More commonly known as Pacific Coast Highway, State Route 1 ribbons along or near the Pacific Ocean from Northern California at Leggett in Mendocino down to Southern California at San Juan Capistrano in Orange County. Its construction began in 1913 and was done incrementally, largely because of funding issues, shortage of labor, legal challenges, deep canyons, steep mountains, solid rock, and unstable earth. A true modern marvel, its unique and extraordinary construction allows easy access to some of the country's most famous and historical places and picturesque sights. Thousands of pounds of dynamite were used to blast through granite, marble, and sandstone to build a highway following near or along the coastline. Among the 33 bridges along the route is the remarkable Bixby (Rainbow) Bridge at Big Sur. The highway wends its way through some of the most magnificent and scenic landscapes and historical places found between Ventura and Humboldt Counties, making it more than just a road. It is a destination.

Backpacking California is a collection of more than 70 of the most intriguing backpacking adventures in Wilderness Press's home territory of California. With contributions from more than a dozen Wilderness Press authors, the book describes routes ranging from one night to one week.

Backpacking novices as well as "old hand" California hikers will find expert-crafted trips in the Coast Ranges, the Sierra, the Cascades, and the Warner Mountains. Expanded coverage includes trips in Big Sur, Anza-Borrego, Death Valley, and the White Mountains. Several trips have been described in print nowhere else. Each trip includes a trail map and essential logistical information for trip planning.

Quirky beach towns, deliciously fresh seafood, and dramatic hikes and drives: discover what the locals love with Moon Monterey & Carmel. Inside you'll find: Flexible, strategic itineraries including long weekends in Monterey, Carmel, and Santa Cruz, and a three-day road trip from Big Sur to Cambria The top sights and unique experiences: Visit the famous Monterey Bay Aquarium or take a whale-watching tour to catch a glimpse of sea otters, harbor seals, and migrating whales in the wild. Stroll along soft sand beaches or browse artisan galleries and boutiques in Carmel's idyllic downtown. Explore the stunning coastline on a kayak or stand-up paddleboard, dive into a kelp forest, or rent a surfboard and catch a wave. Cruise along the Pacific Coast Highway to Big Sur and pull over to soak up the breathtaking ocean view, or wander the halls of the opulent Hearst Castle.

Catch happy hour at a historic brewery, or enjoy a dinner of fresh seafood as the sun sets over the bay Honest advice from Monterey local Stuart Thornton on when to go, how to get around, where to eat, and where to stay, from budget motels to historic inns Full-color photos and detailed maps throughout Handy tools including tips for seniors, visitors with disabilities, and traveling with kids Background on the culture, history, weather, and wildlife Full coverage of Monterey, Carmel, Santa Cruz, Big Sur, Cambria, San Simeon, Morro Bay, and Salinas With Moon Monterey & Carmel's practical tips and local insight, you can plan your trip your way. Driving through? Check out Moon Pacific Coast Highway Road Trip. Exploring more of the Golden State? Try Moon Northern California. [Water-resources Data Network Evaluation for Monterey County, California](#) Univ of California Press Human impact on natural landscapes through urbanization and agricultural expansion are becoming more and more dramatic and are the cause of serious environmental problems. This volume examines the effect of landscape disturbance on plant and animal diversity in the five mediterranean-climate regions of the world. It begins with three introductory chapters broadly reviewing the issues of landscape degradation. Further contributions describe regional land use conflicts in each of the five regions. Landscape disturbance and plant diversity, and landscape disturbance and animal diversity are treated in separate chapters. Four contributions deal with demography and ecophysiology in vegetation succession following disturbance. The volume closes with a consideration of the future addressing aspects of environmental politics.

"Harold Gilliam, California's premiere environmental journalist, never fails to bring the power and beauty of nature home to the most citified readers. In this eloquent little book he transforms the local climate into an entire ecological education."--Theodore Roszak, author of *The Voice of the Earth* "Ask Hal Gilliam, 'How's the weather out there?' and, as always, you get an eloquent, exciting and updated answer--this time, to journalism's most fascinating topic."--William German, Editor Emeritus, *San Francisco Chronicle* "In this enjoyable volume Harold Gilliam, a pre-eminent California nature writer, enlightens us about the weather in the San Francisco Bay region. He makes sometimes-abstruse concepts easily understandable and brings the vagaries and variations of Bay Area weather into sharp focus. The book should be of interest to the many Bay Area residents for whom weather is a matter of daily concern."--Edgar Wayburn, M.D., Honorary President of the Sierra Club

*California Riparian Systems* Bill Ginnodo

Each year millions of people visit the area of rugged California coastline and wild mountains known as Big Sur. Finally here is a book that is both a natural history of this beautiful region and an excellent guide to its extensive public lands. The first section introduces the area's geology, climate, flora, fauna, and human history. The second section describes selected sites, trails, and features that are mentioned in Part One. Although Big Sur is world famous for awe-inspiring scenery, it is less known for its great ecological diversity and its significance as a haven for many species of terrestrial and marine wildlife. In no other part of the world do fog-loving coastal redwoods thrive on one slope of a canyon while arid-climate yuccas grow on the other. Similarly, sea otters and cormorants live near dry-climate creatures like canyon wrens and whiptail lizards. The area's staggering beauty and forbidding wilderness have inspired artists, poets, naturalists, and hikers—and also real estate developers. As increasing tourism, development pressure, and land-use decisions continue to affect Big Sur, this book will do much to heighten awareness of the region's biotic richness and fragility. Written in nontechnical language, with generous color photographs, drawings, maps, species lists, and a bibliography, it will attract both the casual and the serious naturalist, as well as anyone concerned about preserving California's natural heritage.

*Monterey Life* Lonely Planet

*SHEPHERDS OF PAN ON THE BIG SUR-MONTEREY COAST* is a medley of lively, literate essays about the Nature wisdom linking some unlikely bedfellows: Robert Louis Stevenson, Gertrude Atherton,

Jack London, Robinson Jeffers, Jaime de Angulo, John Steinbeck, Eric Barker, D. H. Lawrence, Henry Miller and others, with a pertinent postscript on William James, father of American psychology. All these luminaries came to perceive divinity in the awesome, double-dealing power of Nature, symbolized by the Greek god Pan. Many became pantheists, or nature mystics, under the spell of

the alternately soft and violent landscape of Californias central coast. The book is a multicolored meditation on a deeply rooted -- and often overlooked -- human need to reconnect with Nature, wellspring of our inner joy and psychic wholeness.
