Nothing Lasts Forever
Bloomsbury Publishing
Casual stargazers are familiar with many classical figures and asterisms composed of bright stars (e.g., Orion and the Plough), but this

book reveals not just the constellations of today but those of yesteryear. The history of the human identification of constellations among the stars is explored through the stories of some influential celestial cartographers whose works determined whether new inventions survived. The history of how the modern set of 88

constellations was defined by the professional astronomy community is recounted, explaining how the constellations described in the book became permanently “extinct.” Dr. Barentine addresses why some figures were tried and discarded, and also directs observers to how those figures can still be picked out on a clear

night if one knows where to look. These lost constellations are described in great detail using historical references, enabling observers to rediscover them on their own surveys of the sky. Treatment of the obsolete constellations as extant features of the night sky adds a new dimension to stargazing that merges history with the accessibility and immediacy of the night sky.

 In the great tradition of the American almanac, The Areas of My Expertise is a brilliant and hilarious compendium of handy reference tables, fascinating trivia, and sage wisdom on all topics large and small. Although bestsellers such as Poor Richard's Almanack and The Book of Lists were certainly valuable, they also were largely true. Here is a different kind of handy desk reference, one in which all of the historical oddities and

amazing true facts are sifted through the singular, illuminating imagination of John Hodgman—which is the nice way of saying: He made it all up. John Hodgman brings his considerable expertise to bear in answering all of the questions book buyers have been asking: -What are the mottoes of the 51 United States? THE ANSWER IS PROVIDED - Who were the U.S. presidents who had hooks for hands? THE ANSWER IS PROVIDED -What role does the Yale secret

society “Skull and Bones” play in the secret world government? THERE IS NO SECRET WORLD GOVERNMENT -What was the menu at the first Thanksgiving, and did it include eels? Technically, that is two questions, but do not apologize, for John Hodgman shall answer them both . . . LATER. - Aside from a compendium of fake trivia, what is the best kind of book to write? A SIMPLE TABLE OF THE 55 MOST DRAMATIC LITERARY SITUATIONS PROVIDES THE ANSWER, and John Hodgman is the

author of that table. Imagine if The Book of Lists had been rewritten by Peter Cook and Jorge Luis Borges under the pseudonym of “John Hodgman” and then renamed The Areas of My Expertise, and you will only begin to have a sense of the dizzying, uproarious, sublimely weird, and strangely wise journey that is contained within this book (along with all the pages and words). Perfect for anyone who thirsts for knowledge, and especially for collectors of books of fake

trivia, The Areas of My Expertise offers through absurdity a better understanding of the world we share—and recognizes that while the truth may be stranger than fiction, it is never as strange as lies . . . or as true. Look out for John Hodgman's latest book, Vacationland, available from Viking in Fall 2017. Morning, Noon, and Night Springer

Pompeii was in its full glory at the commencement of the Christian era. It was a city of wealth and refinement, with about 35,000 inhabitants, and beautifully located at the foot of Mount Vesuvius; it possessed all local advantages that the most refined taste could desire. Upon the verge of the

sea, at the entrance of a fertile plain, on the bank of a navigable river, it united the conveniences of a commercial town with the security of a military station, and the romantic beauty of a spot celebrated in all ages for its pre-eminent loveliness. Its environs, even to the heights of Vesuvius, were covered with villas, and the coast, all the way to Naples, was so ornamented with gardens and villages, that the shores of the whole gulf appeared as one city.

The Book of Other People is just that: a book of other people. Open its covers and you'll make a whole host of new acquaintances. Nick Hornby and Posy Simmonds present the ever-diverging writing life of Jamie Johnson; Hari Kunzru twitches open his net curtains to reveal the irrepressible Magda Mandela (at 4:30a.m., in her lime-green thong); Jonathan Safran Foer's

Grandmother offers cookies to sweeten the tale of her heart scan; and Dave Eggers, George Saunders, David Mitchell, Colm Tóibín, A.M. Homes, Chris Ware and many more each have someone to introduce to you, too. With an introduction by Zadie Smith and brand-new stories from over twenty of the best writers of their generation from both sides of the Atlantic, The Book of Other People is as dazzling and inventive as its authors, and as vivid and wide-ranging as its characters.

When Richard Rumelt's Good Strategy/Bad Strategy was published in 2011, it immediately struck a chord, calling out as bad strategy the mish-mash of pop culture, motivational slogans and business buzz speak so often and misleadingly masquerading as the real thing. Since then, his original and pragmatic ideas have won fans around the world and continue to help readers to recognise and avoid the elements of bad

strategy and adopt good, action-oriented strategies that honestly acknowledge the challenges being faced and offer straightforward approaches to overcoming them. Strategy should not be equated with ambition, leadership, vision or planning; rather, it is coherent action backed by an argument. For Rumelt, the heart of good strategy is insight into the hidden power in any situation, and into an appropriate response - whether launching a new product,

fighting a war or putting a man on the moon. Drawing on examples of the good and the bad from across all sectors and all ages, he shows how this insight can be cultivated with a wide variety of tools that lead to better thinking and better strategy, strategy that cuts through the hype and gets results. Createspace Independent Publishing Platform By the New York Times bestselling author of The Bone Clocks and Cloud Atlas | Longlisted for the Man Booker Prize Selected by Time as One of the Ten Best Books of the Year | A New York Times Notable Book | Named One of the

Best Books of the Year by The Washington Post Book World, The Christian Science Monitor, Rocky Mountain News, and Kirkus Reviews | A Los Angeles Times Book Prize Finalist | Winner of the ALA Alex Award | Finalist for the Costa Novel Award From award-winning writer David Mitchell comes a sinewy, meditative novel of boyhood on the cusp of adulthood and the old on the cusp of the new. Black Swan Green tracks a single year in what is, for thirteen-year-old Jason

Taylor, the sleepest village in muddiest Worcestershire in a dying Cold War England, 1982. But the thirteen chapters, each a short story in its own right, create an exquisitely observed world that is anything but sleepy. A world of Kissingeresque realpolitik enacted in boys' games on a frozen lake; of "nightcreeping" through the summer backyards of strangers; of the tabloid-fueled thrills of the Falklands War and its human toll; of the cruel, luscious Dawn Madden

and her power-hungry boyfriend, Ross Wilcox; of a certain Madame Eva van Outryve de Crommelynck, an elderly bohemian emigré who is both more and less than she appears; of Jason's search to replace his dead grandfather's irreplaceable smashed watch before the crime is discovered; of first cigarettes, first kisses, first Duran Duran LPs, and first deaths; of Margaret Thatcher's recession; of Gypsies camping in the woods and the hysteria they inspire; and, even

closer to home, of a slow-motion divorce in four seasons. Pointed, funny, profound, left-field, elegiac, and painted with the stuff of life, *Black Swan Green* is David Mitchell's subtlest and most effective achievement to date. Praise for *Black Swan Green* "[David Mitchell has created] one of the most endearing, smart, and funny young narrators ever to rise up from the pages of a novel. . . . The numerous designs by Ernst Neufert (1900-1986) and his son, Peter Neufert (1925-1999), which ranged from residences to industrial and office

buildings, helped define twentieth-century German architecture. Especially influential, of course, were the many years that Ernst Neufert taught at the Technical University of Darmstadt as well as his Bauentwurfslehre, a theory of architectural design that continues to be a standard work to this day. The Neuferts' buildings stand for Modernism and the rebuilding of Germany after World War II. Ernst Neufert, for instance, designed the strictly functional Quelle

distribution center in Nuremberg. Prestressed concrete offered technical opportunities for Peter Neufert's bold experiments in form,

which clearly distinguished his buildings in the late sixties from those of his father. Using large-format photographs,

this volume documents the first stage of six selected building projects by the two architects and attests to the quality and relevance of their designs.
