A Thanksgiving rom-com with lots of food and interfering family! Advertising executive Nick Wong enjoys living in Toronto. He loves late nights partying and taking women back to his penthouse. And so it is with great reluctance that he returns to his boring hometown of Mosquito Bay for Thanksgiving. This year, however, is even worse than usual. His parents and grandparents, frustrated with the lack of weddings in the family, have invited blind dates for him and his three siblings. Nick's brother Greg has been set up with Lily Tseng, who just so happens to be Nick's latest one-night stand, the one he can't get out of his mind. Although Nick has never been interested in settling down, Lily has him reconsidering. Perhaps he's good for more than a single night of sex, dumplings, and bubble tea after all. But first, he has to get through this painful weekend with his family and convince her that she should be with him, not Greg... \* \* \* This is the first book in a series of novellas about the Wong siblings. Each one features a different holiday. Book 1: A Match Made for Thanksgiving Book 2: A Second Chance Road Trip for Christmas Book 3: A Fake Girlfriend for Chinese New Year Book 4: A Big Surprise for Valentine's Day

This fourth edition of Metric Pattern Cutting for Children's Wear and Babywear remains the standard text book but has three major improvements. First, the sections have been re-organised to reflect changes in producing and marketing children's clothes. Today's popularity of easy-fitting styles and knitted fabrics means that basic 'flat' pattern cutting is used to construct the majority of children's wear and babywear and this type of cutting is therefore emphasised in this new edition. Shaped blocks and garments, cut to fit the body form, are still included, and are placed in chapters covering some school uniform garments or more expensive fashion or formal clothes. The book now clearly separates the sections useful to student beginners (Parts One, Two and Three), and also offers more advanced or specialist sections for students who wish to pursue

a career in children's wear or for designers working in the different manufacturing sectors of the trade. The second change in this fourth edition is the introduction of colour coding to the sections; this makes it easier to identify specific processes in the book and enhances the illustrations. Finally, the size charts have been revised to reflect the changes in body sizing. The clear division of the boys' and girls' measurements in the charts has been in response to the way clothes are marketed and to co-ordinate with European size charts. 'Plus' charts for heavier children have also been added.
