Few historical changes occur literally overnight, but on 13 August 1961 eighteen million East Germans awoke to find themselves walled in by an edifice which was to become synonymous with the Cold War: the Berlin Wall. This new history rejects traditional, top-down approaches to Cold War politics, exploring instead how the border closure affected ordinary East Germans, from workers and farmers to teenagers and even party members, 'caught out' by Sunday the Thirteenth. Party, police, and Stasi reports reveal why one in six East Germans fled the country during the 1950s, undermining communist rule and forcing the eleventh-hour decision by Khrushchev and Ulbricht to build a wall along the Cold War's frontline. Did East Germans resist or come to terms with immurement? Did the communist regime become more or less dictatorial within the confines of the so-called

'Antifascist Defence Rampart'? Using film and literature, but also the GDR's losing battle against Beatlemania, Patrick Major's cross-disciplinary study suggests that popular culture both reinforced and undermined the closed society. Linking external and internal developments, Major argues that the GDR's official quest for international recognition, culminating in Ostpolitik and United Nations membership in the early 1970s, became its undoing, unleashing a human rights movement which fed into, but then broke with, the protests of 1989. After exploring the reasons for the fall of the Wall and reconstructing the heady days of the autumn revolution, the author reflects on the fate of the Wall after 1989, as it moved from demolition into the realm of memory.

developed this project through his founding of TableTopOpera, a group of scholars and performers committed to performing multimedia projects promoting classical music to general audiences. TableTop's production, a reductionist fantasy based on Ariane et Barbe-bleue, played an adaptation of Paul Dukas's original score while panels of P. Craig Russell's popular graphic novel Ariane and Bluebeard, Op. 26 streaked across the auditorium screen. Brown wrote the score and the show was called "a miracle of collaborative creation" thanks to "all editing decisions made in regard not only to Brown's

profound knowledge of the epoch and Russell's passion for the opera but of the demanding virtuosos who would be playing it, for the multimedia skills it would require - and for a strong commitment to the integrity of the original score." Th. Emil Homerin produced the show. This book, based off the performance project, already is being marketed through TableTopOpera. Contributors to the volume include an opera singer and instructor from the Metropolitan Opera's production of Bluebeard's Castle, the celebrated comic and graphic artist P. Craig Russell, and scholars in classics, religion, history, women and gender studies, and rare books. — Although the premier of Ariane et Barbe-bleue is frequently lauded as a landmark in operatic history, there is at present no book devoted solely to its history, structure, reception, and cultural implications. — This book will stand out on our music list and contribute to our reputation for publishing books on multimedia topics by touching on such diverse subjects as opera, comic books, and animated movies. Further, it

contributes to our list of significant works on women and gender studies. — Our target audience includes students, scholars, and readers interested in musicology, particularly Paul Dukas, French music, and multimedia opera. Other related interests include histories of print, multimedia, and comic works, philosophical discussion of Plato and mysticism, and French symbolist literature. On April 14, 1986, Simone de Beauvoir died in Paris.

She was the “prettiest Existentialist”, who during her long and intense life had observed, described, analytically deconstructed and effectively changed the world that surrounded her, “one word at a time”. An engaged intellectual like her life partner and comrade Jean-Paul Sartre, she took actively part in most of the main social and political struggles of the 20th century, including, first and foremost, women’s emancipation and self-determination, as well as the decolonisation of French Algeria, and the denouncement of American imperialism in Vietnam and the marginalisation of elderly people in contemporary societies. This collection of essays, arising from the 18th International Conference of the Simone de Beauvoir Society held in Cagliari, Italy, in June 2010, provides a major contribution to the field of Beauvoirian studies with up-to-date research provided by scholars from a variety of disciplines that range from French literature to gender studies, from philosophy to social sciences, offering a multifaceted overview on the “state of the art” of research on the life and the works of Simone de

Beauvoir, 30 years after her demise.

The stories are taken from the collections published by Afanasief, Khudyakof, Erlenvein, and Chudinsky. "STORIES contained in the following pages are taken from the collections published by Afanasief, Khudyakof, Erlenvein, and Chudinsky. The South-Russian collections of Kulish and Rudchenko I have been able to use but little, there being no complete dictionary available of the dialect, or rather the language, in which they are written. Of these works that of Afanasief is by far the most important, extending to nearly 3,000 pages, and containing 332 distinct stories — of many of which several variants are given, sometimes as many as five. Khudyakof's collection contains 122 skazkas — as the Russian folk-tales are called — Erlenvein's 41, and Chudinsky's 31. Afanasief has also published a separate volume, containing 33 "legends," and he has inserted a great number of stories of various kinds in his "Poetic views of the Old Slavonians about Nature," a work to which I have

had constant recourse."

Cartoonists and animators have given animals human characteristics for so long that audiences are now accustomed to seeing Bugs Bunny singing opera and Mickey Mouse walking his dog Pluto. The Animated Bestiary critically evaluates the depiction of animals in cartoons and animation more generally. Paul Wells argues that artists use animals to engage with issues that would be more difficult to address directly because of political, religious, or

social taboos.

Consequently, and principally through anthropomorphism, animation uses animals to play out a performance of gender, sex and sexuality, racial and national traits, and shifting identity, often challenging how we think about ourselves. Wells draws on a wide range of examples, from the original King Kong to Nick Park's Chicken Run to Disney cartoons such as Tarzan, The Jungle Book, and Brother Bear to reflect on people by looking at the ways in which they respond to animals in cartoons and films.

"By turns alarming and encouraging...Manuel delineates with clarity [why] the US must attend closely to...harmonious future relations with China and India" (Kirkus Reviews) and why our obsession with China (as once with Japan) is shortsighted. In the next decade and a half, China and India will become two of the world's indispensable powers—whether they rise peacefully or not.

During that time, Asia will surpass the combined strength of North America and Europe in economic might, population size, and military spending.

Both India and China will have vetoes over many international decisions, from climate change to global trade, human rights, and business standards. From her front row view of this colossal shift, first at the State Department and now as an advisor to American

business leaders, Anja Manuel escorts the reader on an intimate tour of the corridors of power in Delhi and Beijing. Her encounters with political and business leaders reveal how each country's history and politics influences their conduct today. Through vibrant stories, she reveals how each country is working to surmount enormous challenges—from the crushing poverty of Indian slum dwellers and Chinese factory workers, to outrageous corruption scandals, rotting rivers, unbreathable air, and managing their citizens' discontent.

"Incisive...lively and accessible...Manual shows us that an optimistic path is possible: we can bring China and India along as partners" (San Francisco Chronicle). We wring our hands about China, Manuel writes, while we underestimate India, which will be the most important country outside the West to shape China's rise. Manuel shows us that a different path is possible—we can bring China and India along as partners rather than alienating one or both, and thus extend our own leadership in the world. This Brave New World offers "a thoughtful

analysis...and a strategy for keeping it from turning violent" (The Wall Street Journal). <i>The Thousand and One</i>	<i>Nights</i> Routledge This fresh and original book about Jesus considers the Jesus of devotion, the Jesus within.	It includes fifty-two images of Jesus, each of which provides inspiration for a meditation - one for each week of the year.
