marquez is a retailer of wonders' Sunday Times *Oxford Handbook for the Foundation Programme* Oxford University Press, USA
 Written in the early 1920s, *Lights of Bohemia* is set in the twilight phase of Madrid's bohemian artistic life against the turbulent social and political background of events between 1900 and 1920. The play's protagonist, the poet Max Estrella, confronts the dilemma between art and social commitment and the problem of salvaging some sort of authenticity and identity in a context which converts him into an anachronism. This is the first play in a series of 'esperpentos' or 'grotesques' in which Valle-Inclan tries to convey the tragi-grotesque contradictions of his contemporary surroundings by the use of similarly contrasting registers in his theatre.

In 2013, the World Bank Group announced two goals that would guide its operations worldwide. First is the eradication of chronic extreme poverty bringing the number of extremely poor people, defined as those living on less than 1.25 purchasing power parity (PPP)†"adjusted dollars a day, to less than 3 percent of the world's population by 2030. The second is the boosting of shared prosperity, defined as promoting the growth of per capita real income of the poorest 40 percent of the population in each country. In 2015, United Nations member nations agreed in New York to a set of post-2015 Sustainable Development Goals (SDGs), the first and foremost of which is the eradication of extreme poverty everywhere, in all its forms. Both the language and the spirit of the SDG objective reflect the growing acceptance of the idea that poverty is a multidimensional concept that reflects multiple deprivations in various aspects of well-being. That said, there is much less agreement on the best

ways in which those deprivations should be measured, and on whether or how information on them should be aggregated. *Monitoring Global Poverty: Report of the Commission on Global Poverty* advises the World Bank on the measurement and monitoring of global poverty in two areas: What should be the interpretation of the definition of extreme poverty, set in 2015 in PPP-adjusted dollars a day per person? What choices should the Bank make regarding complementary monetary and nonmonetary poverty measures to be tracked and made available to policy makers? The World Bank plays an important role in shaping the global debate on combating poverty, and the indicators and data that the Bank collates and makes available shape opinion and actual policies in client countries, and, to a certain extent, in all countries. How we answer the above questions can therefore have a major influence on the global economy.
