It is often assumed that picturebooks are for very young readers because of their emphasis on the illustrations and their scarcity of text; however, there are increasing numbers of picturebooks where the age of the implied reader is questionable. These are picturebooks whose controversial subject matter and unconventional, often unsettling style of illustration challenge the reader, pushing them to question and probe deeper to understand what the book is about. In addition to the book challenging the reader, the reader often challenges the book in an attempt to understand what is being said. These increasingly popular picturebooks work on many different levels; they are truly polysemic and worthy of in-depth analysis. They push the reader to ask questions and in many instances are intrinsically philosophical, often dealing with fundamental life issues. Challenging and Controversial Picturebooks examines these unconventional, non-conformist picturebooks, considering what they are, their audience and their purpose. It also considers: Children's and adults' thoughts on these kinds of picturebooks. How challenging and unsettling wordless picturebooks can play with the mind and promote philosophical thought. What creates non-conformity and strangeness ... is it the illustrations and their style, the subject matter or a combination of both? Why certain countries create, promote and accept these picturebooks more than others. Why certain picturebooks are censored and what factors are in play when these decisions are made. The role of publishers in translating and publishing these picturebooks. Children's creative and critical responses to strange, unsettling and often disturbing visual texts. This inspiring and thought-provoking volume explores the work of a number of highly respected, international picturebook experts and includes an exclusive interview with the legendary Klaus Flugge, Managing Director of Andersen Press, one of the few remaining independent children's book publishers in England. It is an indispensable reference for all interested in or working with picturebooks, including researchers, students in higher and teacher education, English advisors/inspectors, literacy consultants and classroom teachers.

The Haunted Playground Hachette UK

Having guessed that it is lost, he tries to find out who owns it or where it belongs, but the problem is met with indifference by everyone else, who barely notices its presence. Each is unhelpful in their own way; strangers, friends, parents are all unwilling to entertain this uninvited interruption to day-to-day life. In spite of his better judgement, the boy feels sorry for this hapless creature, and attempts to find out where it belongs.

Poetry Text

Night Shift Allen & Unwin

A small child awakes to find blackened leaves falling from her bedroom ceiling, threatening to overwhelm her. 'Sometimes you wake up with nothing to look forward to...' As she wanders around a world that is complex, puzzling and alienating, she is overtaken by a myriad of feelings. Just as it seems all hope is lost, the girl returns to her bedroom to find that a tiny red seedling has grown to fill the room with warm light. Astonishing Australian artist, Shaun Tan's latest creation, *The Red Tree*, is a book about feelings - feelings that can not always be simply expressed in words. It is a series of imaginary landscapes conjured up by the wizardry of his masterful and miraculous art. As a kind of fable, *The Red Tree* seeks to remind us that, though some bad feelings are inevitable, they are always tempered by hope.

As children, learning to read, we look first at the illustrations - but how do these tell their stories differently to the words? *Words & Pictures* explores this question through three encounters between writers and artists. It looks at how artists have responded to two great, contrasting works, *Paradise Lost* and *Pilgrim's Progress*; at Hogarth and Fielding, great innovators, sharing common aims; and at Wordsworth and Bewick, a poet and engraver, both working separately, but both imbued with the spirit of their age. A brief coda turns to a fourth relationship: writers and artists who collaborate from the start, like Dickens and Phiz, and Lewis Carroll and Tenniel. Sometimes amusing, sometimes moving, this is a book to pore over and enjoy. The visions it considers link daily life to the universal, the passionate and the sublime.

The Singing Bones Lothian Children's Books

Celebrate the tender story *The Little Gardener* with a beautiful new cover in the updated 2018 edition! There was once a little gardener and his garden meant everything to him. He worked hard, very hard, but he was just too little (or at least he felt he was). In this gentle, beautiful tale, Emily Hughes, the celebrated author of *Wild*, departs from the larger than life Wild-girl of her debut to pursue a littler than life Gardener, in a story that teaches us just how important it is to persist and try, no matter what the odds. With delicately woven tapestries of illustrated magic, Hughes once again transports us to a world not unlike our own, while still brimming with fantasy and wonder.

Sketches from a Nameless Land National Geographic Books

In this new collection, children's literature scholars from twelve different countries contribute to the ongoing debate on the importance of picturebook research, focusing on aesthetic and cognitive aspects of picture books. Contributors take interdisciplinary approaches that integrate different disciplines such as literary studies, art history, linguistics, narratology, cognitive psychology, sociology, memory studies, and picture theory. Topics discussed include intervisuality, twist endings, autobiographical narration, and metaliterary awareness in picturebooks. The essays also examine the narrative challenges of first-person narratives, ellipsis, and frame-breaking in order to consider the importance of mindscape as a new paradigm in picturebook research. Tying picturebook studies to studies in childhood, multimodality, and literacy, this anthology is a representative of the different opportunities for research in this emerging field.
