 When the Europeans first arrived in America, they had a number of preconceptions, prejudices, expectations and hopes about what life in the New World would be like. This book examines the different visions and representations of America conveyed in the writings of Spanish conquistador Álvar Núñez Cabeza de Vaca and the Pilgrim leader William Bradford, taking both writers within their respective literary and historical contexts. Anthologies of American literature have consistently ignored Spanish-language achievements on the grounds of a restrictive interpretation of American literature based on linguistic boundaries. Consequently, Spanish-language texts such as Cabeza de Vaca's or the account by the Hidalgo de Elvas, to name but two examples, have been marginalized in the narrative of American literary history. In seeking to redress this neglect, Galisteo contributes to scholarship which seeks to analyze Early America as a whole, including not only Anglo American perspectives but also the Spanish American aspect of the

colonization process.

Spanish Explorers in the Southern United States, 1528-1543

University of Texas Press

Alvar Nunez Cabeza de Vaca (c. 1490/1507-c. 1557/1559) was an early Spanish explorer of the New World and is remembered as a proto-anthropological author. As treasurer, and hence one of the chief officers, of the Narvaez expedition, he and three others were the only survivors of the party of 300 men who landed near Tampa Bay, Florida on April 15, 1528. Over the course of eight years, various members of the expedition succumbed to disease, starvation, exposure, and the attacks of various Native American groups as they slowly made their way west, toward Mexico, where they knew there were other Spaniards. Others among them simply gave up the effort and "went native." For a few years, the survivors were enslaved by various Native American tribes of the upper Gulf coast. Only the final four-Cabeza de Vaca, Dorantes, Castillo, and a Moroccan Berber named Esteban (who was later called Estevanico)-ultimately escaped and eventually reached Mexico City. During his wanderings, passing from tribe to tribe, he developed sympathies for the indigenous population. He eventually became a trader, which allowed him freedom to travel among the tribes. He wrote about his experiences in a report for Charles V. It was later published in 1542, under the title *La Relacion* (The Report), later known as *Naufragios*, and is considered a classic of colonial literature.

We Came Naked and Barefoot Fred Rider Cotten Popular Hist Cabeza de Vaca's life is tied to the earliest Spanish explorations of both North and South America: as an officer of Narvaez's failed attempt to conquer and colonize Florida and as the leader of an attempt to conquer and settle what is today Argentina and Paraguay.

Relation of Alvar Nuez Cabea de Vaca U of Nebraska Press

This enthralling story of survival is the first major narrative of the exploration of North America by Europeans (1528-36). The author of *Castaways (Naufragios)*, Alvar Núñez Cabeza de Vaca, was a fortune-seeking nobleman and the treasurer of an expedition to claim for Spain a vast area that includes today's Florida, Louisiana, and Texas. A shipwreck forced him and a handful of men to make the long westward journey on foot to meet up with Hernán Cortés. In order to survive, Cabeza de Vaca joined native peoples along the way, learning their languages and practices and serving them as a slave and later as a physician. When after eight years he finally reached the West, he was not recognized by his compatriots. In his writing Cabeza de Vaca displays great interest in the cultures of the native peoples he encountered on his odyssey. As he forged intimate bonds with some of them, sharing their brutal living conditions and curing their sick, he found himself on a voyage of self-discovery that was to make his reunion with his fellow Spaniards less joyful than expected. Cabeza de Vaca's gripping narrative is a trove of ethnographic information, with descriptions and interpretations of native cultures that make it a powerful precursor to modern anthropology. Frances M. López-Morillas's translation beautifully captures the sixteenth-century original. Based as it is on Enrique Pupo-Walker's definitive critical edition, it promises to become the authoritative English translation.

JOURNEY OF ALVAR NUNEZ CABEZA Trieste Publishing

Alvar Nuñez joined the expedition of Pámfilo de Narvaez to Florida in 1526 as treasurer. With two other Spaniards and an Arab Moor, he was the only survivor who remained on the mainland. For eight years they roamed along the coasts of Louisiana and Texas under the greatest of hardships, their position among the Indians being wellnigh intolerable. In utter despair, Cabeza de Vaca at last tried his scanty knowledge of medicine and, his cures proving successful, he became a renowned medicine man among the natives, his companions following the example. The treatment to which they resorted partook of the nature of a faith-cure. He declares the sign of the cross to be a seldom-failing remedy. The belief of the outcasts in miracles was sincere, while acknowledging that they also employed indigenous Indian remedies with simple Christian religious ceremonials. After nine years they reached the Pacific coast in Sonora, Mexico, thus being the first Europeans to travel across the North American continent.

The Narrative of Alvar Nuñez Cabeza de Vaca. [Translated by T. Buckingham Smith. Edited, with an Introduction, by F. W. Hodge.] Ann Arbor [Mich.], University Microfilms

Perhaps no one has ever been such a survivor as álvar Núñez Cabeza de Vaca. Member of a 600-man expedition sent out from Spain to colonize "La Florida" in 1527, he survived a failed exploration of the west coast of Florida, an open-boat crossing of the Gulf of Mexico, shipwreck on the Texas coast, six years of captivity among native peoples, and an arduous, overland journey in which he and the three other remaining survivors of the original expedition walked some 1,500 miles from the central Texas coast to the Gulf of California, then another 1,300 miles to Mexico City. The story of Cabeza de Vaca has been told many times, beginning with his own account, *Relación de los naufragios*, which was included and amplified in Gonzalo

Fernando de Oviedo y Valdez's *Historia general de las Indias*. Yet the route taken by Cabeza de Vaca and his companions remains the subject of enduring controversy. In this book, Alex D. Krieger correlates the accounts in these two primary sources with his own extensive knowledge of the geography, archaeology, and anthropology of southern Texas and northern Mexico to plot out stage by stage the most probable route of the 2,800-mile journey of Cabeza de Vaca. This book consists of several parts, foremost of which is the original English version of Alex Krieger's dissertation (edited by Margery Krieger), in which he traces the route of Cabeza de Vaca and his companions from the coast of Texas to Spanish settlements in western Mexico. This document is rich in information about the native groups, vegetation, geography, and material culture that the companions encountered. Thomas R. Hester's foreword and afterword set the 1955 dissertation in the context of more recent scholarship and archaeological discoveries, some of which have supported Krieger's plot of the journey. Margery Krieger's preface explains how she prepared her late husband's work for publication. Alex Krieger's original translations of the Cabeza de Vaca and Oviedo accounts round out the volume.

The New World story of the Spanish explorer Cabeza de Vaca in his own words This riveting true story is the first major narrative detailing the exploration of North America by Spanish conquistadors (1528-1536). The author, Alvar Nuñez Cabeza de Vaca, was a fortune-seeking Spanish nobleman and the treasurer of an expedition sent to claim for Spain a vast area of today's southern United States. In simple, straightforward prose, Cabeza de Vaca chronicles the nine-year odyssey endured by the men after a shipwreck forced them to make a westward journey on foot from present-day Florida through Louisiana and Texas into California. In thirty-eight brief chapters, Cabeza de Vaca describes the scores of natural and human obstacles they encountered as they made their way across an unknown land. Cabeza de Vaca's gripping account offers a trove of ethnographic information, including descriptions and interpretations of native cultures, making it a powerful precursor to modern anthropology. Cabeza de Vaca's mode of transportation, afoot on portions of two continents in the early decades of the sixteenth century, fits one dictionary definition of the word "pedestrian." By no means, however, should the ancillary meanings of "commonplace" or "prosaic" be applied to the man, or his remarkable adventures. Between 1528 and 1536, he trekked an estimated 2,480 to 2,640

miles of North American terrain from the Texas coast near Galveston Island to San Miguel de Culiacán near the Pacific Coast of Mexico. He then traveled under better circumstances, although still on foot, to Mexico City. About a year later, Cabeza de Vaca returned to Spain. In 1540, the king granted Cabeza de Vaca civil and military authority in modern-day Paraguay. After arriving on the coast of Brazil in 1541, he was unable to find transportation by ship to the seat of his governorship. He then led a group of more 250 settlers through 1,200 miles of unchartered back country, during which he lost only two men. Cabeza de Vaca's travels are amazing in themselves, but during them he transformed from a proud Spanish don to lay advocate of Indian rights on both American continents. That journey is as remarkable as his travels. It was this "great awakening" that landed him in more trouble with Spaniards than Indians. Settlers at Asunción rebelled against the reformist governor, incarcerated him, tried to poison his food on two occasions, and finally sent him to Spain in irons. There he was tried and convicted on trumped-up charges of carrying out policies that were the exact opposite of what he had promoted--the humane protection of Indians. This book examines the two great "journeys" of Cabeza de Vaca--his extraordinary adventures on two continents and his remarkable growth as a humanitarian.

This edition of Álvar Núñez Cabeza de Vaca's *Relación* offers readers Rolena Adorno and Patrick Charles Pautz's celebrated translation of Cabeza de Vaca's account of the 1527 Pánfilo de Narváez expedition to North America. The dramatic narrative tells the story of some of the first Europeans and the first-known African to encounter the North American wilderness and its Native inhabitants. It is a fascinating tale of survival against the highest odds, and it highlights Native Americans and their interactions with the newcomers in a manner seldom seen in writings of the period. In this English-language edition, reproduced from their award-winning three-volume set, Adorno and Pautz supplement the engrossing account with a general introduction that orients the reader to Cabeza de Vaca's world. They also provide explanatory notes, which resolve many of the narrative's most perplexing questions. This highly readable translation fires the imagination and illuminates the enduring appeal of Cabeza de Vaca's experience for a modern audience. The Rosen Publishing Group, Inc

This book combines a new English translation of *La Relacion* ("The Account") by Alvar Nunez Cabeza de Vaca with the translator's analysis and commentary. *La Relacion* is Cabeza de Vaca's first-hand account of the Narvaez Expedition - Spain's failed attempt to colonize Florida in 1528. It tells the story of the first non-indigenous people to visit a large part of the present-day United States and Mexico and documents their first contacts with a number of pre-Columbian native American tribes. It describes the series of disasters and calamities that reduced Narvaez's army of 300 men down to four, including skirmishes with naked, bow-wielding natives, getting lost at sea, becoming shipwrecked, and being captured and forced to live as slaves of people who tortured them for their own amusement. It further describes how, after the four survivors were at their lowest, with nothing but their faith in God to keep them going, their fortunes turned, enabling them to emerge triumphantly from the wilderness, after eight years of being lost, surrounded by hundreds of adoring natives who believed them to be Children of the Sun. The heart of this book is David Carson's accurate, literal translation of Cabeza de Vaca's account. Not content with the typical approach of loosely paraphrasing the original text so as to get the basic idea across, Carson painstakingly chooses each English word so as to best replicate the author's words and voice. The result is the

closest thing there is to reading *La Relacion* in Spanish. Next, Carson takes on the roles of editor, analyst, and commentator. Through his hundreds of annotations to the text, Carson tracks the Narvaez Expedition members' movements across Florida, the Gulf coast, Texas, and northern Mexico to an impressive level of detail and with insights that should settle several long-standing controversies about where the castaways went, and when they were there. He then goes even deeper, analyzing the castaways' motives in light of the culture of Spanish exploration in the Age of Discovery and pointing out the author's occasional contradictions and exaggerations. To bolster his analysis, Carson brings in relevant material from other 16th-century records, including Gonzalo de Oviedo's paraphrased version of the "Joint Report," which Cabeza de Vaca also co-authored. All of Carson's annotations are set off as footnotes, meaning one can make full use of them if desired, or simply skip them and read only the basic translation. Maps, a chronology, a glossary, a prologue, and an epilogue complete the book. If you have not read Cabeza de Vaca before, prepare for a fascinating story that will show you a side of American history you never knew about. If you consider yourself a well-read student of the Narvaez Expedition, this edition of "The Account" will surely become your ultimate reference book on the subject.

The exploration of America started a race between the strongest counties of Europe that were competing in search of wealth, gold, and new lands. The early explorers were forced to overcome the hardships of long sea travels, wild forests, and the opposition of the local tribes who opposed the conquerors. This book includes the narratives of the three Spanish explorers that researched the territory of the Southern United States.

The story of Spanish explorer Alvar Nunez Cabeza de Vaca brims with his adventures and misadventures throughout the North American Southwest. As of the sixteenth century, no European had journeyed over such a large extension of territory, from the Florida Peninsula to northern Mexico, and survived. This lively and informative volume goes on to examine his eight years of

wandering in this unknown land, during which he learned natural medicine from the American natives and became a curandero, learned their languages, and served as a trader and peacemaker among different tribes. Vibrant illustrations complement and expand on this memorable, but often overlooked story.
