In a book that marks the author's 20th year of uncovering suppressed information, he takes the manipulation of the human race and the nature of reality to new levels of understanding and calls for humanity to rise from its knees and take back the world from the sinister network of families and non-human entities that covertly control us from cradle to grave. Laura Knight-Jadczyk's series, The Secret History of the World, is one of the most ambitious projects ever undertaken to provide a cogent, comprehensive account of humanity's true history and place in the cosmos. Following the great unifying vision of the Stoic Posidonius, Laura weaves together the study of history, mythology, religion, psychology and physics, revealing a view of the world that is both rational and breathtaking in its all-encompassing scope. This second volume, Comets and the Horns of Moses, (written in concert with several following volumes soon to be released) picks up the dangling threads of volume one with an analysis of the Biblical character of Moses -- his possible true history and nature -- and the cyclical nature of cosmic catastrophes in Earth's history. Laura skillfully tracks the science of comets, revealing evidence for the fundamentally

electrical and electromagnetic nature of these celestial bodies and how they have repeatedly wreaked havoc and destruction on our planet over the course of human history. Even more startling however, is the evidence that comets and cometary fragments have played a central role in the formation of human myth and legend and the very concept of a 'god'. As she expertly navigates her way through the labyrinth of history, Laura uncovers the secret knowledge of comets that has been hidden in the great myths, ancient astronomy (and astrology) and the works of the Greek philosophers. Concluding with a look at the political and psychological implications of cyclical cometary catastrophes and what they portend for humanity today, *Comets and the Horns of Moses* is a marvel of original thought and keen detective work that will rock the foundations of your understanding of the world you live in, and no doubt ruffle the feathers of the many academics who still cling to an outdated and blinkered view of history.

David Icke has been writing books for decades warning that current events were coming. He has faced ridicule and abuse for saying that the end of human freedom was being planned, how, and by whom. His latest highly topical book, *Perceptions of a Renegade Mind*, is published in very different circumstances with vast numbers of people acknowledging that he has been vindicated by the happenings of the 'Covid' era. His predictions over more than 30 years have been proved stunningly accurate since the turn of 2020 often down to the fine detail. Icke set out only in January 2021, to write a book to quickly bring enormous numbers of people worldwide up to speed and who can now see that something very strange is happening. But they ask, what exactly? What is going on? He answers those questions in his usual dot-connected detail and lays out the background to what he calls the 'Global Cult' which operates across borders to advance a long-planned agenda for total human control. Those who read his section on 'Covid' will view events of 2020 and 2021 in a totally new light as he produces the evidence that humanity has been misled on a scale that defies belief. David Icke's time has come, and *Perceptions of a Renegade Mind* is destined to be an international best seller that could not have been published at a more important and relevant time or with such a now receptive audience to what he has to say.

Alien Reptilians, who are multidimensional extraterrestrials, have been plaguing our planet for eons, lowering our vibrational frequency and using fear, manipulation, and mind-control to dominate and enslave humanity. They have no natural enemies here, so they have had free rein to carry out their agenda. But that is no longer the case! The Arcturians, a much more powerful race of multidimensional extraterrestrials, are right now helping to heal the planet and raise its vibrational frequency by removing alien Reptilians and sending them to the Light. The Arcturians are highly advanced, very loving and peaceful beings from Arcturus, a star in the Bootes Constellation. They are ready to communicate and work with any soul who aspires to journey with them to a higher level of consciousness. In their words: "The souls of the people of Mother Earth have suffered enough over the ages, and now is the time to make the Age of Aquarius a new and glorious era." Wayne Brewer is a prominent private investigator with over 35 years of experience uncovering hidden truths and the author of "Are You Possessed? Now Is the Time for Divine Intervention."

In this ethnographic study, the author takes an agnostic stance towards the truth value of conspiracy theories and delves into the everyday lives of people active in the conspiracy milieu to understand better what the contemporary appeal of conspiracy theories is. Conspiracy theories have become popular cultural products, endorsed and shared by significant segments of Western societies. Yet our understanding of who these people are and why they are attracted by these alternative explanations of reality is hampered by their implicit and explicit pathologization. Drawing on a wide variety of empirical sources, this book shows in rich detail what conspiracy theories are about, which people are involved, how they see themselves, and what they practically do with these ideas in their everyday lives. The author inductively develops from these concrete descriptions more general theorizations of how to understand this burgeoning subculture. He concludes by situating conspiracy culture in an age of epistemic instability where societal conflicts over knowledge abound, and the Truth is no longer assured, but "out there" for us to grapple with. This book will be an important

source for students and scholars from a range of disciplines interested in the depth and complexity of conspiracy culture, including Anthropology, Cultural Studies, Communication Studies, Ethnology, Folklore Studies, History, Media Studies, Political Science, Psychology and Sociology. More broadly, this study speaks to contemporary (public) debates about truth and knowledge in a supposedly post-truth era, including widespread popular distrusts towards elites, mainstream institutions and their knowledge.

In the Light of Experience David Icke Books

Chronicling the British pursuit of the legendary El Dorado, *Masters of All They Surveyed* tells the fascinating story of geography, cartography, and scientific exploration in Britain's unique South American colony, Guyana. How did nineteenth-century Europeans turn areas they called terra incognita into bounded colonial territories? How did a tender-footed gentleman, predisposed to seasickness (and unable to swim), make his way up churning rivers into thick jungle, arid savanna, and forbidding mountain ranges, survive for the better part of a decade, and emerge with a map? What did that map mean? In answering these questions, D. Graham Burnett brings to light the work of several such explorers, particularly Sir Robert H.

Schomburgk, the man who claimed to be the first to reach the site of Raleigh's El Dorado. Commissioned by the Royal Geographical Society and later by the British Crown, Schomburgk explored and mapped regions in modern Brazil, Venezuela, and Guyana, always in close contact with Amerindian communities. Drawing heavily on the maps, reports, and letters that Schomburgk sent back to England, and especially on the luxuriant images of survey landmarks in his *Twelve Views in the Interior of Guiana* (reproduced in color in this book), Burnett shows how a vast network of traverse surveys, illustrations, and travel narratives not only laid out the official boundaries of British Guiana but also marked out a symbolic landscape that fired the British imperial imagination. Engagingly written and beautifully illustrated, *Masters of All They Surveyed* will interest anyone who wants to understand the histories of colonialism and science.

"I want to make it clear before we start what the title represents. Everything You Need To Know, But Have Never Been Told does not refer to all that people need to know in terms of information and knowledge. How could you put that between two covers? Religious books claim to do this but they are works of self-delusion and perceptual imprisonment. Everything You Need To Know in this case refers to the information necessary to open entirely new ways of thinking and perceiving reality, both in the seen and unseen, from which everything else will come. This book is a start not a finish. It is written in layers with information placed upon information that together reveals the picture by connecting the parts. The parts are fascinating, but the picture is devastating. Prepare for a perception reboot]] "

How-and why- were UFOs so prevalent in both conspiracy theories and the New Age milieu in the post-Cold War period? In this ground-breaking book, David G. Robertson argues that UFOs symbolized an uncertainty about the boundaries between scientific knowledge and other ways of validating knowledge, and thus became part of a shared vocabulary. Through historical and ethnographic case studies of three prominent figures-novelist and abductee Whitley Strieber; environmentalist and reptilian proponent David Icke; and David Wilcock, alleged reincarnation of Edgar Cayce-the investigation reveals that millennial conspiracism offers an explanation as to why the prophesied New Age failed to arrive-it was prevented from arriving by malevolent, hidden others. Yet millennial conspiracism constructs a counter-elite, a gnostic third party defined by their special knowledge. An overview of the development of UFO subcultures from the perspective of religious studies, UFOs, Conspiracy Theories and the New Age is an innovative application of discourse analysis to the study of present day alternative religion.

Ask a random American what springs to mind about Sedona, Arizona, and they will almost certainly mention New Age spirituality. Nestled among stunning sandstone formations, Sedona has built an identity completely intertwined with that of the permanent residents and throngs of visitors who insist it is home to powerful vortexes—sites of spiraling energy where meditation, clairvoyance, and channeling are enhanced. It is in this uniquely American town that Susannah Crockford took up residence for two years to make sense of spirituality, religion, race, and class. Many people move to Sedona because, they claim, they are called there by its special energy. But they are also often escaping job loss, family breakdown, or foreclosure. Spirituality, Crockford shows, offers a way for people to distance themselves from and critique current political and economic norms in America. Yet they still find themselves monetizing their spiritual practice as a way to both “raise their vibration” and meet their basic needs. Through an analysis of spirituality in Sedona, Crockford gives shape to the failures and frustrations of middle- and working-class people living in contemporary America, describing how spirituality infuses their everyday lives. Exploring millenarianism, conversion, nature, food, and conspiracy theories, Ripples of the Universe combines captivating vignettes with astute analysis to produce a unique take on the myriad ways class and spirituality are linked in contemporary America.
