William Howard Taft declared, "I am sure the automobile coming in as a toy of the wealthier class is going to prove the most useful of them all to all classes, rich and poor." Unlike his predecessors, who made public their disdain for the automobile, Taft saw the automobile industry as a great source of wealth for this country. The first president to acquire a car in office (Congress granted him three automobiles), Taft is responsible for there being a White House garage in 1909. This is a meticulously researched reappraisal of the oft-maligned Taft presidency focusing particularly on his cars, his relationship to the automobile and the role of the automobile in the politics of his day. Appendices provide information on the White House garage and stable, Taft's speech to the Automobile Club of America and a glossary of terms and names.

This book is a comprehensive history of automobile workers in the pre-union era. It covers changes in the kinds of workers who staffed the auto factories, developments in the labor process and in overall conditions of work, daily life outside the factories, informal responses of workers to routinized, monotonous, and highly structured work, and automobile worker unions before the creation of the United Automobile Workers. Although the 1920s were seen at the time as a period of peaceful and cooperative labor relations, author Joyce Peterson looks beneath the surface to discover the many ways in which auto workers expressed their displeasure with and attempted to fight against working conditions. The book also examines the Briggs strike of 1933, the first strike to significantly register the impact of the Great Depression upon the automobile industry and to mark the end of the pre-union era. The automobile industry was a model of twentieth century mass production techniques, of managerial organization, and of labor relations. Studying automobile workers in their historical and social setting explains a great deal about the nature of modern industry—how it affects the daily life and work of employees and how workers see themselves as individuals and members of a working class.
