How far will four friends go for

immortality?
This novel is Hugo and Nebula Award-winning author “Robert Silverberg at his very best” (George R. R. Martin). After Eli, a scholarly college student, finds and translates an ancient manuscript called *The Book of Skulls*, he and his friends embark on a cross-country trip to Arizona in search of a legendary monastery where they hope to find the secret of immortality. On the

journey with Eli, there’s Timothy, an upper-class WASP with a trust fund and a solid sense of entitlement; Ned, a cynical poet and alienated gay man; and Oliver, a Kansas farm boy who escaped his rural origins and now wants to escape death. If they can find the House of Skulls where immortal monks allegedly reside, they’ll undergo a rigorous initiation. But do those eight

grinning skulls mean the joke will be on them? For a sacrifice will be required. Two must die so that two may live forever . . . Stretching the boundary between science fiction and horror, Robert Silverberg masterfully probes deeper existential questions of morality, brotherhood, and self-determined destiny in what Harlan Ellison refers to as “one of my favorite nightmare novels.” This

ebook features an illustrated biography of Robert Silverberg including rare images from the author’s personal collection.

The Curse of the Stone

Golem Castle

You think you know Misery? You've not seen anything yet . . . The republic faces annihilation, despite the vigilance of Galharrow's Blackwings. When a raven tattoo rips itself from his arm to deliver a desperate message, Galharrow and

a mysterious noblewoman must investigate a long dead sorcerer's legacy. But there is a conspiracy within the citadel: traitors, flesh-eaters and the ghosts of the wastelands seek to destroy them, but if they cannot solve the ancient wizard's paradox, the Deep Kings will walk the earth again, and all will be lost. The war with the Eastern Empire ended in stalemate some eighty

years ago, thanks to Nall's 'Engine', a wizard-crafted weapon so powerful even the Deep Kings feared it. The strike of the Engine created the Misery - a wasteland full of ghosts and corrupted magic that now forms a No Mans Land along the frontier. But when Galharrow investigates a frontier fortress, he discovers complacency bordering on treason: then the walls are stormed, and

the Engine fails to launch. Galharrow only escapes because of the preternatural magical power of the noblewoman he was supposed to be protecting. Together, they race to the capital to unmask the traitors and restore the republic's defences. Far across the Misery a vast army is on the move, as the Empire prepares to call the republic's bluff.
