Swashbuckling sailors, dashing dukes, naughty nurses, and sexy steward-esses caught in webs of love, passion, betrayal, and intrigue: these are the raw materials of the romance novel--and the lusty covers that advertise them. In *The Look of Love*, Jennifer McKnight-Trontz provides a rollicking history of the covers and stories that have captivated millions of readers worldwide. More than 150 of the most sensational covers from this venerable if venal literary form are shown in glorious color, focusing on the period from 1940 to 1970, romance design's most fertile era. *The Look of Love* features artwork and excerpts from titles such as *Passion Flower*, *Kept Woman*, *Rendezvous in Lisbon*, and *Jungle Nurse*. Along the way, it brings attention to the pioneers of the romance novel: cover artists such as Barye Phillips and Robert Maguire, who helped define the look of paperbacks in general, and Harlequin, the grand dame of romance publishers, with more than 100 million novels sold each year. McKnight-Trontz reveals the themes that typify both the story lines and the covers--hospital romance, the rich and raunchy, royalty, tropical paradises, Westerns, "taboo" relationships, pirates and warriors, and love triangles--resulting in this definitive compendium of camp. A book for romance lovers everywhere.

When I decided to write a book for Scarlet, it had to be about her favorite bird, the Owl. I knew little about them, so had to research them. I planned at first that I, as an artist, would illustrate the book. I then realized that, even though I am an animal artist, I would find the owls very difficult. Then I remembered my dear friend, Roberta Davis, who I knew could do a fantastic job. So I called her and happily she agreed to do the illustration. My job, surprisingly, would be the easy one. I knew I had to accomplish three things. 1. Who would be my heroin, 2. what would her problem be, and 3. how would it be solved. When these three were solved, I knew I had to have a lesson in self-faith taught to Ally. Being computer illiterate, I spent months trying to link the pictures to my story line. Not having a program that would do this, I had to find another way. Finally, it all came together and we are both very happy with the results.
