This business book is different. Unlike every other book you'll read with titles like "How To Craft The Perfect Business Plan in 89 Incredibly Simple Steps", this book is different. It's a simple "How To" guide for creating a Business Plan that's right for you and your business and also an easy to follow workbook. The workbook will guide you through the process you need to follow. It tells you the questions that you need to consider, the numbers you need (and how to get them), and supporting documents you need to gather. The main purpose of a business plan is to aid YOU in running YOUR business. So the workbook has been designed for you to write the information in and refer back to as needed. If you need to supply your Business Plan to another party, such as a bank if you're looking for finance, then it's simple to type up the various sections for a professional document. Running your own business is both a challenging and daunting prospect. With a well-thought-out business plan in place (anticipating the challenges you'll face AND the solutions) it will be much less daunting and much more exciting. Good luck! Molly

Project Report from the year 2017 in the subject Business economics - Company formation, Business Plans, grade: 85, University of Canberra (School of Management, Faculty of Business, Government & Law), course: Master of Business Administration, language: English, abstract: If you want to nourish your tastebuds with unique flavours and to experience a distinctive relaxing environment while going through different cultures and histories at the same time, then come to Afghan Cameleers Restaurant. Afghan Cameleers is a place of creative authentic Arab-Afghan tastes. Our chefs have marvellous expertise in traditional Afghani and Middle Eastern foods with no comparison. We are deeply inspired by Afghan Cameleers who shaped Australian outback between 1860 to 1930 and built their initial networks with local people and exchanged their traditions and values. This restaurant is a continuation of their deep legacy which will keep us reminding their contributions. We have clearly identified strengths and weakness of our competitors. Cultural design, ambience, products' versatility, passionate service and distinctive relaxing environment are the strength of our restaurant and its uniqueness amongst its competitors. We offers a tantalizing difference from other Middle Eastern restaurants that seem to be popping up everywhere in Canberra. Our restaurant's name, slogan and thematic dining experience provide strong linkages between us and our customers.

As a doctoral candidate, business consultant, and business plan writer, I am often asked by aspiring and seasoned entrepreneurs alike, "What is the first step for starting a business (or expanding a

current operation)?" When I first started out as a business consultant, I would explain to my client their place in the entrepreneurial process. I then support this analysis with proven academic and practicing business theory, along with recommending specific steps to take to start or expand their operations. After going through this process time and time again with entrepreneurs, it dawned on me that the first step I ALWAYS recommend is writing a business plan. Unfortunately, most entrepreneurs do not know how to write a professionally polished and structured business plan. Hell, most owners don't know how to write any type of business plan at all. From this issue, I decided to write this book focused on a ten-step process for writing a well-structured business plan. The business plan writing steps include all aspects of the business plan writing process, beginning with developing the executive summary to constructing a professional and polished funding request. In each step, I introduce you to a different business plan section. I then explain in layman's terms what the section means, offer a "real world" business plan sample, and analyze the sample to help you understand the component. The objective of this detailed process is to ensure a full understanding of each section and segment, with the goal of you being able to write a professional business plan for yourself by yourself! IF you still need help writing your business plan, at the end of the book, I ALSO supply you with professionally written samples to use. Samples include a restaurant business plan, retail business plan, coffee shop business plan, AND a Food Truck business plan for you to use. On a final note, to put the cherry on top, I have conducted and included preliminary market research for each one of the industries noted above for you to use in your personalized plans! In the end, I am supremely confident that this book, with the numerous tools and tips for business plan writing, will help you develop your coveted business plan in a timely fashion.
