BENJAMIN MORROW

A Guide to the Stars The Mountaineers Books
 Guidebook to the via ferrata routes of the southern Italian Dolomites. This guide covers via ferrata routes in the major mountain ranges of Civetta, Schiara and Pala as well as those to the west in the Brenta. A significant addition (and, as far as we are aware, not previously published in any English language guidebook) is the inclusion of routes around the northern end of Lake Garda and the Piccole Dolomites north of Vicenza. Here the mountains are generally lower and you can enjoy ferrata climbing over a much extended season, with some routes accessible for most of the year. This is the second in a series of two guidebooks to the via ferratas of the Italian Dolomites. (Volume One covers

the eastern, northern and central areas of the Dolomites, while Volume Two completes the picture, focusing on the southern, Brenta and Lake Garda areas.)

Italy's Alta Via 1, a 180km trail through the Italian Alps following the northern flank of the Aosta Valley, boasts magnificent views of the Alpine giants: Mont Blanc, the Matterhorn, the Grand Combin and Monte Rosa. Indeed, it is sometimes known as the Giants' Trail and can be combined with a sister-route, the Alta Via 2 (covered in a separate Cicerone guide), which runs along the southern flank of the valley, to form the Tor des Géants. Stretching from Donnas to Courmayeur, the Alta Via 1 offers fantastic alpine walking, with welcoming refuges and small hotels providing overnight accommodation (and great food) along the way. The guide presents the route in two sections, for the advantage of those who can't spare the full fortnight-plus needed to walk the entire AV1. The trail is described in 16 stages, with

alternative stages covering some popular variants, including an optional detour to visit the famed monastery at the Great St Bernard Pass. Each stage includes clear route description and mapping, plus notes on local points of interest and accommodation options. An alternative itinerary, list of useful contacts, kitlist and glossary can be found in the appendices. The AV1 crosses cols of nearly 3000m as it traverses the side-valleys of the main Aosta Valley. Suited to those with some of experience of alpine trekking, the walking is demanding but without technical difficulty. And the rewards are many: quieter huts, breathtaking vistas and a chance to immerse yourself in fabulous mountain landscapes overlooked by soaring, snow-clad giants.
